NEAUVIA

The
PROMISE
of
AMPLIFIED
AESTHETIC
RESULTS.¹

Taking care of the skin is like nurturing a work of art... It requires a vision, and then an expert approach focused both on the global result and on every single detail.

Neauvia Aesthetic Cosmeceuticals² are exceptional solutions with scientifically proven efficacy designed by doctors for aesthetic medicine specialists.

1. Data on file.

2. Neauvia Cosmeceuticals are cosmetic products according to Regulation 1223/2009.

“

I see the skin above all as an organ that we can stimulate, correct to erase signs of ageing with different techniques.

However, we also need to balance in a long-term approach to achieve and maintain the best results.

In my opinion, balancing skin stimulation and inflammation is one of the keys to an effective pro-ageing approach.

The second key? A synergistic approach!

Skin's youthful appearance is a question of volume, shape, texture, radiance...

Every day in my practice, I combine the best of all technologies to accompany my patients...

from medical treatment to smart daily skincare gestures.

Nicola Zerbinati

*Professor of Dermatology and Venereology at the University of Insubria, Varese (Italy).
NEAUVIA Medical Director. Active member of the Italian Society of Dermatology.*

NEAUVIA

SYNERGISTIC PHILOSOPHY BEHIND THE EXPERT FORMULATION

The history of NEAUVIA Cosmeceuticals' origins is a story of passion, encounters and a desire to bring innovative solutions to the Aesthetic market.

This unique combination resulted in designing a line of Aesthetic Cosmeceuticals, whose primary purpose is to respond to the needs of patients undergoing aesthetic treatments.

A master of his profession, an inspirer and precursor of revolutionary solutions, Prof. Nicola Zerbinati, Neauvia Scientific Director, in his more than 20 years of medical practice, observed that preparations available on the market do not entirely meet his expectations.

After the success of the disruptive PEG cross-linked fillers and energy-based devices, he decided to extend the existing "aesthetic tools" with topical solutions, together with the Neauvia brand's creators. He sought skincare that improves the patient's skin resistance, restores its balance, and provides ultimate rejuvenating effects. He craved something more that would be highly effective and, simultaneously, gentle on the skin, often irritated by treatments.

He knew exactly how important a synergistic approach to skincare is, but it was even more essential for him to achieve the synergistic effect of fillers, devices, and cosmeceuticals. While creating specific treatment protocols, he respected the need to act on different skin layers to amplify the results.

To develop formulas containing the latest-generation active substances that would be as stable as pleasant to use, and addressing the most common skin needs and concerns, Prof. Zerbinati decided to join forces with Dr Mauro Castiglioni, an outstanding pharmacist with 30 years of professional experience, and an in-house R&D department and its vast and versatile knowledge.

The thorough selection of molecules with broad expertise, advanced delivery technologies, and hundreds of experiments has allowed the creation of a range of cosmeceuticals that comprehensively addresses the skin's needs after aesthetic treatments and aims to enhance their outcome.

The phenomenal results obtained in clinical tests guarantee effectiveness and demonstrate an ideal component of NEAUVIA's Advanced synergistic approach to obtaining beautiful, healthy and youthful-looking skin.

NEAUVIA

EXPERTISE

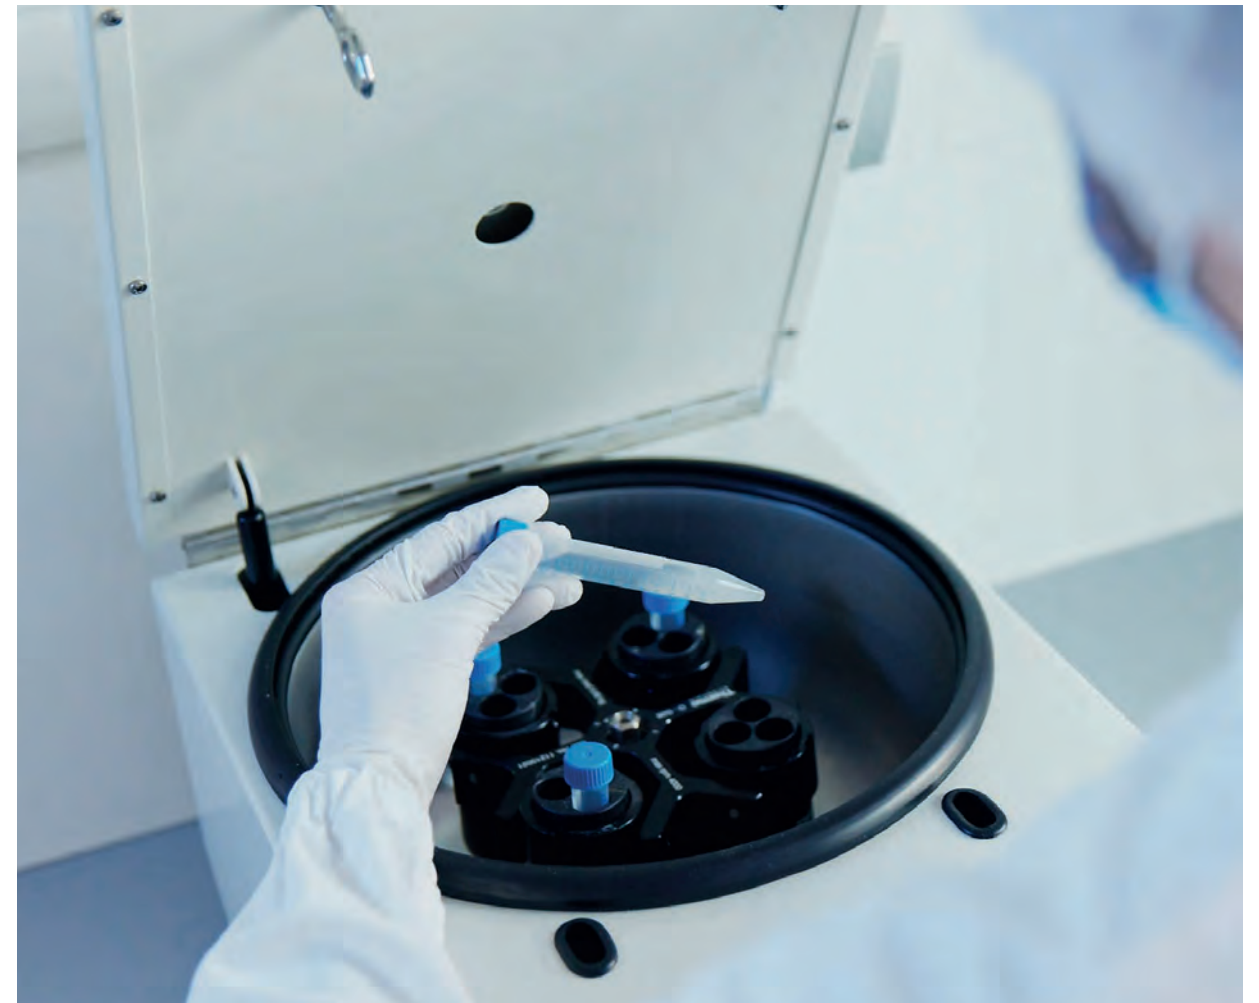

SCIENCE. EXPERTISE. PASSION FOR INNOVATION.

NEAUVIA

The heart of the Neauvia brand is found in the people who create it, developing cutting-edge solutions and continually striving to exceed the limits of the impossible.

Every Neauvia masterpiece manufactured by outstanding specialists is based on the highest standards. It would not have been possible without its own laboratory, which allows every element of the products to be refined.

Broad knowledge of the latest scientific findings, the meticulous selection of molecules, and a sense of commitment to the mission in action are the principles that define Neauvia's research team. An immense amount of research, trials, and analyses, all to provide specialists with complex preparations that make a difference.

UNIQUE INGREDIENTS *and* ADVANCED DELIVERY SYSTEMS

EXPERT FORMULATION

Skin undergoing treatment may become sensitised and require specific attention during its care. The choice of each component of Neauvia's aesthetic skincare was determined by the desire to alleviate the skin, restore its comfort, reinforce protection, and boost its renewal. All together to ensure faster regeneration and exceptional results in a shorter time.

Discover our precious and highly potent molecules that keep their promise...

A NEW DIMENSION *of* HYDRATION

3D HYALURONIC ACID

Hyaluronic acid is a rejuvenating ingredient, widely known for its moisturising and skin smoothing properties, that provides instant youth. It has a unique water-binding capacity as a powerful humectant, ensuring a plumping effect on the skin while minimising fine lines and the visibility of wrinkles. It helps to lock moisture in the skin, providing optimal balance. Hyaluronic acid is one of the components of ECM, influencing skin structure and suppleness. It plays an essential role in wound healing, which is particularly crucial for skin after the treatment.¹

WHAT AFFECTS THE EFFECTIVENESS OF HYALURONIC ACID IN SKINCARE?

Molecular weight. It determines the depth of the penetration of the hyaluronic acid molecules. In its Cosmeceuticals, the Neauvia brand uses hyaluronic acid of 3 particle sizes, obtained through a patented sonication process, to provide multi-layered hydration of the epidermis, while showing additional irritation-soothing properties.²

2. Data on file.

NEAUVIA

THE PUREST HEALING ACCELERATION

GROWTH FACTORS

Growth factors are multitasking peptides. They significantly support skin repair processes, boosting collagen and elastin production, and thus widespread regeneration, as well as diminishing signs of the ageing process. Growth factors in skincare act to improve skin structure and condition, resulting in skin firmness, smoothness, and suppleness. They are safe for even sensitive skin. Growth factors connect with the cell membrane receptor, initiating a communication chain that stimulates the processes of cell growth, differentiation and proliferation. Signal peptides are a perfect solution for skin that requires repair and rejuvenation.¹

WHAT IS THE SECRET OF THE EFFECTIVENESS OF GROWTH FACTORS USED IN NEAUVIA SKINCARE?

Exceptional pureness and structure together with the delivery system. Selected growth factors are practically identical to those naturally occurring in the skin, ensuring their effectiveness. Encapsulation in nanosomes allows for gradual release in the skin and increases penetration of active substances. The combination of different peptides in one preparation releases their synergistic potential, responding to the skin's needs after treatments.²

REVITALISING POWER

VITAMIN C

Vitamin C is one of the most well-known and most powerful ingredients used in skincare due to its diverse spectrum of activity. Vitamin C has excellent antioxidant potential, scavenging free radicals caused by UV radiation, air pollution or stress. It effectively brightens dark spots and hyperpigmentation as it inhibits the activity of an enzyme responsible for melanin production. Vitamin C stimulates collagen formation, visibly improving skin quality and elasticity. Among its benefits is its photoprotective effect, as it diminishes the intensity of skin reaction to UV radiation and helps repair damaged skin cells. Multi-active Vitamin C amplifies the effects of anti-ageing and rejuvenating treatments, notably restoring the skin's youthful radiance.¹

WHAT IS THE CHALLENGE FOR VITAMIN C EFFECTIVENESS?

Vitamin C instability. In skincare formulations, a commonly used form is L-ascorbic acid, sensitive to oxidation by UV radiation, extreme temperatures, or oxygen. It can also be irritating at high concentrations, providing significant discomfort for sensitive skin or after treatments. To meet patients' expectations regarding the high quality and efficiency of the molecule, Neauvia specialists have selected the newest generation of vitamin C, with superior stability and a balanced pH, namely **3-ethyl ascorbic acid**.²

NEAUVIA

CONCENTRATED SERUMS

POWERFUL SOLUTIONS *for* VISIBLE SKIN TRANSFORMATION

Powerfully concentrated formulas with targeted actions. Stable and highly effective ingredients closed in advanced microcarriers allow intense skin stimulation. Just a few drops are all it takes to deliver the skin transformative “energy”. This is a crucial step to intensify the results of treatments for visible skin renewal.¹

1. Data on files. Effects proven by ex-vivo or in vitro tests performed on the different products of the range by an independent laboratory.

C-SHOT

Key ingredient:

30% 3-O-ETHYL ASCORBIC ACID

Aesthetic indication:

Skin with visible signs of photoageing, hyperpigmentation and laxity.

A revitalising serum that brightens dark spots and even out skin tone, promoting a healthy, radiant look. It smooths out fine lines and wrinkles and reinforces antioxidant protection to defend the skin against environmental triggers.

Benefits:

- Significant decrease in melanin content (-15.52%) from 4 days of use.¹
- Cell's photoprotective effect.¹
- Highly significant increase in collagen synthesis from 24hrs of treatment.¹
- Gentle for the skin thanks to a balanced pH.

Directions for use:

Smooth 3-5 drops onto cleansed and toned skin. Follow with moisturiser.

Beauty tip:

To boost the microcirculation and serum absorption gently tap the skin.

1. Data on file. In vitro and patch tests conducted on the product by an independent laboratory.

RETINOIDS CONCENTRATE

Key ingredients:

RETIN COMPLEX: 0.1% RETINOL, 0.1% RETINALDEHYDE, BIORETINOL

Aesthetic indication:

Skin with all visible signs of ageing, enlarged pores, acne.

A powerful serum that accelerates skin renewal. Visibly diminishes the look of wrinkles and imperfections. Rejuvenating solution that targets skin smoothness, firmness and hydration.

Benefits:

- Significant increase in cell renewal (43%) after 48hrs of treatment.¹
- Notable rise in skin firmness by boosting collagen (up to 6x) and elastin (63%) synthesis after 24hrs of treatment.¹
- Safe for skin and does not cause any irritant activity.¹

Directions for use:

Smooth 3-5 drops onto cleansed and toned skin during the night-time regimen. Follow with moisturiser. Apply sun protection daily.

Beauty tip:

Start your Retinoid treatment by applying twice a week to gain tolerance to new actives. Then increase it by 1 day each week until used every night.

1. Data on file. In vitro and patch tests conducted on the product by an independent laboratory.

NEAUVIA

ANTIOX SERUM

Key ingredients:

ANTIOX COMPLEX: 0.5% S-ARACHIDONOLO/
LINOLENOLO/LINOEOLO GLUTATHIONE, 3-O-ETHYL
ASCORBIC ACID, 2% α -LIPOIC ACID-COENZYME Q10

Aesthetic indication:

Skin with signs of fatigue, uneven complexion,
sensitivity and redness.

An antioxidative booster that awakens skin vitality.
Effectively protects the skin from oxidative stress
and air pollution, preventing it from ageing.
Immediately leaves the skin glowing, providing
a healthy and fresh look.

Benefits:

- Notably enhanced pollution protection by decreasing Reactive Oxygen Species (-42%) after 48hrs of treatment.¹
- Significant increase in photooxidative stress protection by decreasing lipid peroxidation (-16%) of UVB-stimulated cell membranes after 24hrs of treatment.¹
- Safe for skin and does not cause any irritant activity.¹

Directions for use:

Smooth 3-5 drops onto cleansed and toned skin.
Follow with moisturiser.

Beauty tip:

To calm sensitive skin, delicately touch and hold it
for a while. Remember to take the hands off slowly.

1. Data on file. In vitro and patch tests conducted
on the product by an independent laboratory.

NEAUVIA

ACNE STRESS CONTROL

Key ingredients:

ANTI-BLEMISHES COMPLEX: 10-HYDROXYDECANOIC ACID
(ROYAL JELLY), SEBACIC ACID AND 1,10-DECANEDIOL,
4% NIACINAMIDE, DIMETHYLMETOXY CHROMANOL

Aesthetic indication:

Skin with blemishes and excessive sebum production.

A clarifying serum that smooths enlarged skin pores
and locks moisture into the skin.
Oil-free treatment helps to diminish imperfections
and calms skin irritation, bringing it balance
and comfort.

Benefits:

- Significant antibacterial activity by decreasing the level of P. acnes (-99.9%) after 24hrs of treatment.¹
- Alleviating properties - significant reduction in IL-1 α level in cells stimulated with P. acnes after 8hrs of treatment.¹
- Safe for skin and does not cause any irritant activity.¹
- Semi-matte finish for perfected and smoothed skin.

Directions for use:

Smooth 1-2 pumps onto cleansed and toned skin.
Follow with moisturiser if needed.

1. Data on file. In vitro and patch tests conducted
on the product by an independent laboratory.

NEAUVIA

ADVANCED MOISTURISERS

HYDRATE SMOOTH RESTORE

Moisturisers embrace the skin with soothing moisture. They restore skin harmony, supply the right amount of hydration and accelerate the healing process. An essential moment that strengthens skin protection against environmental aggressors.

ADVANCED CREAM

Key ingredients:

GROWTH FACTORS (KGF, EGF, *a*FGF, *b*FGF), CERAMIDE COMPLEX: CERAMIDE 1,6, II, PHYTOSPHINGOSINE, CHOLESTEROL; PHYSALIS ANGULATA EXTRACT, COPPER TRIPEPTIDE-1, 3D FRACTIONAL HYALURONIC ACID

Aesthetic indication:

Skin with dryness, irritation, signs of ageing and after an aesthetic procedure.

An ultimate cream that immerses the skin in moisture and accelerates the regeneration process². Deeply calms skin irritation², smooths the appearance of fine lines and wrinkles. Skin is plumped, nourished and resilient.

Benefits:

- Post-procedure soothing solution that supports skin's healing.¹
- Skin-like peptides in nanosome technology.
- Restores skin balance for a healthy and youthful appearance.¹
- Rich, skin-embracing formula.

Directions for use:

Warm a small amount between the fingertips and press into the skin.

Beauty tip:

Never forget to care for the neck and décolletage. They always need special attention.

CERAMIDE SHIELD

Key ingredients:

CERAMIDE COMPLEX: CERAMIDE 1, 6 II, PHYTOSPHINGOSINE, CHOLESTEROL; PREBIOTIC PEPTIDE: HEPTAPEPTIDE-4; SOOTHING PEPTIDE: HEPTAPEPTIDE -10, CENTELLA ASIATICA LEAF EXTRACT

Aesthetic indication:

Skin with dehydration, redness and sensitivity. Rosacea and atopic skin.

A restorative cream that strengthens the natural skin barrier and promotes a balanced microbiome. Replenishes hydration, calms irritation and softens the appearance of wrinkles thanks to its instant skin-regenerating power.

Benefits:

- Significant decrease in interleukin-6 production after 24hrs of treatment - soothing effect.¹
- Moisturising effect.¹
- Remarkable increase in collagen and elastin production after 24hrs of treatment.¹

Directions for use:

Spread 1-2 pumps between the fingertips and press into the skin.

Beauty tip:

Turn the skincare routine into a ritual and massage the skin by smoothing it upwards on the neck and outwards on the face.

C-ROUTINE

Key ingredient:

4% 3-O-ETHYL ASCORBIC ACID

Aesthetic indication:

Skin with signs of fatigue, discolouration and ageing spots. Normal to combination skin.

An illuminating cream with stable vitamin C that helps protect the skin from visible signs of ageing. Rapidly restores youthful radiance, moisturises² and improves skin texture. Skin becomes more even, brightened and supple.

Benefits:

- Aims to provide antioxidant protection.¹
- Targets anti-ageing protection.¹
- Liquid crystal structure for prolonged moisture.¹
- Light texture that infuses the skin with a healthy glow.

Directions for use:

Spread 1-2 pumps between the fingertips and press into the skin.

REBALANCING CREAM RICH

Key ingredients:

GROWTH FACTORS (KGF, EGF), CERAMIDE COMPLEX: CERAMIDE 1,6, II, PHYTOSPHINOSINE, CHOLESTEROL; PHYSALIS ANGULATA EXTRACT, LIQUORICE EXTRACT, 3D FRACTIONAL HYALURONIC ACID

Aesthetic indication:

Dry, mature skin with irritation.

An exceptional cream with a powerful regenerating effect. Helps to calm irritation and restore the skin's balance, preventing it from ageing. Exquisite treatment that supports the regenerating process while delivering soothing hydration.

Benefits:

- Active ingredients that moisturise and nourish the skin.¹
- Boosts regeneration thanks to biomimetic peptides.¹
- Soothing properties.¹
- Luxurious texture with a sensorial experience.

Directions for use:

Spread a small amount between the fingertips and press into the skin.

NEAUVIA

REBALANCING CREAM LIGHT

Key ingredients:

GROWTH FACTORS (KGF, EGF), CERAMIDE COMPLEX:
CERAMIDE 1,6, II, PHYTOSPHINOSINE, CHOLESTEROL;
PHYSALIS ANGULATA EXTRACT, LIQUORICE EXTRACT,
3D FRACTIONAL HYALURONIC ACID

Aesthetic indication:

Normal, combination or irritated skin.

A lightweight cream supporting skin regeneration that
supplies the skin with essential moisture, soothing and
reinforcing its protective barrier. Visibly softens the skin,
leaving a silky finish.

Benefits:

- Provides multi-layered hydration thanks
to fractional HA.¹
- Helps to soothe irritation and restore skin comfort.¹
- Cream-gel texture with a scent that soothes
the senses.

Directions for use:

Spread a small amount between the fingertips
and press into the skin.

¹. Data on file.

NEAUVIA

SKIN PREPARATION

ADVANCED SKIN PREPARATION *for* CLEAN, BALANCED AND RADIANT SKIN, READY FOR MORE...

The skincare ritual starts with thorough skin preparation. By deep cleansing, calming, and awakening skin's vitality, it leaves it ready to receive all the precious ingredients of the following preparations. A feeling of softness and smoothness from the very first skincare step.

NEW BORN SKIN

Key ingredients:

BIORETINOL, CERAMIDE 2, 6II, KARITE BUTTER, PELARGONIUM GRAVEOLENS EXTRACT, PRUNUS CERASUS FLOWER EXTRACT

Aesthetic indication:

All skin types.

A micellar milk that ensures thorough cleansing while maintaining the balance of the hydrolipidic barrier. The gentle formula purifies and boosts renewal², leaving skin ultra-soft.

Benefits:

- Recommended for even sensitive skin.²
- Natural extracts for a soothing and antioxidant action.¹
- Skin-comforting properties.¹

Directions for use:

Massage a small amount all over the face. Remove with cotton pads or rinse off with water.

Beauty tip:

Hot water can increase redness and irritation. The most suitable temperature is lukewarm water. To boost microcirculation, finish with a cold splash.

1. Data on file.
2. Test on ingredient.

WAKE UP SKIN

Key ingredients:

PELARGONIUM GRAVEOLENS EXTRACT, PRUNUS CERASUS FLOWER EXTRACT, 3-O-ETHYL ASCORBIC ACID, SARACHIDONOYL/LINOLENOYL/LINOLEOLYL GLUTATHIONE

Aesthetic indication:

All skin types.

A toner with antioxidants that awakens the skin, bringing immediate brightness. Restores an optimal pH, refreshes the skin, and helps to protect against free radicals.

Benefits:

- Stable and powerful antioxidants.¹
- Recommended for even sensitive skin.²
- Natural extracts for a soothing and antioxidant action.¹

Directions for use:

Moisten cotton pads and smooth over the face and neck after cleansing.

Beauty tip:

You can also apply the toner with your hands and pat it in gently until it is completely absorbed.

1. Data on file.
2. Test on ingredient.

NEAUVIA

CITY ESCAPE MASK

Key ingredient:

BAMBOO CHARCOAL

Aesthetic indication:

All skin types.

A skin detox mask that efficiently refines skin texture and cleans pores deep down. Removes skin impurities and dullness and enhances protection against environmental pollution thanks to bamboo charcoal. Perfect skin cleansing with a smoothing effect and no irritation.

Benefits:

- Active ingredient that detoxifies, purifies and smooths the skin.¹
- Leaves skin without any feeling of tightness.
- Helps to balance sebum production.¹

Directions for use:

Spread over the face in circular motions. The encapsulated Charcoal will be activated and transform into a uniform grey/black colour. Rinse well after 10 minutes.

Beauty tip:

Apply the mask once a week for dry or sensitive skin, or twice a week for oily or combination skin. Then enjoy a baby-soft face.

¹. Data on file.

NEAUVIA

EYE TREATMENT

ARTISTIC TOOLS *to* SCULPT THE EYE AREA

The eye contour requires special care tailored to the needs of this most delicate area. Creating a fresh look, correcting expression lines, brightening dark circles... all to prevent the signs of time on the skin.

EYE FUSION

Key ingredients:

PLANKTON EXTRACT, DIMETHYLMETHOXY CHROMANOL.

Aesthetic indication:

Eye area with signs of ageing and fatigue.

An advanced eye treatment that aims to brighten dark circles, reduce puffiness and diminish the visibility of fine lines, leaving eyes looking well-rested. The lightweight formula enhances antioxidant protection and protects the eye from environmental factors.

Benefits:

- Active ingredients that smooth, moisturise and brighten the eye area.¹
- Ultra skin-comforting texture.
- Perfect to treat the area around the lips.

Directions for use:

Apply 1 pump to the eye contour with the ring fingertips. Smooth in with circular movements around the eye contour.

Beauty tip:

Apply a generous amount of the Eye Fusion as a night mask once a week. The eye area will be visibly hydrated, plumped and rested.

¹. Data on file.

EYE CONTOUR SERUM

Key ingredients:

LIFTING PEPTIDES: HEXAPEPTIDE-8, OCTAPEPTIDE-3;
GROWTH FACTORS: EGF, KGF; 3D FRACTIONAL
HYALURONIC ACID

Aesthetic indication:

Demanding eye area with sagging skin.

Lifting serum that erases expression lines and tightens the eye contour. Fast-absorbing treatment thanks to a gel consistency immediately improves skin texture and rejuvenates the look of the eye area.

Benefits:

- Lifts eye contour.¹
- Rapidly softens the look of wrinkles.¹

Directions for use:

Apply 1 drop around the eyes with the ring fingertips. Massage in around the eyes and finish by gently tapping. Follow with Eye Fusion Cream.

Beauty tip:

To reduce puffiness, press the eye contour starting from the inner corner and moving outwards towards the temples.

¹. Test on ingredient.

NEAUVIA

LIP TREATMENT

A NEW DIMENSION *of Lips Volume and* GLOSSINESS

Well-defined, hydrated lips with natural shine are perceived as an attribute of beauty and attractiveness. Lip injections are one of the most requested treatments at aesthetic medicine clinics. To complete and prolong the results, everyday care with a complex formula is essential to protect, prevent dryness and obtain the look of healthy, immediately fuller and alluring lips.

LIP BLISS

Key ingredients:

3D HA, PLUMPING PEPTIDE: PALMITOYL TRIPEPTIDE-1; ARNICA MONTANA, VITAMIN K2, SESAMUM INDICUM SEED EXTRACT, DECANONE, NEEM OIL

Aesthetic indication:

Chapped, dehydrated lips with visible wrinkles and loss of elasticity. Lip filler aftercare.

The expert lip treatment that defines and emphasises the lips, designed to be used after HA filler injections and for daily care. A unique combination of selected ingredients which moisturise and instantly restore lip elasticity and volume, helping to decrease the appearance of bruises.¹ Lip Bliss leaves the lips flawlessly soft, plumped and regenerated, aiming to enhance the results of lip injections.

Directions for use:

Apply as needed to moisturise, plump and soothe lips throughout the day.

Beauty tip:

Apply a touch of your preloved lipstick, wipe off the excess with a tissue and apply Lip Bliss for a new, luscious effect to your lips in your favourite colour.

Benefits:

- Antioxidant protection thanks to Vitamin K and Decanone.
- Upgraded technology of HA with Silanol to prevent the epidermal thinning and support skin barrier recovery.
- Plumping peptide that hydrates and smooths the surface of the lips by boosting GAGs and collagen production.
- Regenerating and soothing properties provided by Arnica flower and neem oil.

¹. Data on file.

NEAUVIA

SPOTLESS BEAUTY ROUTINE

REGAIN SKIN RADIANCE *in a* GENTLE WAY

A 3-step skincare routine to effectively target hyperpigmentation and regain skin radiance while respecting skin's balance. Enriched with selected and potent ingredients, aiming to diminish signs of photoaging such as dark spots, wrinkles, roughness and restores a healthy glow. Skin becomes more even, luminous and protected.

PHA TOUCH

Key ingredients:

5% GLUCONOLACTONE, 0.5% SALICYLIC ACID, 2% PHYTIC ACID + MANDELIC ACID, PREBIOTIC PEPTIDE, ANTI-REDNESS PEPTIDE, 3D FRACTIONAL HA

Aesthetic indication:

All skin types aiming to boost skincare activity.

Skin prep essence with gluconolactone and blends of gentle acids that promote skin renewal. This powerful lotion smoothes out skin texture, diminishes pores, and prepares the skin for the next skincare steps. Its luxurious, pampering texture restores skin's radiance, leaving it flawless and soft-to-touch. Enriched with prebiotic and anti-redness peptide, soothe and restore skin's balance.

Benefits:

- Accelerates skin renewal.¹
- Refines skin pores.¹
- Helps to normalise sebum production.¹
- Does not irritate the skin.¹

Directions for use:

Shake gently before using. Sprinkle a few drops of lotion onto the fingertips or moisten a cotton pad. Press into a cleansed and toned skin. Follow with your serum and moisturiser.

Beauty tip:

Use the PHA Touch every day and night to enjoy the effect of perfectly softened and smoothed skin.

1. Data on file. In vitro tests conducted on the product by an independent laboratory.

MELAN-OX SERUM

Key ingredients:

5* BRIGHTENING COMPLEX: 2.5% TRANEXAMIC ACID², 5% NIACINAMIDE², 4% 3-O-ETHYL ASCORBIC ACID, 0.3% 4-BUTYLRESORCINOL², BRIGHTENING PEPTIDE, 3D FRACTIONAL HA

Aesthetic indication:

Skin with different types of hyperpigmentation and signs of photoaging.

An advanced solution that successively lightens the skin day after day, revealing its natural beauty. Concentrated in active ingredients with targeted brightening action to reduce the appearance of different kind of spots. Serum evens out skin tone, illuminates and aims to protect against new discolouration formation.

Benefits:

- Decreases melanin production up to almost 30%.¹
- Diminishes ROS triggered by UVB up to 41% - antioxidant activity.¹
- Non-phototoxic.¹
- Non-photo sensitising.¹
- Does not irritate the skin.¹

Directions for use:

Smooth 3-5 drops onto cleansed and toned skin. Follow with moisturiser.

1. Data on file. In vitro tests conducted on the product by an independent laboratory.
2. Data on file. Proven high efficacy on Melasma.

PHOTO-DEFENSE

Key ingredients:

RICE EXTRACTS, MICROALGAE EXTRACT, NIACINAMIDE, SILYMARIN, 3D FRACTIONAL HA

Aesthetic indication:

All skin types.

A broad-spectrum SPF 30+ sunscreen protecting the skin from UV, IR and HEV light that trigger skin damage and the photoaging process. Contains selected UV filters, safe for the reef and ocean, formulated without nanoforms. Enriched with ingredients aiming to brighten the skin and defend it from oxidative stress triggered by environmental factors. Suitable to use after aesthetic treatments. Lightweight, smoothing texture perfect to apply under makeup and mixing with foundation.

Directions for use:

Apply 1-2 pumps evenly over the face, neck and décolletage 20 minutes before sun exposure. Apply over your moisturiser or under makeup.

Beauty tip:

Reapply regularly an appropriate amount of a sunscreen as it is essential to achieve certain value of SPF protection.

1. Data on file. In vitro tests conducted on the product by an independent laboratory.

NEAUVIA

POST-TREATMENT FOUNDATIONS

A SOFT TOUCH *of* SKIN CARE ENHANCEMENT

The treatment foundation is a final touch that extends the soothing energy of skincare. The wealth of active ingredients promote regeneration and skin comfort. A flawless look gained by buildable coverage. Delightful, creamy textures that are applied with pleasure.

REBALANCING MAKE UP

Key ingredients:

GROWTH FACTORS: EGF; 3D FRACTIONAL HYALURONIC ACID,
LIQUORICE ROOT EXTRACT, BISABOLOC

Aesthetic indication:

All skin types. Especially for skin with imperfections or after
aesthetic treatments.

An advanced foundation that prolongs the moisturising and
regenerating power of skincare. Soft and skin-comforting
texture, buildable coverage for a flawless and healthy look.
Available in 3 shades.

Benefits:

- Calming cream with mineral pigments.
- Moisturises, improves regeneration and provides
fresh and natural appearance all day long.¹
- Helps soothe skin irritation.¹

Directions for use:

Smooth over the face with the fingertips or a foundation
sponge. Blend the foundation to seamlessly melt it into the skin.

Beauty tip:

To achieve a youthful, luminous finish, mix the foundation
with 1 pump of C-Routine.

NEAUVIA

INTIMATE AREA CARE

A REJUVENATING COMPRESS *for the* INTIMATE AREA

The skin of the intimate area is extremely delicate and prone to irritation. Softness, firmness and suppleness like a rose petal are provided by a rejuvenating intimate treatment. A soothing and healing solution for strengthening femininity.

NEAUVIA

REJUVENATION ROSE GEL

Key ingredients:

3D FRACTIONAL HYALURONIC ACID,
GROWTH FACTORS: EGF, αFGF, bFGF, IGF-1, VEGF,
TREHALOSE

Aesthetic indication:

Intimate area with dehydration or sensitivity, or after
aesthetic treatments.

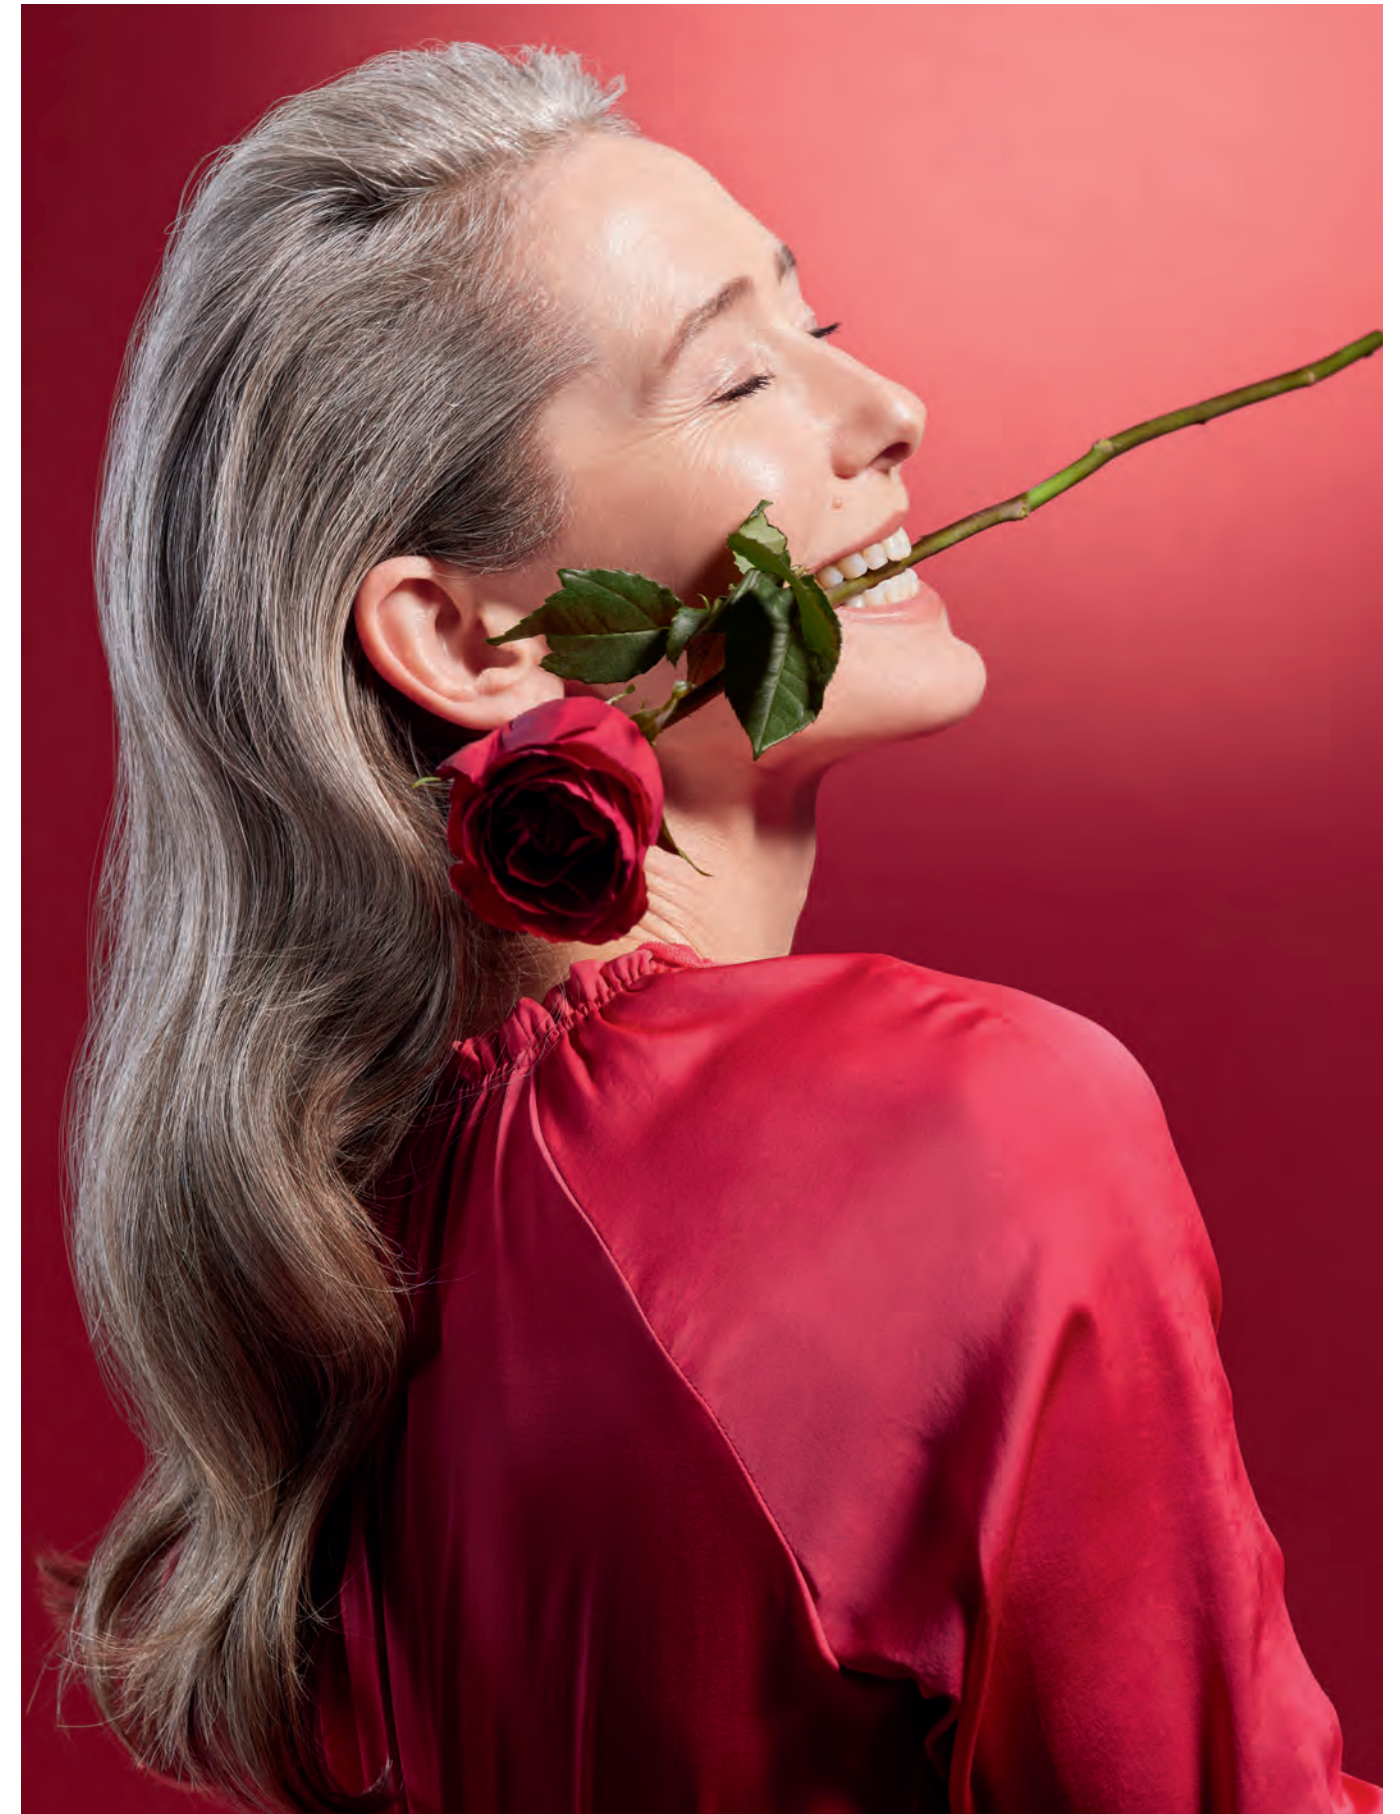

A rejuvenating intimate treatment that instantly moisturises
the skin, soothes irritation and improves firmness, bringing
optimal comfort thanks to the active ingredients. An
advanced gel delivers deep hydration, accelerates
regeneration and provides a plumping effect.²

Benefits:

- Physiological pH suitable for the intimate area.¹
- Gel texture with alleviating properties
thanks to active ingredients.
- Refreshing gentle rose scent.

Directions for use:

Apply 1-2 pumps of gel to the cleansed intimate area
1-2 times a day, as needed.

NEAUVIA

MEN'S SKINCARE

THINKING *of* MEN'S SKINCARE NEEDS

Men's skin requires manly solutions. Compositions specially designed for men's skin to help to alleviate irritation, even that caused by shaving, moisturise, and deliver energy, indispensable in preventing ageing processes. A light and well-absorbed texture that will satisfy even the highest expectations.

NEAUVIA

REBALANCING CREAM MAN

Key ingredients:

3D FRACTIONAL HYALURONIC ACID, ATP
GROWTH FACTORS: EGF, KGF; CERAMIDE COMPLEX:
CERAMIDE 1,3,6II, PHYTOPHINGOSINE, CHOLESTEROL;
BISABOLOL

Aesthetic indication:

Skin prone to dryness, wrinkles and irritation.

Comprehensive formula that supports skin regeneration and meets the expectations of men's skin. Selected active ingredients deeply moisturise, soothe redness and reinforce the skin barrier, strengthening its protection against environmental factors. Cream-gel texture smooths the appearance of fine lines, leaving the skin ultra-soft to the touch.

Directions for use:

Smooth over cleansed and toned skin.

Beauty tip:

Finish the facial care by sweeping across the beard as this cream will soften it and not leave any visible film.

Benefits:

- Rapidly boosts skin vitality.¹
- Helps to calm irritation post-treatment and after shaving.¹
- Unique black colour and energising scent.

¹. Data on file.

NEAUVIA

PROFESSIONAL USE

A POTENT REPLENISHING *Experience to* RESTORE SKIN COMFORT

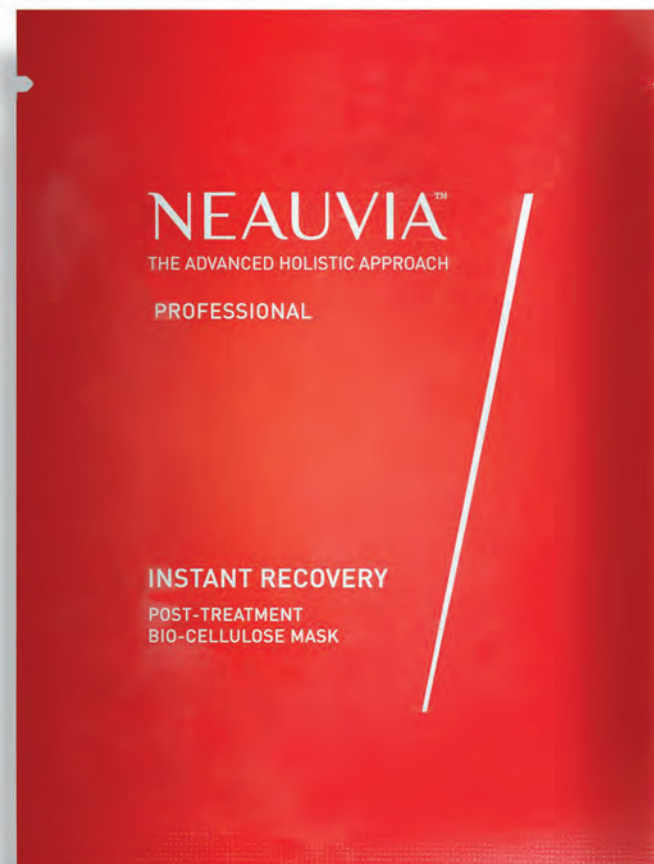

A professional solution to restore the skin barrier and immerse it in regenerating “energy”. A masterpiece behind the research and development. The bio-cellulose mask has been designed for medical purposes. It has a perfectly adaptable shape. Every single element precisely selected and designed for and an ultra-calming experience after an aesthetic treatment.

INSTANT RECOVERY

Key ingredients:

GROWTH FACTORS, 3D FRACTIONAL HYALURONIC ACID, SOOTHING COMPLEX: PALMITOYL TRIPEPTIDE-8, BETA-GLUCAN, PREBIOTIC PEPTIDE, ALGAE EXTRACTS, ALOE BARBADENSIS EXTRACT, NMF LIKE COMPLEX: PSEUDOALTEROMONAS FERMENT EXTRACT AND AMINO ACIDS

Aesthetic indication:

Skin with dryness, itchiness, roughness and discomfort. Sensitised skin after peeling, resurfacing treatments, and lasers.

This replenishing bio-cellulose mask, infused with an ultra-rich composition of active ingredients, has been specifically formulated to respond to the needs of post-treatment skin.

Benefits:

- Second-skin-like mask.
- Helps to moisturise, soothe and restore a skin that is sensitised, dry or altered.¹
- The unique blend of natural extracts and biotechnology-derived ingredients.
- Aims to accelerate skin regeneration, and decrease skin roughness and itching.

Directions for use:

Gently unfold the mask and remove the protective tissues. Apply onto the skin and leave it for 15 minutes. Remove the mask and follow with moisturiser.
