

3 years **warranty**

Biometrics	RFID	Barcode	QR Code

Qualica-RD **HADAR**

Stellar technology. The quietest and most robust lathe on the market.

Qualica-RD HADAR bidirectional tripods, have a polished stainless steel body, robust, rigid and durable. With **automatic reset function**, the arm is armed if after 5 seconds the user does not pass (configurable) and arms drop in case of emergency.

3-year warranty. Incorporates luminous step LEDs. It is one of the most silent and robust bidirectional lathes in the market, due to a technology that guarantees an average of **10 million uses** without impact on the "brushless" mechanics.

Ideal for areas with general pedestrian traffic; parks, schools, factories, libraries, cinemas, gyms, etc.

HADAR Biridecional Tripod

Features

- It is ideal for both indoor and outdoor use.
- Supports any type of external device (display, counter, facial recognition, push button, card collector, RFID wristband collector, coin inserter, barcode/QR reader, etc.).
- Choice of one-way or bi-directional.
- Anti-tail function: only one person passes through at a time.
- Decorative LED light bar, gives it a modern look.
- The tripod can be used with multiple types of aisles flexibly.

Technical Specifications

Framework Material	304 Stainless Steel
Arm material	Stainless Steel
Dimension	1200 * 180 * 980mm
Net Weight	50kg/pcs
Passage Width	550mm (Arm length: 500mm)
Passing Direction	Single directional and bidirectional
MCBF	10 million
Power Supply	AC220V/110V, 50/60 Hz
Operation Voltage	24V DC
Power Consumption	20W
Operation Temperature	-20 °C / 75 °C
Operation Humidity	0 ~ 95% (No freeze)
Working Environment	Indoor / Outdoor
Flow Rate	35-40 people per minute
LED Indicator	Yes
Emergency	Automatic arm open when power off
Communication	Dry contact, Relay signal, RS485
