Robust, reliable hardware

Our quality hardware is manufactured in our company-owned factories to ensure that your drive-thru is built to perform for years to come. ACRELEC menu boards are weatherproof, wind and rust resistant and secured from theft. Vibrant HD screens provide unmatched clarity day or night.

A partner you can trust

With over 20,000 installations and a decade of experience in drive-thru solutions, you can be confident that ACRELEC's full suite of products will create a better and more personalized drive-thru experience for your customers.

Future-proof and customizable

The D Line is our most advanced ODMB product range and is available in 46", 49" or 55" formats with an impressive single, double or triple screen and built-in confirmation order display. Our speaker post is compatible with the ACRELEC OrderMatic or other existing audio solutions.
