FINNISH TEAHOUSE

NORDQVIST BROCHURE

FLAVOURS FROM NORDQVIST FOR OVER 45 YEARS

LEADING TEA BRAND

from Finland

Finns' appreciation for high-quality tea products is increasing, and as a second-generation family business based in Finland, we take pride in meeting this growing demand. We have been dedicated to providing unforgettable tea experiences in Finland and internationally since 1979, and our commitment to uncompromising quality and passion is evident in every cup.

As the leading tea manufacturer in Finland, we stand out in many ways:

- Our modern tea factory, completed in 2018, produces our quality tea products using the latest technology and environmentally conscious practices.
- We package our products using highly efficient and modern packaging machines that ensure their freshness and quality.
- We hold the best quality certifications in the industry, which guarantee the premium standard of our products.
- We are a carbon-neutral company, and all our packaging materials are designed to preserve the quality of our tea while being environmentally friendly.

We are more than just a tea brand –
we are the heart of Finnish tea culture.

WE BRING MAGIC TO TEA

Our classic tea varieties remain Finnish favourites, and our passion for developing Finland's tea culture is present in our work every day. Our dedicated and motivated team also ensures that we continue to offer the best tea products to the coming generations.

All our tea packages are **CERTIFIED**

RAINFOREST ALLIANCE

Rainforest Alliance is an international non-profit organisation that aims to create a better future for people and nature. It brings together actors from various fields to protect forests, improve the living conditions of farmers and communities, promote human rights and biodiversity, combat climate change, and help tea farmers adapt to it using effective methods. The Rainforest Alliance seal signifies that farmers adhere to responsible farming standards, follow sustainable business practices, and are committed to ongoing improvements.

FAIRTRADE

The Fairtrade Standards incorporate comprehensive social, economic, and environmental criteria to the product supply chain. A product using the label has been produced in compliance with the requirements of the Fairtrade certification system, which include supporting workers' rights and emphasising environmental protection in certified producer organisations. The Fairtrade premium provides significant benefits to both farmer cooperatives and workers at large farms, funding community projects such as infrastructure, schools, and water services. Thanks to Fairtrade, producers in developing countries can improve their working and living conditions. For consumers, Fairtrade offers a way to impact the lives of people living in developing nations.

ORGANIC

The organic label indicates that the product is produced according to regulated standards. Organic production is based on EU organic legislation, supervised by the Finnish Food Authority. The organic label is granted to agricultural products, animal feed, food, and alcoholic beverages if at least 95 % of their agricultural ingredients are organically produced. Genetic modification is not permitted in organic production.

Nordqvist Tea

TASTES LIKE RESPONSIBILITY

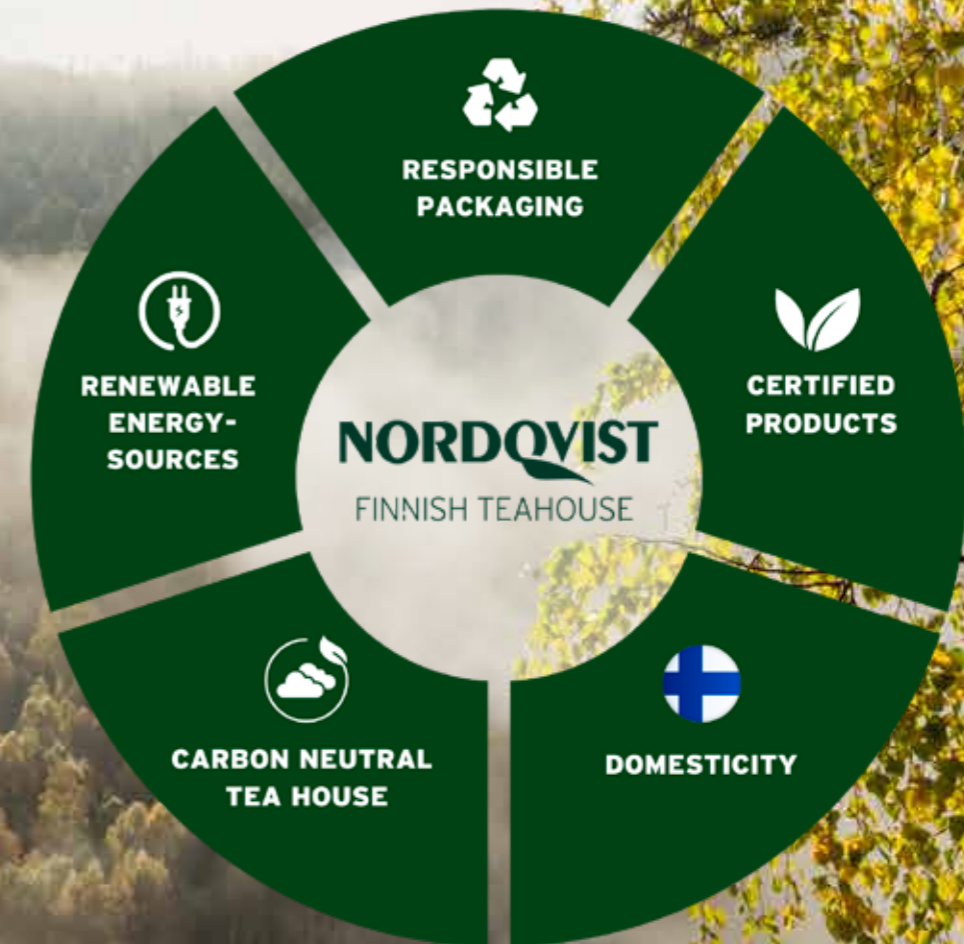

Responsibility and ethical values are the foundation of everything we do. We emphasize the principles of sustainable development and ethical practices in all our business operations.

Proudly Finnish. Domesticity is a core value for us. Nordqvist Tea Company, located in Nurmijärvi, Finland, is where we craft and package our delicious products. While tea, our primary raw material, is sourced from abroad, we incorporate locally grown Finnish ingredients whenever possible. For example, the herbs and berries in our Herbal Series consists are all of Finnish origin. We also prioritise Finnish options for packaging materials.

Certified Quality. Nordqvist tea is made from high-quality raw materials, over 92 % of which are certified. Well-known certifications ensure the safety and sustainability of our products and we work continuously towards increasing the amount of certified ingredients in our products.

Sustainable Packaging. In our product development, we consider the recyclability, biodegradability, and compostability of packaging materials. Our tea bags are made of biodegradable wood fibre, are staple-free, and contain no micro- or nanoplastics. Other packaging materials, such as cardboard boxes and loose-leaf tea bag packages, are also recyclable.

Renewable Energy. We use renewable energy sources in our production processes. Our Nurmijärvi factory produces part of its electricity with solar panels and buys wind power for the rest.

Carbon-Neutral Tea Company. We are proudly carbon-neutral and compensate for the carbon footprint of our products throughout their entire lifecycle. The carbon footprint is calculated following the Greenhouse Gas Protocol standards. Offsets are achieved through Nordic Impact's projects in India, including investments in waste-to-energy initiatives and solar power projects.

Quality You Can Trust. High quality, safety, and responsibility guide everything we do, ensuring you can enjoy our tea worry-free. Make every tea moment an experience!

RESPONSIBLE NATURAL TEA SERIES

Crafted in Nurmijärvi, our comprehensive Natural Tea Series combines organic and Fairtrade-certified ingredients, responsibly sourced natural flavours, and Finnish expertise. Inspired by nature, the series includes pure, unflavored tea options and caffeine-free alternatives.
