

UNCOMPROMISING SPECIFICATION

The Salvex+ fall arrest harness has an above average number of features, without stretching your budget.

ZMARTCHECK

All safety-relevant data at a glance

The Salvex is equipped with an NFC tag, which enables easy access to all relevant data, such as the date of the last inspection or the maximum user weight.

WEBALERT

Protection against the use of cracked harnesses

Brittle, cracked harnesses can be life-threatening, so we have integrated WebAlert in Salvex: the red fibres woven into the webbing indicate when the fall arrest harness has come to the end of its service life.

"WebAlert is a useful feature because you can easily see how worn it is or how often it is used."

Andreas Schanzer, height rescuer

READY FOR ALL APPLICATIONS

Our range is cleverly and clearly structured. It provides quick guidance so that you can quickly find the right products for your purposes. In addition, our range includes practical complete sets for the following application areas:

Machine maintenance

Metal structure

Roof maintenance

Fixed ladder

ZARGES

SALVEX+

The quick and practical fall arrest harness for industry.

SALVEX+ FALL ARREST HARNESS

When working at height in an industrial environment, you have to be flexible and quick. The Salvex+ fall arrest harness is quick and easy to put on thanks to its colour-coded design and automatic buckles. The fall arrest harness can be personalised by means of a name field, ensuring that the worker always uses the harness that has been set up for them. Salvex+ is lightweight and equipped with flexible shoulder and leg pads for increased comfort.

 **SUITABLE FOR
PEOPLE UP TO 150 KG**

THE UNIQUE SOLUTION TO SUSPENSION TRAUMA

CHAIR IN THE AIR

After a fall, time is of the essence: Just a few minutes can result in life-threatening suspension trauma.

Previous solutions have had to be carried separately and installed after a fall. Chair in the Air is built directly into the harness: in just 5 seconds, even an untrained person can get into a secure position.
