

# ZARGES TELEtower

The compact mobile scaffold tower

ZARGES

[www.zarges.com/en](http://www.zarges.com/en)

## Overview of benefits:

- Compact: Fits in just about any car boot.
- Only one person is needed for assembly and disassembly.
- Fits through narrow doors and into small lifts.
- 1 scaffolding = 5 working heights.

# ZARGES TELEtower – the compact mobile scaffold tower

When folded, the new ZARGES Teletower is just 1,18 m high, around 80 cm wide and 40 cm deep, and fits into any car boot. Smooth-running castors simplify transport and make the product particularly suitable for maintenance or installation work at various locations. It can be erected in minutes and has a maximum working height of 4,0 m.
