

# DINO THE WORLD'S BEST BULK TRUCK LOADER

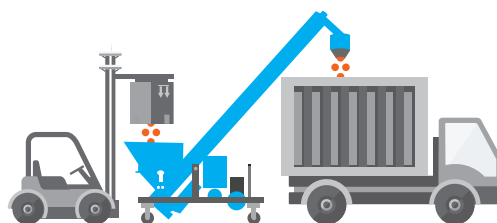

**Efficiently load a variety of bulk goods with the Dino® bulk truck loader. Whether it's bulk bags, big-bags, containers with inner liners, or loose bulk goods moved with a shovel, the Dino® loader handles them all seamlessly.**

## **Fast loading**

The big-bag or other packaging is placed in the hopper, which can be adapted to meet your specific requirements. A fully automated screw system then lifts the bulk goods upward. Through the outlet connected to the silo tanker's manhole, the bulk goods are discharged into the tanker. With a capacity of 80 m3 per hour, filling of a silo tanker can be completed within just one hour.

## **Safe and efficient**

The Dino® fully complies with EC standards, H&S legislation, and Occupational H&S regulations. With the Dino®, you can swiftly, safely, and efficiently manage loading tasks.

# EFFICIENT, ADAPTABLE, SAFE, AND MODULAR

## Knowledge and experience

Drawing on over 35 years of extensive client experience, the design of the Dino® has evolved to incorporate these experiences. We can confidently assert that there is currently no better functional mobile bulk loader available than the Dino®.

## Numerous options

Given our extensive experience with bulk tanker loaders, numerous options are available. Here are some examples:

- Available in two models: 40 and 80 m<sup>3</sup>/h
- Filter unit to prevent dust formation
- Loading bellows on the outlet
- Ease of cleaning the screw
- Simple foldable design so it can pass through a factory doorway
- Different hopper dimensions
- ATEX design
- Magnet in the outlet
- Screen in the inlet hopper

## Customised

Our experts are capable of integrating additional options and accommodating special requirements into the machine. With the Dino®, we offer you a tailored solution designed to meet your specific needs.

## Advantages at a glance

Using the Dino® can lead to significant time and cost savings. Here is a summary:

- Saves time and money
- Mobile and hence flexible in use
- Low-maintenance
- Easy to operate
- Easy to clean
- Reliable
- Safe
- Quiet
