

LZ SERIES

EXTERNAL GEAR PUMPS

- **Nominal pressure:** 40 bar
- **Suction height:** up to 4 m
- **Flowrate:** 0 – 640 l/min
- **Rotational speed:** up to 1800 1/min
- **Viscosity:** up to 2 000 000 mPas
- **Liquid Temperature:** up to 250 °C

Higher values on request

Type	dis- placement [cm³/rev]	Flowrate

Exact flow rates are application-specific and depend on pressure, viscosity and temperature. The flow rates shown should therefore be regarded as reference values.
