

Unleash the Power of Smart Spring Monitoring with i-spring

Say goodbye to unexpected breakdowns and hello to intelligent insights! The i-spring transforms your springs into smart sensors, delivering real-time data and actionable analysis to keep your machines running smoothly.

Stay Ahead with Real-Time Alerts

Detect critical conditions instantly and notify key personnel before issues escalate.

Tailored Data Display

Choose between essential metrics or deep-dive analytics—always stay in control.

Reliable System Health Monitoring

Track and update spring stress loads continuously, understand dynamic behavior, and enhance overall system safety.

Boost Efficiency, Cut Costs

Plant operators report up to 15% productivity gains and 10% reduced workload—thanks to the power of i-spring.

Innovation That Drives Progress

Use valuable insights for next-gen product development and smarter spring applications.

Precision You Can Count On

From force measurements to spring travel, the i-spring doubles as a robust measuring instrument.

Bundle Offers

- 2 x i-springs + Gateway + 3 years cloud access → CHF 2,356.–
- 4 x i-springs + Gateway + 3 years cloud access → CHF 2,987.–
(Installation, calibration, SIM card & system adjustments not included in this offer)
