

Timing tool set 4 pieces for PSA 1.0/1.2L petrol engines

For the disassembly and assembly of the toothed belt running in oil on 1.0 and 1.2L PSA petrol engines.

Reduced working time compared to the standard OEM 0109-2A (EN-52127-1) variant thanks to the optimised solution and the drying time of the sealing material

Scope of delivery:

- 1 x inlet camshaft fixing and adjustment tool
- 1 x exhaust camshaft fixing tool
- 1 x locking and adjusting pin for flywheel
- 1 x toothed belt testing tool

Number of pieces	4 PCS
Product weight (per item)	321 g

Art. no. 1952 005 305

P. Qty.: 1
