

H01420 EWP TOOL TETHER KIT

The GRIPPS® EWP Tool Tether Kit is designed to accommodate all tasks performed while operating from a MEWP/EWP. With its versatile range of tool connectors, tether anchors, and tool tethers, operators can secure all their tools, keeping equipment off the EWP floor.

Utilising the included GRIPPS® Tethering Station to tether and organise tools helps prevent trip hazards and accidental drops, eliminating the need for operators to constantly bend down to retrieve tools from the EWP floor.

For instructions on each component, please download and refer to a copy of GRIPPS® Tool Tether User Guide available at **www.gripps.com** under Resources.

ENGINEERED FOR DROP PREVENTION
