FLOWPACK FILM

Extended shelf life

Protection products

Low cost per packed product

Our flowpack film is suitable to be used on a horizontal and on a vertical packaging line. This BOPP film, that comes in different colors, has perfect seal attributes.

The product inside our flowpack film will last longer, and it will be better protected to ensure the highest food hygiene protocols will be met. The film can be perforated, printed and coated, to match your needs.

Flowpack film is the best choice for a sustainable packaging solution. It will reduce food waste, it has a relative low CO2 impact compared with other packaging solutions and the film is 100% recyclable. Last but not least, the film is also deliverable in a biodegradable edition.

Perfon Flexible Packaging has more than 25 years of experience in producing flexible packaging solutions for the food- and non-food industry. Our high quality transparent films can be produced with hotneedle-, macro- and laser perforation. Are you looking to have a printing on the film? No problem, due to our flexo printing technique we have the possibility to add a full colour printing up to ten colours. Our company is part of the Oerlemans Packaging Group, a strong co-operation of seven companies, all specialized in a different aspect within the world of flexible packaging solutions. Combined we can offer you the latest innovations and the most sustainable packaging solutions in the market.
