Box Erector

Plug & Produce

Box Erector

The Box Erector is the compact solution for automatic box set-up. The cobot sets up the boxes and slides them over a taping module to the final platform, where they can then be taken away and filled. Ideal as part of the automation for a packaging line.

- Robot: UR10e, TM12S TM14S, TM25S, CRX25iA/L, CRX20iA/L
- Weight: +- 300 kg
- Max. boxer per minute: 2 à 3
