Connected and Safe Supply Chain

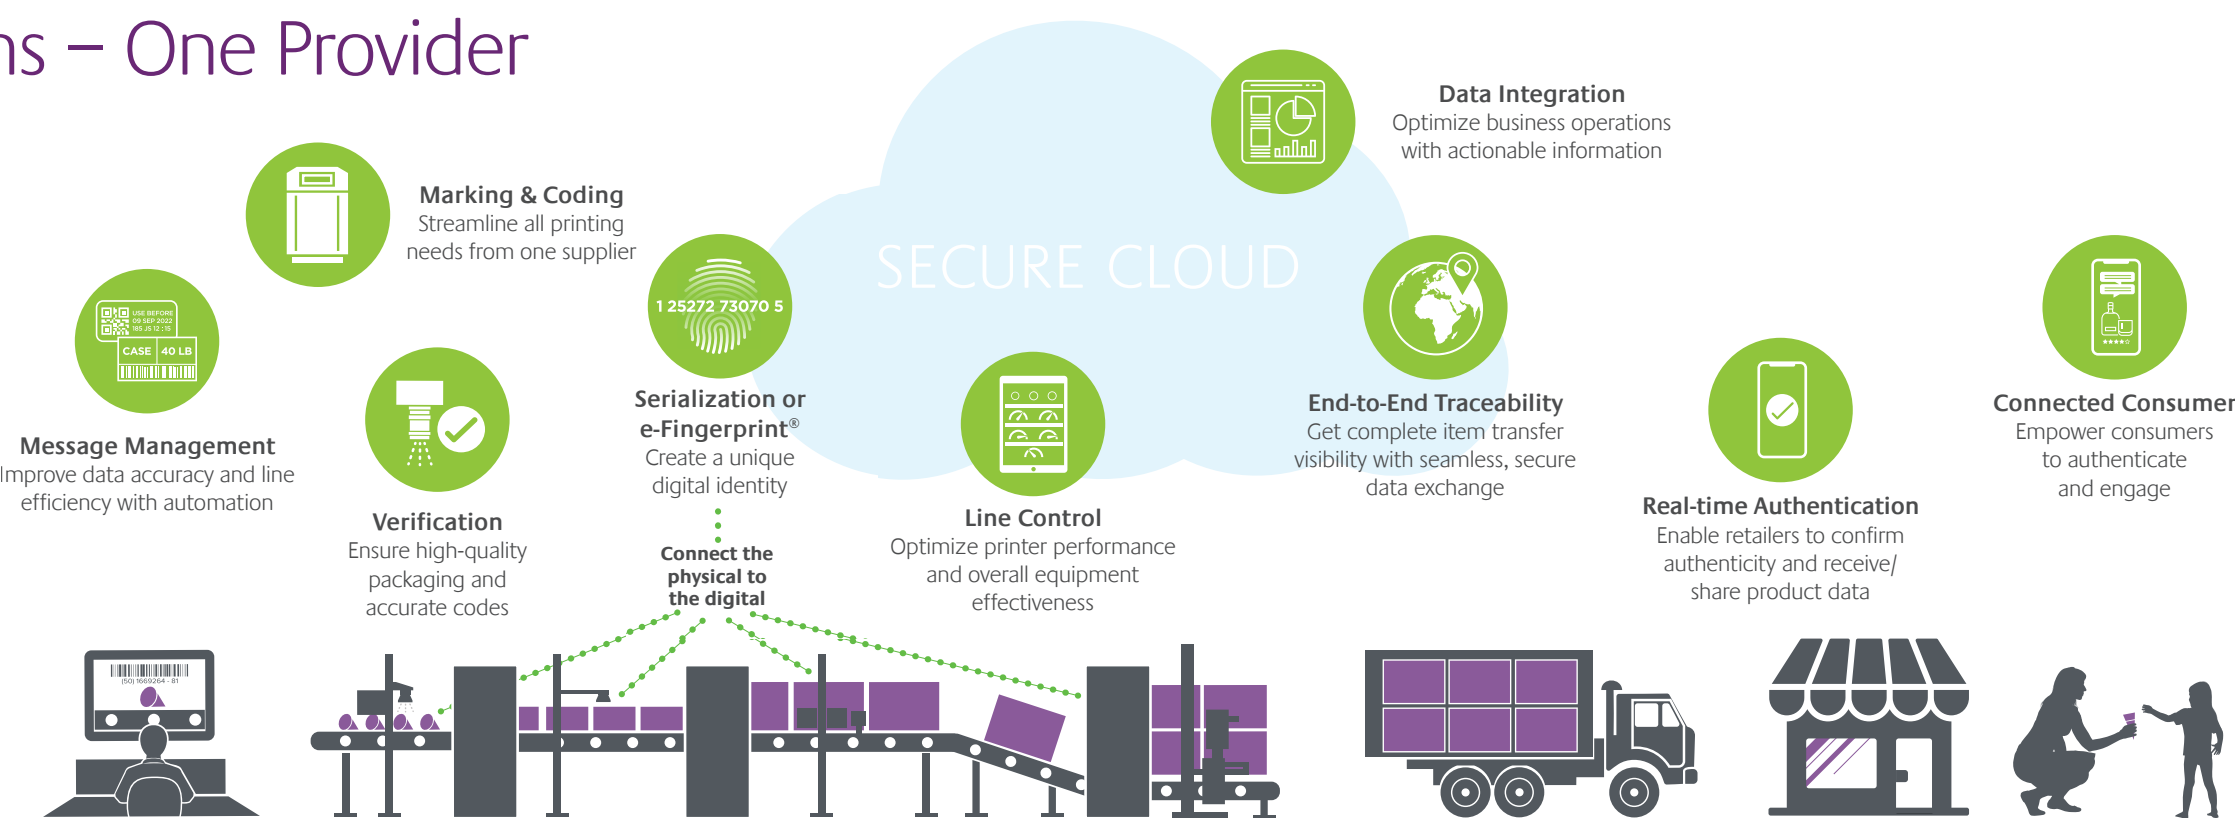

From industrial coding and packaging operations to the consumer's hands

Reduce Waste | Drive Efficiency | Achieve Compliance | Detect Threats | Engage Consumers | Gain Insight

Comprehensive Solutions – One Provider

There are providers who offer marking and coding equipment. Others offer product identification and traceability technology. Only Markem-Imaje delivers end-to-end solutions to streamline printing, optimize packaging operations, connect the supply chain and protect your brand.

Markem-Imaje is not reliant on third-party vendors. We have the industry’s most comprehensive range of coding systems seamlessly integrated with scalable software, services and consumables. Whether you are a local producer or global manufacturer — with a need to improve a single factory or many worldwide, for some or all of your lines — we will help you build a smarter, better-connected business.

Services

Markem-Imaje ensures peace of mind with our comprehensive service portfolio. Our collaborative team of technical experts is here to help you increase production output and optimize printer performance throughout the customer journey—from startup and training through upkeep and repairs.

Packaging Intelligence Solutions

We understand the operational complexity of running multiple packaging lines in the most efficient way without downtime. Maximize uptime while ensuring your packaging and industrial coding is accurate and traceable with the Systech Packaging Intelligence Suite™.

Brand Protection Solutions

Total brand protection begins on the packaging line with the right code on the right product. Built on decades of expertise, the Systech Brand Protection Suite™ harnesses cutting-edge technology to deliver real-time insight, actionable data and digital connectivity across the supply chain.

Consumables

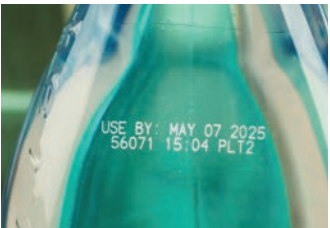

Our original consumables have been developed and formulated in compliance with the highest quality standards to optimize printer performance. We offer consumable programs—tailored to customer-specific requirements—to ensure business continuity, control costs and maximize sustainability.

Front of Line Coding

Continuous Inkjet
9000 Series

High contrast and high performance marking.
Substrates: Plastics, glass, metal, cardboard and directly onto food.

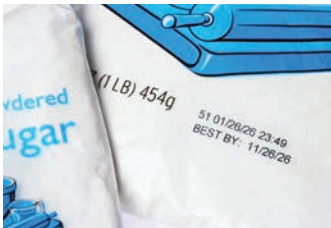

Laser
SmartLase® Series

Permanent, high quality, high contrast codes for medium to high speed production lines.
Substrates: Plastics, glass, foil, film, metal and cardboard.

Thermal Transfer Overprinter
SmartDate® Series

High resolution coding on flexible film packaging.
Substrates: Flow-wrappers, bags, tray seals, pouches, sachets, vacuum packs or labels.

Thermal Inkjet
1000 Series

Low-volume, low maintenance, high quality coding on medium to high speed lines.
Substrates: Coated cartons and flexible films.

End of Line Coding

Valvejet Large Character
4000 Series

Easy to integrate solutions for low resolution, low maintenance applications.
Substrates: Cardboard, plastic, glass, metal, PVC and wood.

Large Character High Resolution Piezo
Touch Dry® 5000 Series

High contrast text, logos and compliant barcodes.
Substrates: Corrugate cases, trays, wrapping films and polystyrene.

Print and Apply Labeling
2200 Series

High quality product and production data including “A” grade compliant barcodes.
Substrates: Corrugate cases and trays, shrink-wrapped cases and pallets.

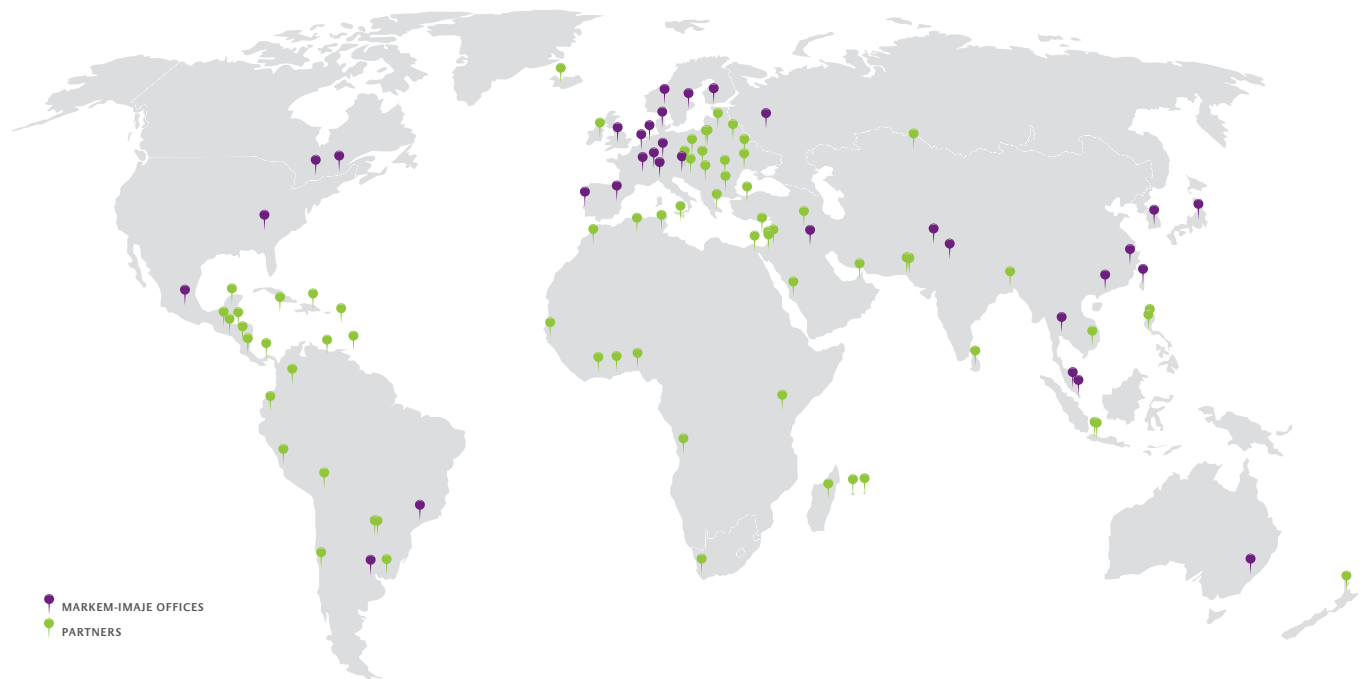

Thermal Inkjet
1000 Series

Low maintenance, barcodes, logos and text.
Substrates: Corrugate boxes, trays and kraft bags.

About Markem-Imaje

Markem-Imaje, a wholly owned subsidiary of US-based Dover Corporation, is a trusted provider of end-to-end supply chain solutions—from production to the consumer's hands. We offer the industry's most comprehensive range of industrial marking and coding systems seamlessly integrated with proven product identification and traceability software, services and consumables. Over 50,000 customers worldwide partner with us to help them optimize coding processes, achieve compliance, connect their packaging and protect their brands.

With decades of proven hardware and software expertise provided through the most extensive global network, we deliver sustainable solutions that add value at every stage of the product journey. Our commitment to continuous customer-driven innovation empowers our customers with cutting-edge technology, actionable data and real-time business intelligence to build connected and safe supply chains.
