

DH Automation Cobot Label Applicator

DH Automation Technology is proud to introduce the **Cobot Label Applicator CLA-2500**, a flexible and fully automated solution for applying labels to boxes, pallets and other products at any desired position. This innovation responds to the increasing demand for product variety and adaptability in logistics and production environments.

Key features:

- **Compact design**
- **Variable pallet height**
- **Maximum label height 2.5 meters**
- **Flexible positioning of labels**
- **Automated application**
- **Adjustable label rotation**
- **Apply 200 labels per hour.**

At DH Automation Technology, we recognize that every business is unique and that standard solutions often fall short. That's why we specialize in **customized robotics and cobot solutions** tailored to your specific needs. Our cobots are designed to work alongside human operators, seamlessly adapting to dynamic production demands while improving efficiency and ergonomics in the workplace.

If your labeling process is currently manual and you want to **automate, improve productivity and reduce the physical strain on employees**, our **Cobot CLA-2500** is the perfect solution. Let's discuss your challenges – we'll be happy to advise you on the best approach for your operations.
