

VIA-XYrZ

Modular gantry robot for
smart product handling

VIAMACHINEBOUW

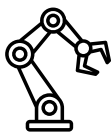

"VIA Machinebouw is a Dutch company specialized in industrial automation and custom machine building."

Save time and labor with smart automation.

A powerful gantry robot that automatically moves, rotates, and stacks products. Fully tailored to your production process.

Discover the benefits of the VIA-XYrZ

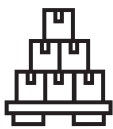

From improved lead times to labor savings: this system is designed to adapt intelligently to **your workflow**. Below are the key benefits at a glance.

Smart features

The VIA-XYrZ offers greater reach, higher speed, and heavier load capacity.

- ✓ Rotating gripper
- ✓ XYrZ motion
- ✓ Variable product input

Versatile applications

Applicable in a wide range of sectors and processes, with a fully modular design.

- ✓ Packaging & stacking
- ✓ Modular customization
- ✓ Palletizing & pick-and-place

Tangible results

The VIA-XYrZ reduces manual work, accelerates your process, and quickly pays for itself.

- ✓ Save on labor costs
- ✓ Increased efficiency
- ✓ More control over production
