

ALPHAPLAN Group = INNOVATION

In order to guarantee a perfectly smooth operation of your fleet of forklift trucks, absolutely flat warehouse floors are necessary. 100% guaranteed and certified results!

AlphaPlan Group guarantees :

- ◆ maximum work speed
- ◆ maximum safety
- ◆ maximum reliability
- ◆ maximum lifespan
- ◆ minimum maintenance.

Certification:

- ◆ ISO 9001 (quality)
- ◆ ISO 50001 (energy)
- ◆ ISO 14001 and NBN (environment)
- ◆ VCA (safety and health)

Since 30 years, AlphaPlan focuses on innovation which has resulted in 7 registered patents. All our equipment has been designed in-house by our team of experts, technicians and engineers.

FLOORPROFILER

Worldwide unique floor flatness measuring robot (patented) = the only one that produces 100% certified results. Survey results can not be manipulated!

FLOORCLINO & FLOORWAVE

Survey tools for cross-section or curvature and distance survey that enables you, as an expert, to check flatness **quickly, easily and accurately**, to minimize costs and to maximize efficiency.

FLOORSHAVER

This machine is the solution to grind industrial warehouse floors fast, safe and comfortable. Strong benefits are its precision combined with a grinding speed that hasn't been seen before with a very economical price per meter handled.

FLOORSIMULATOR

Our FloorSimulator is unique in the world, it gives a realistic driver's experience in a virtual VNA warehouse. The simulation is based on actual survey data and approved by the Big 5 VHT manufacturers: Linde, Still, Jungheinrich, Crown and BT Toyota.
