

AUDIT MANAGEMENT

Bizzmine helps you to **stay compliant** with your industry-specific standards and identify opportunities for improvement within your eQMS.

AUDIT READINESS

- **Full traceability:** Every step is recorded and easily accessible.
- **Centralised documents:** All essential documents in one place for easy access.
- **Reduced time to retrieve requested documents:** Say goodbye to the war room with documents.
- **Attached reports and images:** Comprehensive records with all relevant visual documentation.
- **Customisable audit forms:** Tailored audit forms to specific needs.

ENHANCED COMMUNICATION

- **Easy access for all users:** Streamlined access improves collaboration and transparency.
- **Efficient communication on Findings and progress:** Quick dissemination of information enhances responsiveness.
- **Streamlined information between departments:** Break down silos with seamless information flow.

EXCEEDED AUDITOR EXPECTATIONS

- **Pre-validated platform:** Ensure compliance and readiness with a platform already pre-validated.
- **Version Control:** Keep track of document versions to maintain accuracy and integrity.
- **Comprehensive Audit Trails:** Detailed tracking for thorough reviews and accountability.
- **Risk-based Quality Management:** Focus on critical areas to mitigate risks effectively.

CONTINUOUS IMPROVEMENT

- **Analysis, tracking, and trending of Non-Conformities:** Identify and address quality events promptly.
- **Linked Corrective and Preventive Actions (CAPA):** Integrate corrective actions for proactive management.
- **Automatic reminder notifications through workflow:** Stay on top of tasks with automated reminders.
- **Reduced manual tasks and errors:** Automation decreases manual effort and minimises errors.

“

Bizzmine really helped us get through our process of becoming ISO certified in a short time. For our audit, we had our documents in good order and we could rely on the traceability of the approvals for the documentation. It only took us about 7 months to get certified, which is a record time since it usually takes 1 to 2 years.

- Tiki Safety
