

REMANUFACTURED PARTS
DISCOVER AT TVH

ABOUT TVH

TVH is a leading provider of quality replacement parts and accessories for the material handling, industrial equipment and agricultural equipment industries. Our commitment to service, knowledge and product availability makes TVH the reliable partner for our customers.

WHAT ARE REMANUFACTURED PARTS?

Remanufactured parts are used parts that have been repaired and restored. They are a great alternative to buying new spare parts: you get a top-quality part at a lower price. On top, you keep the same warranty as new parts.

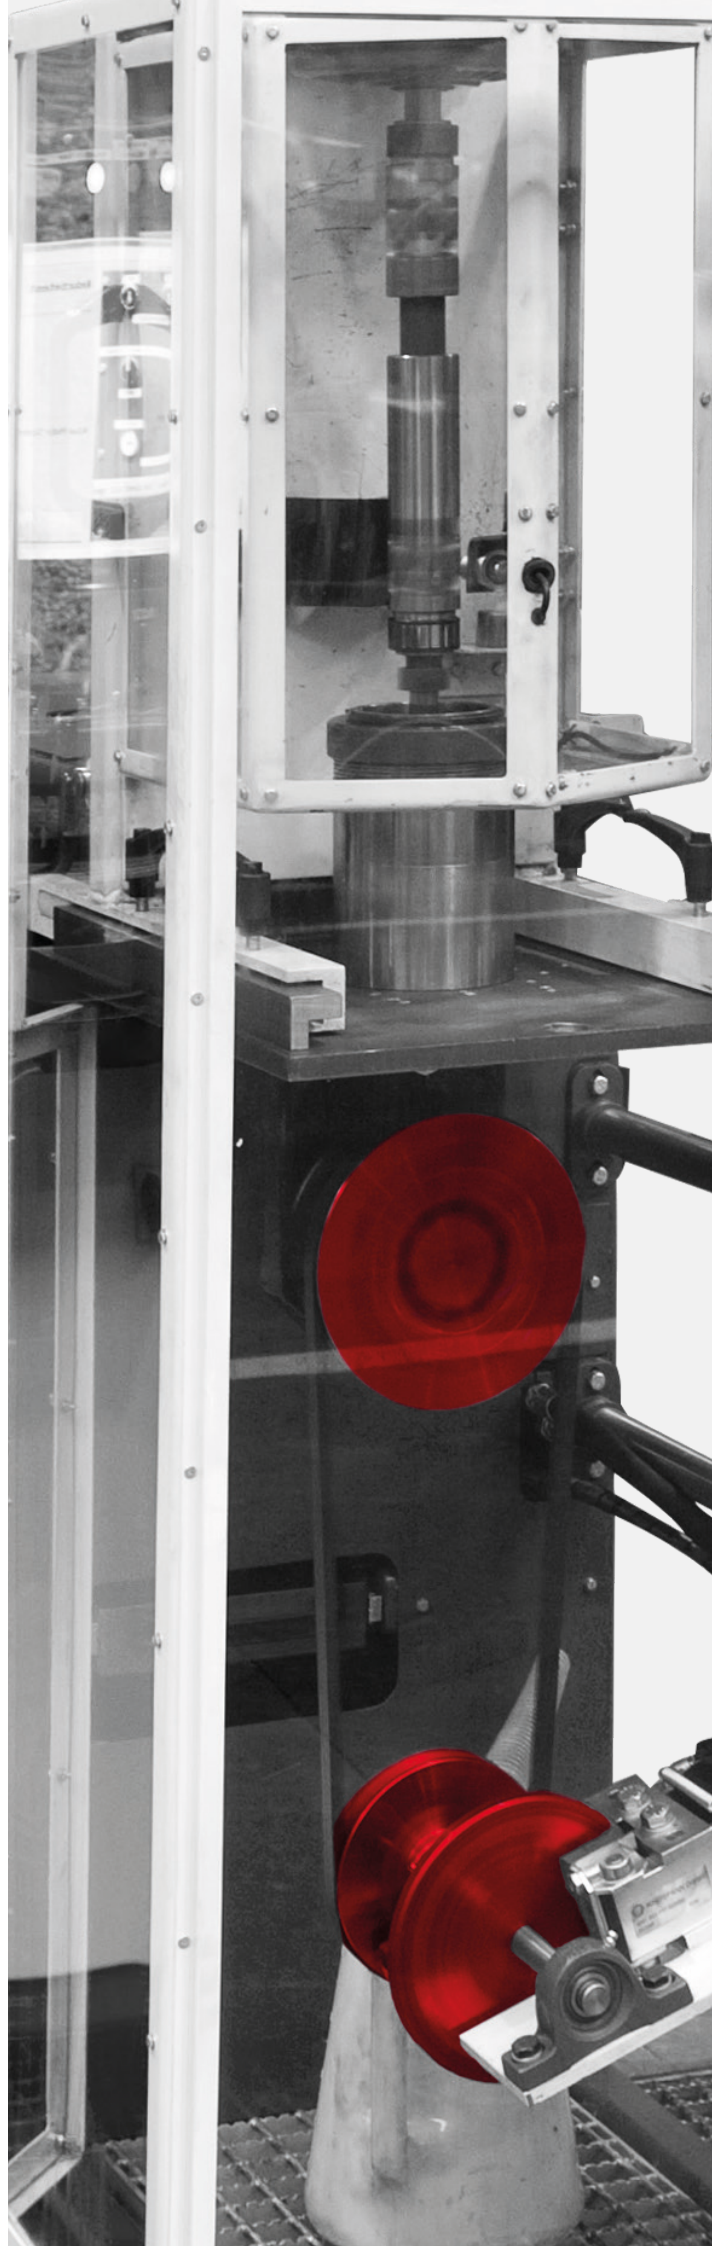

HOW DOES IT WORK?

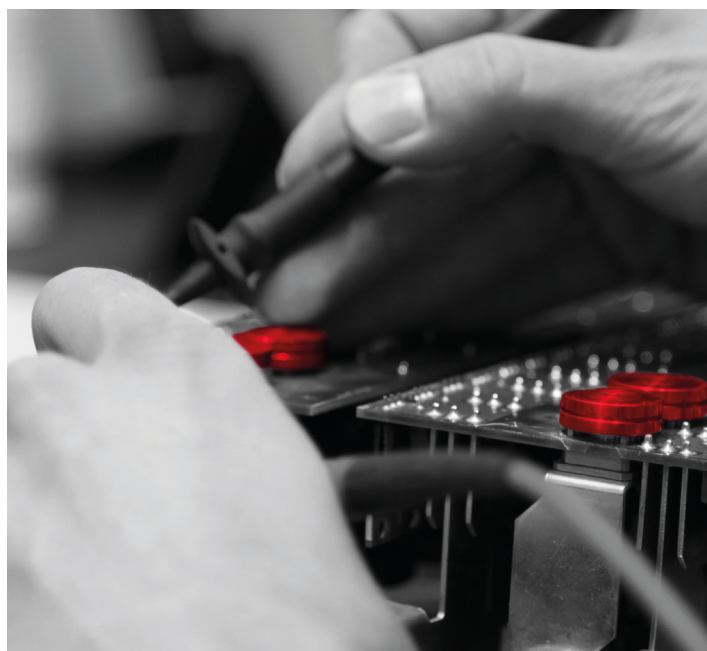

Our in-house qualified technicians repair the parts according to high quality standards and place them in stock afterwards. Drawing on decades of experience, we developed innovative test benches that let us test remanufactured parts in simulated working conditions. We also test our remanufactured parts in real machines. Our strict testing and quality-control measures ensure your remanufactured parts work perfectly.

UNIQUE RANGE

From remanufactured parts for the simplest small earth moving machine to the heaviest forklift: you will find it all at TVH. We're proud to offer you a unique range of remanufactured parts: printed circuit boards, electric motors, internal combustion engines, joysticks, accelerators, chargers, radiators, transmissions, steering axles ...

REMANUFACTURED PARTS AT TVH

TYPES OF REMANUFACTURED PARTS

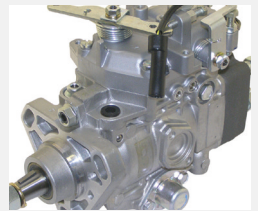

ELECTRICAL PARTS

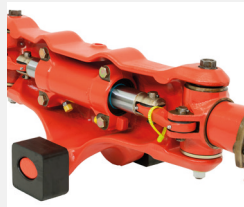

HYDRAULIC PARTS

DRIVE-TRAIN PARTS

STEERING PARTS

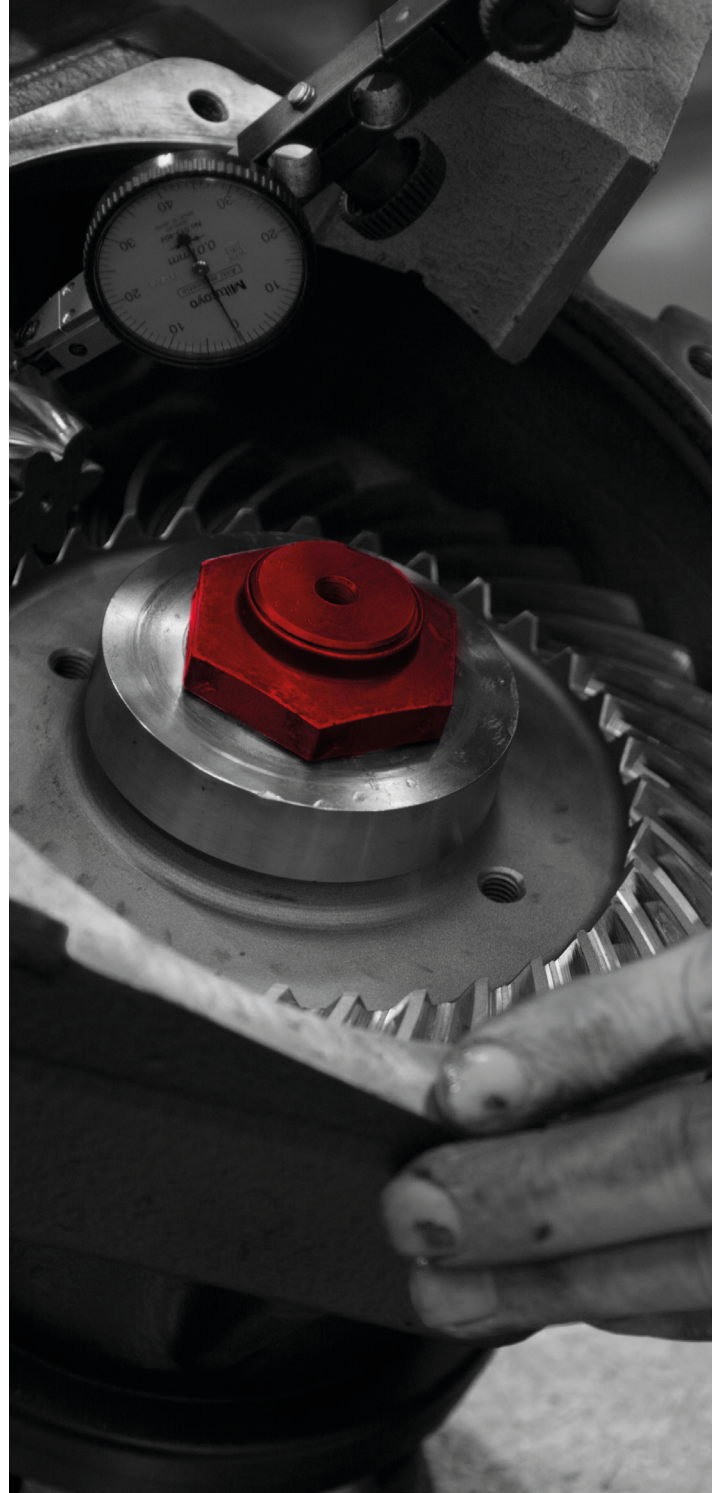

CHASSIS PARTS

ATTACHMENTS

3 WAYS TO ORDER YOUR REMANUFACTURED PARTS

1. Remanufactured parts with return of an old unit

When you purchase a remanufactured part and let us know that you intend to return your old unit, a surcharge amount will appear on your invoice. To receive a refund of this amount, simply return your old part (subject to normal wear) to us.

Examples: printed circuit boards, valve assemblies, electric motors and reducers

2. Remanufactured parts without return of an old unit

You have the option of purchasing a remanufactured part outright, without trading in your old unit. This means you simply pay the purchase price and there is no surcharge or refund later.

Examples: covers, stub axles and front axle housings

3. Have your parts repaired

If no remanufactured replacements are available for the part you need, you can bring your faulty part to us to be repaired by our specialised engineers. Your part will be restored to working condition and issued with the same warranty as all our remanufactured parts. Request a repair by filling in the form at www.tvh.com/repairform or via MyTotalSource.

SUSTAINABILITY AND CIRCULAR ECONOMY

TVH is strongly committed to **sustainability** and impacting the environment positively: we invest in low-emission vehicles, solar panels ... Our remanufactured parts are yet another way that we contribute to a cleaner environment.

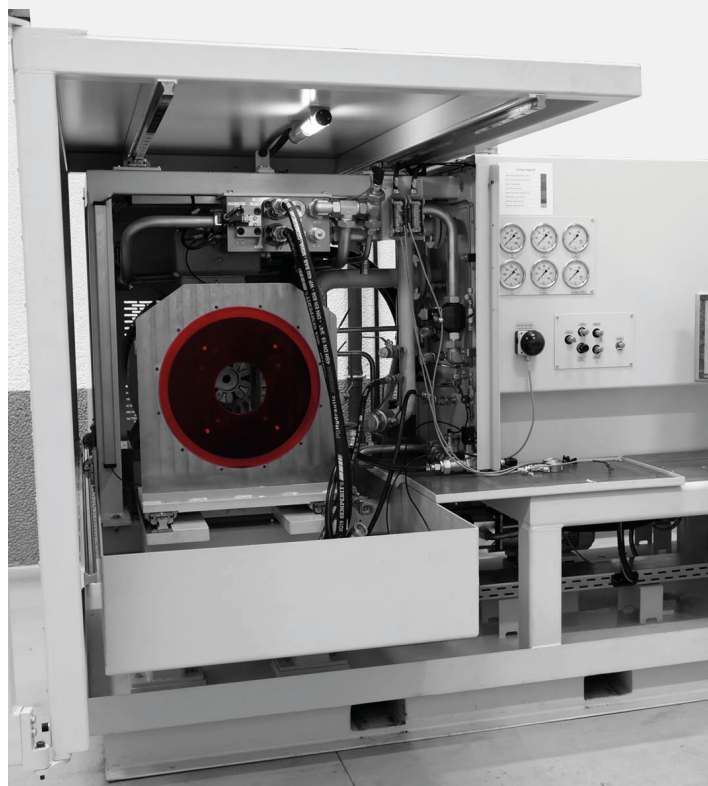

Remanufacturing parts keep them out of landfill and reduce the need to produce more parts. This way, TVH eliminates waste and creates a **circular economy**. Following the **Cradle to Cradle** concept, we deliver parts that are 100% beneficial to people and the environment.

GUARANTEED QUALITY THANKS TO OUR TEST BENCHES

Your business deserves the best. That's why we've invested in top-quality test benches and highly qualified experts. We also collaborate closely with colleges and universities to ensure your remanufactured parts are tested with the best technology possible.

Our test center in Belgium is equipped to test all kinds of parts, from reducers and valves to hydraulic cylinders, printed circuit boards and more. All our remanufactured electric motors and transmissions come with a **certified test report**.

PARTNERSHIPS

For our remanufactured parts, we have secured collaborations with numerous top-quality brands such as:

EXPERTISE

Our people are the heart of our company. That's why we continually invest in them. At TVH Academy, our engineers are kept up to date with regular training on the latest technical developments.

WARRANTY

Thanks to our experts and first-class testing facilities, our remanufactured parts are of the highest quality. That's why we offer you the same warranty conditions as our new parts.

WE BUY YOUR OLD PARTS

Do you have old parts lying around? If they're repairable, we're interested in buying them. To get the ball rolling, fill out the 'Core purchase' form at www.tvh.com/corepurchase and email it to:

- cores.electronics@tvh.com for electronic parts
- cores@tvh.com for all other parts

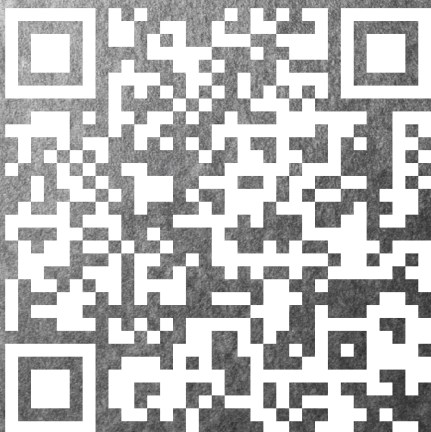

SERVICE

Our technically skilled employees are trained to understand the unique requirements of your remanufactured parts. Moreover, we offer customer support in 37 languages such as Dutch, French, English, German, Spanish, Italian ...

Do you have a problem with a remanufactured part you bought from us, such as error codes or a connection problem? Get in touch with your contact person at TVH and they'll connect you with one of our specialists to ensure your issue is resolved quickly.
