*Operating airflow depends on filter configuration and operational environment
 ** Food graded air filters compliant with EN 1935/2004 available

Ensures product quality and lifespan while creating a healthy work environment

Every detail in FS 70 Food Grade II is designed for optimal compliance towards hygienic standards within the food and beverage industry. Powerful, energy-efficient, and quiet, it ensures the indoor air quality to benefit your employees and products. Acid proof stainless steel ISO 1.4404 (AISI 316L), sealed chassis, surfaces without cavities, and rounded edges for easy cleaning. Particles are captured using multi-stage filters placed directly inside the grid to prevent buildup inside the unit before the cleaned air is returned. Filter configuration and outlet accessories are custom fit to the needs of the location.

The QleanAir Difference

With a significant impact on health, performance, and quality there are few things as important as clean air. We deliver clean air as a service with hassle-free installation, maintenance, upgrades, and filter changes. With our unique Lifetime Performance Guarantee, we can guarantee your air quality over time.
