

CarrierConnect Portal

Your connection with subcontractors, simplified and accelerated.

CarrierConnect Portal is TAS's web platform that enables uniform and efficient collaboration with your subcontractors.

Everything you need is shared in real time, no more manual follow-up.

With this easy-to-use web portal, you ensure every subcontracted job is followed up as thoroughly as your own transports.

CarrierConnect Portal: One portal. One process. More control.

A single digital environment. Through the portal integrated in TAS, you receive real-time status updates and documents. You save time and increase the reliability of your service.

Drivers access a separate, user-friendly page. Less manual work, more focus on collaboration.

***CarrierConnect Portal: Connected to all your subcontractors.
One portal, zero friction.***

Why choose CarrierConnect Portal?

- Visibility on subcontracted order statuses
- Centralized upload & access to documents
- Full integration with TAS
- Simple portal for partners & drivers
- Less manual input & reduced admin
- Stronger collaboration with subcontractors
