

PROUDLY MADE IN ITALY

Sikhâ®

is focused on the **Young Adult** generations and reveals all their secrets :

Gen Z's philosophy seems to be less focused on perfection and more on natural prevention, by following the **SKINIMALISM** trend:

-  **Essential but Effective,**
-  **Quick and Easy,**
-  **Preferably natural, functional and Vegan products.**

Both millennials (those born between 1981 and 1995) and generation Z (i.e. those born between the mid-1990s and the mid-2000s) are more concerned about hair care and beauty than previous generations.

This was revealed by a survey conducted by **Cosmetica Italia**, according to which 32,9 % of young people use a shampoo from three to five times a week compared to 28 % of their parents. They also show a greater attention to vegan, natural, nutritional and pre-brushing products.

SIKHA is the NEW APPROACH  
TO HAIR CARE  
which combines  
**TECHNOLOGY** and **green**

*« Part of their ethics is the respect for the environment  
without leaving the technology out. »*

This is the new generations approach to cosmetics.  
Millennials and Z Generation are cool consumers who love cool products,  
but they are also conscious consumer.

They have deep respect for their bodies as well as the environment.

**SIKHA** is committed to the research of new high performance formula eco-friendly. And that's why we selected ingredients such as: **RICE BRAN oil** which has anti-age properties for brittle, thin and dull hair care; a combination of **FRUIT ACIDS** with fortifying, nourishing and antioxidant properties and **VITAMIN E**.

PARABENS FREE

## **REFINED RICE BRAN OIL**

Precious secret of oriental cosmetics, rice bran oil is the principle product used by Japanese women for their body, skin and hair care.

Its main ingredient is **Gamma-Oryzanol**, which has a **stronger antioxidant effect than Vitamin E**.

### **Gamma-Oryzanol**

also has UVA radiation natural filtering capacity (maximum absorption at 320 nanometres).

Rice Bran Oil is obtained from the grain bud by cold pressing and subsequent refining and purification.

Rice Bran Oil has been chosen by **SIKHA** as the common ingredient for all its hair product lines, whether **coloring, washing and styling products**.

To characterise and enhance **TIMELESS** hair coloring this precious oil has been added to the formulation. In accordance with the concept of the line, which promotes a vegetable and environmentally friendly formula, it should be highlighted that this active ingredient does not contain GMO derivatives and is not derived from genetically modified plants.

It has also never been tested on animals and its Italian origin is certified (an essential feature, in our opinion, in these times where "**Made in Italy**" is once again increasing its value in terms of visibility and promotion of cosmetic products).

**RICE BRAN OIL** is perfect for the care of weak, thin, dull hair with a falling tendency.

Vitamin E, Phytosterols and the Good Fatty Acids (including the precious Ferulic Acid) improve the condition of the scalp, repair damages of the hair, protect it from external factors, fortify the hair bulbs and have a positive influence on the hair growth.

# Rice Bran Oil BENEFITS

Rice Bran Oil can also be used to protect the ends of the hair from breaking off and is especially well-known in cosmetics for its skin-soothing and scalp-regenerating properties.

## The **COSMETIC BENEFITS** of rice bran oil are:

**Anti-Oxidant**

Anti free radicals

**Emollient  
and soothing**

For the skin and scalp

**Moisturising**

For dry and dull hair

**Polishing,  
nourishing**

For shiny and fortified hair

New generations are even more aware of labels, than quality, **CRUELTY-FREE** is one of the key factor.

For this reason SIKHA has developed certified **VEGAN** formulas with a perfect balance between excipients and vegetable active ingredients, to preserve the environment.

## **Ethics and Eco-Friendly.**

Our solar panel system provides green energy which as a renewable CO<sup>2</sup> – free power source reduce the environmental impact.

SIKHA meet the  
**Easy to use** and **high performance** needs  
creating innovative product  
such as the professional hair color cream  
*with 10 minutes laying time.*

**TIMELESS**  
**TEN MINUTES  ONLY**  
HAIR COLOR CREAM

**Vegan professional dye**

**PARABENS FREE**  
**PARAFFINE FREE**  
**SILICONES FREE**  
**PEG FREE**

To achieve high-performance coloring in terms of quality and coverage, as well as the color penetration time into the hair, is often necessary an unbalanced increase in the **colored pigments** within the dye.

In case of delicate or sensitive scalp there could be problems related to the unbalanced excess of dyes.

This is why the unbalanced excess of dyes and chemical substances often can have undesirable effect during application of the hair color cream on the skin of the most sensitive subjects, such as burning, scalp irritation and persistent redness.

And that's why.....

**TIMELESS** has been studied and developed in our Laboratories, working on a formula which prevent the risks previously outlined.

And that's happen for two different reasons:

**1** Our formula are always **EQUIMOLARS**:  
i.e. there is a perfect balance between primary and secondary colorants;

**2** The innovative **ENZYMATIC CONTROL** dermo-protective patent:  
at the basis of the TIMELESS formulations, which guarantees maximum safety and protection during their application.

The background of the entire page is a soft-focus collage of various citrus fruits, including lemons, grapefruits, and oranges, along with several green leaves. The colors are bright and fresh, creating a clean and natural aesthetic.

*TIMELESS*  
TEN MINUTES  ONLY  
HAIR COLOR CREAM

**ENZYMATIC  
CONTROL**  
**DERMO-PROTECTIVE  
PATENT**  
*With Fruit Acids.*

**The latest researches** focused on the fruit acids effects on the scalp, obtaining an exclusive patent of considerable relevance in the trichological sector.

**Fruit Acids**, commonly used for the skin care, play a crucial role also for the hair care.

### Our fruit acids selection:

**Lactic Acid:** contained in Brown and Beet sugar

**Citric Acid:** naturally found in citrus fruits such as Lemons and oranges

**Malic Acid :** from Apples and Ribes.

**They have fundamental moisturising and dermo-protective properties :**

- ➔ Stratum corneum hydratation
- ➔ Keratolytic action on the skin
- ➔ Stimulation of cell renewal
- ➔ Sebum excess regulation

## Moreover:

**Another important formula innovation is based on the concepts:**

***"Smart Active" and "Slow Releasing".***

This special process, at the base of the hair dye, works in a **SMART** way:

The enzymatic activation is triggered by the contact of the dye with the scalp or skin during the application and subsequent laying time of the coloringing.

Most of the short laying time hair color cream in the market place needs a Chemico-physical barrier for the protection of the scalp and that compromises the color penetration and also the final result.

### Thanks to the **SMART-ACTIVE** enzymatic function

the protective action is activated only in the case of wrong contact of the dye with the skin, while it remains inactive when not. Improving the result and maintaining the pH balance of the dye mixture.

Thanks to this buffering effect,  
the hair color is  
well -tolerated

**even in case of wrong  
application.**

The dermo-protective effect last for all the  
TIMELESS color processing time.

As a result of the action of the innovative  
dermo-protective **ENZYMATIC CONTROL**  
patent the hair looks shiny and healthy,  
even if after multiple coloringing, perming  
and/or bleaching treatments.

**TIMELESS** Professional hair color cream, with a short laying time (10 minutes) represents the last frontier of coloring in professional salons, thanks to the its characteristics which make it young and exclusive.

The formula is the perfect balance between excipients and active principles, **the VEGAN formula** is guaranteed to the conscious consumer who considers **environmental sustainability as the main ingredient of vegan cosmetics.**

**PARABENS FREE**  
**PARAFFINE FREE**  
**SILICONES FREE**  
**PEG FREE**

**VEGAN**

**pH**

9 / 10.9

## With **TIMELESS 10 minutes** hair color cream

the final consumer  
get the desired result halving  
the traditional cosmetic  
treatment time.

Thanks to this innovative long-lasting hair coloring system which provides **the highest performance** (coverage, shine and brightness) **in the shortest time** (10 minutes instead of 35) you will get more time for yourself and your plans.

The result is surprising:  
smooth, intense color for silky, vital hair.

# TIMELESS BENEFITS

Not just a tone-on-tone,  
but a **long-lasting professional coloring**  
**which** guarantees a total  
**coverage of white hair**  
 **in only 10 MINUTES.**

TIMELESS	MIX	DEVELOPER	TIME
Coloring	1:1	10V-20V 30V-40V	10'

The **natural color is totally revived** appearing shinier and richer in highlights from the root to the ends of the hair.

**The scalp is protected**  
and the hair are silky and moisturized  
from the first application;

Thanks to the innovative  
**DERMO-PROTECTIVE**  
**ENZYMATIC CONTROL**  
patent within the formula,  
it can be used even  
by **the most sensitive hair**  
without unpleasant effects  
or skin conditions ;

The delicate fragrance  
of **Rice Bran Oil active principles**  
characterises and customises  
TIMELESS coloring line.

## **ALL IN ONE FUNCTION**

- 1** *coloring the hair with the best brilliant and intensive result,*
- 2** *performing the protective , nutritive and recovering functions of the scalp and the hair.*

Shiny, natural and rich in reflections color for an hair color cream which provide a 360 degrees cosmetic treatment to the final consumer.

It should not be underestimated how young people increasingly represent a real "springboard" for companies to launch new products, thanks to their ability to be trendsetters.

Hence the decision to include in the TIMELESS color chart a choice of shades ranging from 'traditional' basic colors to 'trendy' shades such as metallic and matt reflections, in line with current trends.

The **target audience** is represented by:

Those who want to revive or change their color, but still taking care of their hair, and also saving time for the process.

The concept of **softness and quickness** is supported by various of key principles the new **TIMELESS project**:

*focus on research, innovation, hair care and use of dedicated, unique and safe patents.*

Laying time reduction to 10 minutes satisfies the desire to regain possession of the Youngs and New Adults social dynamism, which the pandemic seems to have stopped, slowing down their lifestyles in recent months.

## TON 618

### Bleaching Powder / Cream

TON 618 high bleaching power powder/cream :

**9+/10 tones.**

It contains a functional plex with **Fermented Hyaluronic Acid**, which plumps up the hair fiber, filling and repairing every interstitium.

Rich in active ingredients such as **Meteorite** powder, **Black Diamond** Dust and **Dark Perilla** Oil that make it one of a kind. The high content of **Kaolin**, greyish-white in color, gives it purifying, softening and remineralising properties. The presence of **Guar Gum** in the formula protects the hair and swells the cuticles.

**LOW AMMONIA**

- Bleaching power: **9+ / 10 tones**
- Functional Plex with **Fermented Hyaluronic Acid**
- Active principles: **Meteorite Powder, Black Diamond Dust, Dark Perilla Oil**
- **BLACK** bleaching powder

- **Vegan friendly**
- **Low Ammonia**
- Highly versatile (**dilution ratio 1:1.5 / 1:2 / 1:2.5 / 1:3**)
- **No ADR**: Not self-heating - Non-combustive

## NATURAL INGREDIENTS

### KAOLIN

- Also called White Clay, of clastic origin and usually greyish white in color
- Appreciated for its purifying and softening properties
- Provides a gentle and remineralising action on the hair fiber
- When it comes in contact with the activators, it gives texture and body

### GUAR GUM

- Natural ingredient of plant origin
- Protective function on the hair
- Swells the cuticles

# TON 618

PROTECTIVE PLEX BASED  
ON FERMENTED  
HYALURONIC ACID

**How does it work:**

Hyaluronic Acid starts its action as soon as it comes in contact with the hair fiber.

Hyaluronic Acid plumps up the hair fiber, filling and repairing every interstitium.

While plumping and repairing, Hyaluronic Acid keeps hair hydrated even after rinsing out TON 618 bleach, by catching and retaining external humidity.

## FERMENTED HYALURONIC ACID

# AROMATHERAPY

## a therapeutic reality

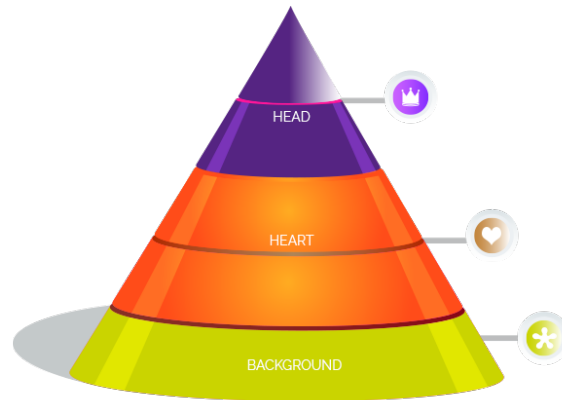

### HOW TO INSPIRE AND ENERGIZE SPIRIT AND SKIN

The **olfactory notes** serve to describe the smells perceived at the moment of the application of a product.

They can be divided into three classes: **head notes** (or capital notes), **heart notes** (or central notes) and **background notes**;

Each class shows the set of fragrances that can be detected in relation to the time passed from the application. The combination of these three notes groups represents the **olfactory pyramid**, which helps describing the scents emanating from a product.

#### HEAD NOTES

Perceived immediately after application, head notes are tiny molecules that quickly evaporate. They form a person's first impression of a product.

#### HEART NOTES

The fragrance released as soon as the head notes fade away, so their appearance can be from a few minutes to about an hour later. They are the core element of a fragrance.

#### BACKGROUND NOTES

The fragrance smells when the scent of the heart notes is about to disappear. So the background notes are not perceived until half an hour later and are the ones that last the longest of all, even twenty-four hours after application.

# DAILY CUDDLE SHAMPOO frequent washing

SLS <b>Free</b>	PETROLATUM <b>Free</b>
SLES <b>Free</b>	SILICONES <b>Free</b>
SULFATES <b>Free</b>	PARABENS <b>Free</b>
PARAFFINE <b>Free</b>	

1000 ml - 300 ml

Daily Cuddle Shampoo is indicated for frequent and daily hair washing.

The high concentration of **Rice Bran Oil** provides emollient, hydrating, anti-inflammatory, anti-radical and strenghtening properties thanks also to the presence of **Gamma Oryzanol**, which acts as a natural sun filter.

### How to Use:

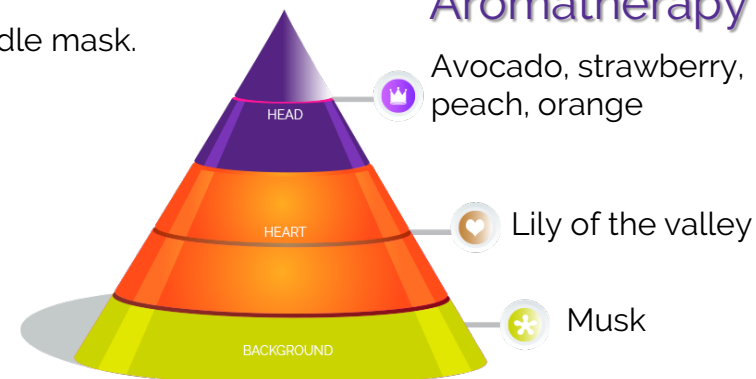

Apply to wet hair, massage gently and rinse out. Proceed with a second application if necessary. For a better result, we suggest to complete the treatment with Daily Cuddle mask.

pH	5,5-6
