Each ingredient in CellDerma Collagen Restore is used in its most effective form, and was specifically selected for its ability to achieve real results within the skin.

COLLAGEN RESTORE

Our best-selling cream, Collagen Restore offers a **luxurious but clinically effective** formula to address prominent signs of ageing to **renew and rejuvenate** the skin. It targets uneven skin tone and texture, giving the skin **all-over luminosity**. It achieves this by **targeting two key elements of ageing: collagen depletion and pigmentation**.

This unique formula is **packed with six clinically proven and highly-effective peptides**. In addition, we have a **patented form of Resveratrol**, a potent

antioxidant derived from red grapes. Lab studies have shown our Resveratrol **formula brightens skin within two weeks** by working on multiple mechanisms that contribute to pigmentation.

Lastly, high-level hydration is delivered by **plant-derived squalane, hyaluronic acid and apricot kernel oil**.

TARGETS

- Premature ageing
- Fine lines and wrinkles
- Pigmentation
- Environmentally-induced skin sensitivity
- Skin dehydration

RESULTS

- Plumper, more youthful-looking skin
- Increased hydration
- Antioxidant protection
- Improved skin tone
- Radiant, glowing complexion

INGREDIENT FOCUS

Let's explore the lesser-known ingredients; their sources and their uses.

PALMITOYL TRIPEPTIDE-1	Signal peptide proved to stimulate collagen production. Reduces inflammation and helps restore the epidermal barrier.
PALMITOYL TETRAPEPTIDE-7	A signal peptide that inhibits the production of IL-6 (Interleukin-6), a molecule that signals inflammation. The breakdown of key proteins such as collagen and fibronectin is slowed down.
ACETYL HEXAPEPTIDE-8	A neuropeptide that helps to prevent the formation of expression lines.
PENTAPEPTIDE-18	A five-amino acid that targets wrinkles caused by facial muscle movements.
DIPEPTIDE DIAMINOBUTYROYL BENZYLAMIDE DIACETATE	A neuropeptide of just 3 amino acids (only 500 Da in weight) means it has superior skin penetration.
ACETYL OCTAPEPTIDE-3	A newer neuropeptide that aims to significantly compound the effects of its associated peptides in this formula.
PRUNUS ARMENIACA (APRICOT) KERNEL OIL	An emollient plant oil with nourishing fatty acids and vitamin E for antioxidant properties.

INGREDIENTS

We believe in **total transparency**.

To help you trust and understand our formula, we have **highlighted the key active ingredients**.

We never compromise on quality.

Aqua, **Simmondsia Chinensis (Jojoba) Seed Oil**, Glycerin, Polyacrylamide, C13-14 Isoparaffin, **Plant-derived Squalane**, Laureth-7, **Sodium Hyaluronate**, **Resveratrol**, **Acetyl Hexapeptide-8**, **Pentapeptide-18**, **Dipeptide Diaminobutyroyl Benzylamide Diacetate**, **Acetyl Octapeptide-3**, **Palmitoyl Tripeptide-1**, **Palmitoyl Tetrapeptide-7**, **Prunus Armeniaca (Apricot) Kernel Oil**, Butylene Glycol, Carbomer, Polysorbate 20, Caprylyl Glycol, Potassium Sorbate, Phenoxyethanol, Ethylhexylglycerin, Sodium Lactate.

THE SCIENCE BEHIND THE FORMULA

Signal Peptides

Well established, evidence-based peptides which are known to **stimulate the production of key structural proteins** such as collagen and elastin. **Palmitoyl Tripeptide-1** also increases oil solubility and penetration of active ingredients.

Resveratrol

We have used a **patented, high-performing and fast-acting formula** that is a **pure, nature-identical trans-resveratrol**, free from pesticides and emodin. It works on multiple steps of the melanin cascade. A double-blind RCT demonstrated **fading of pigmentation in as little as 2 weeks**, as well as being faster and **more effective overall**, compared to a market benchmark.

Neuropeptides

4 powerful peptides with **rapid BTX-like action** to help **soften existing lines** and **prevent the formation** of new wrinkles.

Hydrators

Squalane, sodium hyaluronate and apricot kernel oil provide **significant non-comedogenic hydration** to the skin.

PROTOCOL

Step One

Use at the end of your night regime.

Step Two

Apply a pea-sized amount to clean fingertips.

Step Three

Apply to the face and neck in a gentle, upward motion.

COLLAGEN RESTORE AND YOUR PATIENTS

A **single night cream** that never fails to **deliver rapid clinical results** with patients reporting **brightening and tightening of the skin in as little as four weeks**. The combination of patented, high concentration resveratrol with collagen-stimulating biopeptides and line-reducing neuropeptides make this a **real patient pleaser**.
