INGREDIENTS

We believe in **total transparency**.

To help you trust and understand our formula, we have **highlighted the key active ingredients**.

We never compromise on quality.

Aqua, **Glycerin**, Cetearyl Ethylhexanoate, **Albizia Julibrissin Bark Extract**, **Darutoside**, Isopropyl Myristate, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Carbomer, Cellulose Gum, Sodium Hydroxide, Phenoxyethanol, Ethylhexylglycerin, Sodium Benzoate, Sodium Carbonate, Sodium Chloride.

EYELIFT

EyeLift is a **revolutionary formula** that delivers a **holistic improvement to the peri-orbital area**, from dark circles and puffiness to lines and wrinkles.

Free from fragrance and other common sensitisers, EyeLift is **suitable for even the most delicate skin**. This velvety serum offers a single easy option for peri-orbital rejuvenation.

TARGETS

Crow's feet
Wrinkles
Puffiness
Dark circles
Discolouration
Sagging skin

RESULTS

Tightens the appearance of sagging skin around the eyes
Reduces the appearance of crow's feet
Fades the appearance of dark circles
Helps reduce puffiness
Improves skin texture
Helps support fragile skin

THE SCIENCE BEHIND THE FORMULA

This all-encompassing eye treatment has a **luxuriously silky texture** to instantly soothe even the most sensitive skin. It is powered by 2 key active ingredients. **Persian Silk Tree Extract** (Albizia Julibrissin Bark extract) is an innovative ingredient that is multi-faceted in its benefits for skin health.

Glycation involves sugar binding to structural proteins such as **collagen** and **elastin** creating damaging compounds called Advanced Glycation End Products (AGEs). Glycation makes these proteins much **more vulnerable to damage** from UV rays and other aggressors.

Collagen and elastin fibres are rendered stiff and ineffective thus leading to sagging, inelastic and thinning skin as well as pigmentation. It is responsible for signs of skin fatigue and significantly ages the eyes. **The Persian Silk Tree Extract's anti-glycation effect** helps tighten and protect the delicate skin around the eye from the degrading effects of glycation, **restoring a more youthful appearance**.

Darutoside is derived from Sigesbeckia Orientalis, a shrub native to India. It has **powerful anti-inflammatory and anti-allergic** capabilities, which likely explains why many users reporting itchy or sensitive skin find EyeLift very calming. Darutoside has also been shown to **stimulate collagen production**, which is especially important in this area of very thin skin.

EYELIFT AND YOUR PATIENTS

A single eye product that ticks all the boxes for peri-orbital rejuvenation. Patients usually report **visible improvements** within **2-4 weeks** and absolutely love the texture.

PROTOCOL

Step One

Using the ring finger, gently apply to clean, dry skin. Focus on upper eyelid, along the orbital area and under the eye. Apply from the outer edge inward.

Frequency

Apply twice daily.
