GLUCOSIDE

3 POTENT, STABLE  
FORMS OF  
VITAMIN C

KEY ACTIVE  
INGREDIENTS

SODIUM  
HYALURONATE

THE PUREST  
FORM OF  
WATER-SOLUBLE  
HYALURONIC  
ACID FOR INTENSE  
HYDRATION

SODIUM  
ASCORBYL  
PHOSPHATE

MAGNESIUM  
ASCORBYL  
PHOSPHATE

## VITAMIN C COMPLEX AND YOUR PATIENTS

Vitamin C is one of the best ingredients for skin health, but in its L-ascorbic acid form, it is very photo-unstable and prone to oxidation rendering it inactive. **Vitamin C Complex harnesses the benefits of three highly effective Vitamin C compounds** that are also very stable. Thus, product potency is maintained throughout the shelf life of the product.

## PROTOCOL

Apply 4-5 drops to clean, dry skin with a gentle, upward motion.

Suitable for morning application to the face and neck.

### Dr Dev Recommends

Follow with a mineral sunscreen for full UVA/UVB protection.

## VITAMIN C COMPLEX

Vitamin C Complex by CellDerma is a lightweight, non-tacky serum **beneficial for all skin types**. A fantastic all-rounder. It **protects** against free radical damage, whilst **increasing hydration** and **improving the overall brightness** and appearance of the skin.

A **powerful trio** of highly stable forms of vitamin C offers an effective solution for those suffering from premature ageing, including the effects of extrinsic (e.g. environmental damage) and intrinsic (genetic factors) ageing. **Based in a hyaluronic acid medium** for enhanced penetration of active ingredients and optimal hydration.

### TARGETS

- Sun damage
- Premature ageing
- Rosacea
- Hyperpigmentation
- Environmentally-induced skin sensitivity
- Skin dehydration

### RESULTS

- Increased hydration
- Promotes collagen production
- Anti-inflammatory action for calmer skin
- Radiant, glowing and healthy complexion
- All-day antioxidant protection
- Inhibits melanin production

## THE SCIENCE BEHIND THE FORMULA

**Antioxidants act as the first line of defence by neutralising free radicals.** Free radicals are found within an array of **day-to-day pollutants** and are unstable molecules that contain unpaired electrons. In this highly reactive state, they search their environment, looking to scavenge replacement electrons. This creates a domino effect, as free radicals steal electrons from healthy cells, creating more free radicals. When healthy cells come into contact with damaged oxygen molecules, collagen begins to break down, and wrinkles and lines are formed.

**Some forms of vitamin C** are notoriously unstable, causing them to rapidly lose their potency. Others can cause sensitisation and redness. **Our Vitamin C Complex** contains **Ascorbyl Glucoside, Sodium Ascorbyl Phosphate and Magnesium Ascorbyl Phosphate**. **These forms** are well-known as **stable, gentle and effective**.

## INGREDIENTS

We believe in **total transparency**.

To help you trust and understand our formula, we have **highlighted the key active ingredients**.

We never compromise on quality.

Aqua, **Propylene Glycol, Sodium Ascorbyl Phosphate, Ascorbyl Glucoside, Magnesium Ascorbyl Phosphate, Sodium Hyaluronate**, Xanthan Gum, Phenoxyethanol, Ethylhexylglycerin

**CELLDERMA**  
PERFECT SKIN
