COUNTRIES

SCIENTIFICALLY  
PROVEN EFFECTIVENESS  
BACKED  
BY MORE THAN  
**150**  
STUDIES

# ENDERMOLOGIE® ENHANCES THE THERAPIST'S HANDS

Inspired by manual massage, endermologie® is the exclusive principle of action of LPG® patented technologies. Mechanical stimulation on the skin's surface reactivates natural physiological processes.

Thanks to specific treatment heads, it guarantees regular, **precise and pain-free tissue mobilisation**, even on hard-to-reach areas, impossible to treat manually.

- NATURAL TREATMENT OF MUSCULAR, CUTANEOUS & SUB-CUTANEOUS TISSUE
- IMMEDIATE & LASTING WELL-BEING
- NO SIDE EFFECT
- NO SKIN DAMAGE

The range of available treatment heads and protocols gives LPG® technologies a very large field of applications:

HEALTH

SPORT  
& PERFORMANCE

PARA-PHYSICAL  
THERAPY

# THERAPEUTIC INNOVATION:

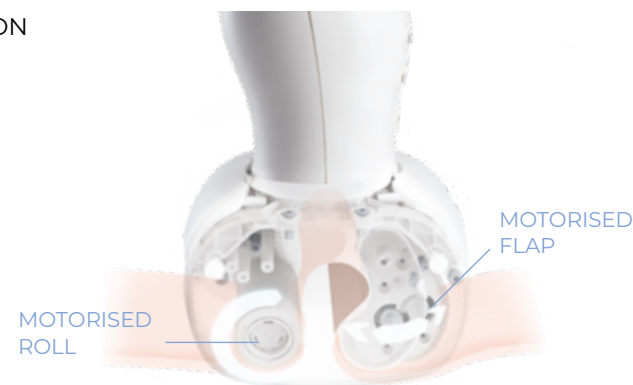

## CELLU M6 ALLIANCE® MEDICAL

The CELLU M6 ALLIANCE® MEDICAL technology is based on a **synergy of patented technologies** for an unprecedented mobilisation on all tissular levels.

Thanks to the motorised flap and roll, independently combined with sequential aspiration, the stimulation becomes **multidimensional** and is **optimised** for a more intense treatment.

The Alliance Skin Identity (ASI) system, associated with a wide range of settings, enables the practitioner to adapt **precisely** to the type of connective tissue (skin, aponeurosis, tendons...) whatever its condition (hyperextensibility, inflammation, fibrosis...) and to work on the **early stages** while controlling hyperemia.

- TISSUE SOFTENING & ANTI-FIBROSIS ACTION
- LIQUID DRAINAGE
- VASCULARISATION REACTIVATION
- SCAR HEALING OPTIMISATION
- ANALGESIC ACTION

### PROVEN RESULTS:

- BLOOD CIRCULATION INCREASE **X4\***
- LYMPHATIC FLOW INCREASE **X3\***
- FIBROSIS REDUCTION **-40%\*\***
- PAIN REDUCTION **-60%\*\*\***
- ENDOGENOUS HYALURONIC ACID SYNTHESIS STIMULATION **+80%\*\*\*\***
- ENDOGENOUS ELASTIN SYNTHESIS STIMULATION **+46%\*\*\*\***
- NATURAL LIPOLYSIS STIMULATION **+70%\*\*\*\*\***

# MEDICAL ENDERMOLOGIE®

## TISSULAR, JOINT & MUSCULAR EXPERTISE

Thanks to specific treatment protocols, LPG® technologies are today part of many medical procedures in different fields:

### RHEUMATOLOGY:

Joint stiffness reduction, breaking up of tension, pain reduction...

### ORTHOPAEDICS:

Pre and postoperative care, oedema resorption, joint mobility improvement...

### SENOLOGY:

Relieving adhesences, scar treatment, lymphoedema reduction...

### BURN CARE:

Tissue softening, treatment of bridle scars, buds, skin grafts...

### MAXILLOFACIAL:

Relieving muscular spasm, treatment of edema and scars...

### UROGYNAECOLOGY:

C-section scar, sagging skin, water retention...

### SPORT:

Muscle preparation and recovery...

They enable complete patient care for a quicker return to better health.

APPLICATIONS

# LPG® ACTIVE LIFE:

## PRE AND POST-OPERATIVE PROGRAMME

Active Life, a programme developed by LPG® in collaboration with surgeons and rehabilitation professionals, offers patients comprehensive care.

Thanks to the combined use of specific medical endermologie® and HUBER®\* pre and post-operative protocols, surgery results are optimised, recovery is faster and patients return to their normal active and social life more quickly.

\*Technique of osteomuscular mobilisation

## PROGRAMME BENEFITS

### FOR THE PATIENT:

- PERSONAL, PSYCHOLOGICAL AND PHYSICAL TREATMENT TO DECREASE ANXIETY, INCREASE CONFIDENCE AND COMFORT
- TARGETED AND EFFECTIVE POST-OPERATIVE CARE
- OPTIMISATION OF PHYSICAL THERAPY OBJECTIVES (FASTER MOBILITY RECOVERY, SHORTER CONVALESCENCE)
- A STRUCTURED FOLLOW-UP THANKS TO CLOSE COLLABORATION BETWEEN HEALTH PROFESSIONALS

### FOR THE MEDICAL TEAM:

- IMPROVE PATIENT CARE WITH MORE STRUCTURED PRE AND POST-OPERATIVE PROTOCOLS
- OPTIMISE PROCEDURES BY PREPARING TARGETED TISSUE AND JOINTS
- ENHANCE AND OPTIMISE SKILLS OF EACH TEAM

### FOR THE CENTRE OR HOSPITAL:

- OFFER A CUTTING-EDGE PROGRAMME, STATE-OF-THE-ART TECHNOLOGIES AND CUSTOMISED CARE
- CONTRIBUTE TO THE AWARENESS OF THE CENTRE AND ITS STAFF
- REDUCTION IN PATIENT SURGERY CANCELLATION
- STRENGTHEN RELATIONSHIP WITH LOCAL HEALTH PROFESSIONALS

### BUSINESS ADVANTAGES:

- OPTIMISE PHYSICAL THERAPY FOR EACH DAY SPENT AT THE HOSPITAL
- COST REDUCTION DUE TO SHORTER STAYS

# YOUR CUSTOMISED SOLUTION

## CELLU M6 ALLIANCE® MEDICAL

### TREATMENT HEADS:

- Alliance® 80 treatment head<sup>2</sup>

### ON-BOARD APPLICATION:

- Body beauty endermologie®

### TECHNICAL SPECIFICATIONS:

- Weight: 80.5 Kg
- Dimensions (L x w x h): 61 x 80 x 140 cm
- Color touchscreen
- 3D graphical interface
- Device connectivity

## CELLU M6 ALLIANCE® MEDICAL PREMIUM

### TREATMENT HEADS:

- Alliance® 50 therapeutic treatment head<sup>1</sup>
- Alliance® 80 treatment head<sup>2</sup>
- TR30 motorised treatment head<sup>3</sup>
- Ergolift® treatment head<sup>4</sup>
- Micro-nozzles & micro-heads<sup>5</sup>

### ON-BOARD APPLICATIONS:

- Body beauty endermologie®
- Face beauty endermologie®
- Medical endermologie®
- Spa face & body endermologie®
- Medical æsthetics endermologie®

### TECHNICAL SPECIFICATIONS:

- Weight: 80.5 Kg
- Dimensions (L x w x h): 61 x 80 x 140 cm
- Color touchscreen
- 3D graphical interface
- Device connectivity

## ENDERMOSCAN™ APPLICATION ON TABLET

### TRUE BEAUTY PATIENT FOLLOW-UP:

- Face & body evaluation
- Photo assessment
- Customised programme creation
- Session follow-up
- Connection to your device

## 1 - ALLIANCE® 50

For large areas and thicker tissue  
(fibrosis, oedema, inflammation...)

## 2 - ALLIANCE® 80

For in-depth action on large areas  
(beauty treatments)

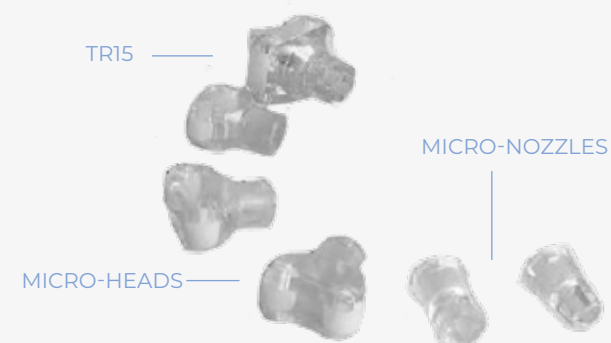

## 3 - TR30 MOTORISED TREATMENT HEAD

For access to smaller and delicate  
areas (lesions, scars...)

## 4 - ERGOLIFT® HEAD

**LIFT 10:** small areas, eye and lip  
contours, hands, fingers...

**LIFT 20:** large areas of thin and  
sensitive tissue

## 5 - TR15, MICRO-NOZZLES & MICRO-HEADS

For micro-targeted therapeutic  
action (hands for example)

# THE LPG® GROUP

## SUPPORTS YOU

- **TRAINING:** Develop your expertise thanks to different levels and specialisation (expert endermologie®, post breast cancer rehabilitation, maxillofacial...)
- **COMMUNICATION:** Benefit from worldwide brand recognition (press clippings, tv coverage, waiting area tools...)
