# Originalhome Lampion Carry-On:

## The Small Lamp with Big Impact

Meet the must-have **it-lamp** of the SS25 collection: the **Lampion Carry-On** by Originalhome. First revealed at **Maison & Objet and Ambiente 2025**, this small yet impactful lamp is crafted from coastal plastic waste collected by Indonesian communities and handcrafted by local artisans. Combining sustainability, design, and function, the Lampion Carry-On embodies the modern movement of making conscious, stylish choices for a better world. Perfect for both indoor and outdoor use, this colorful lamp makes a big impact—not only on interiors but also on the environment and local economies.

### BIG IMPACT IN 4 WAYS:

#### 1. Cleaning Up Beaches

This lamp directly contributes to ocean conservation. Made from recycled plastic waste collected along coastal areas, it plays a role in **keeping beaches clean** and preventing plastic pollution. Originalhome collaborates with the **GOT BAG Indonesia Foundation** on a coastal cleanup initiative in Java, involving **17 local communities** in collecting and sorting plastics that would otherwise harm marine life. By supporting education and incentivizing these efforts, the project fosters long-term improvements in recycling and waste management.

#### 2. Protecting Oceans & Biodiversity

**80% of ocean plastic originates from land**, flowing **through rivers and coastlines** due to poor waste management, especially in **developing regions of Asia and Africa**. This leads to ecosystem damage and the spread of toxins. By preventing plastic waste from entering the ocean, the **Lampion Carry-On** helps **protect marine life** while advocating for long-term solutions.

### 3. Supporting Local Handcrafters

The Lampion Carry-On **empowers rural Indonesian artisans** by providing sustainable job opportunities. Each lampshade is meticulously handcrafted using **traditional weaving techniques**, offering employment and preserving cultural craftsmanship. The **low-impact** production process ensures that every step, from plastic collection to final product, aligns with Originalhome's mission of sustainability and social responsibility.

### 4. Elevating Your Space with Versatility & Trendy Design

Beyond its environmental and social impact, this lamp makes a statement in home décor and stands out as a multifunctional piece. Designed for **both indoor and outdoor use**, it can be styled as a **pendant light**, placed on a **table with a switch**, or taken outdoors as a **solar-powered lantern**—perfect for your **garden, balcony, or travel adventures**.

Available in a selection of seven stylish colours—Natural, Green, Terra, Grey, Blossom, Moss, and Honey—the Lampion Carry-On seamlessly integrates with 2025's biggest interior design trends:

- **Joyful & Surrealist Colours:** Vibrant shades like Moss, Green, Blossom, and Honey foster positivity, self-expression, and optimism, reflecting the trend towards emotional well-being in home decor

- **Earthy Neutrals:** Timeless tones like Terra, Natural, and Light Grey offer grounding warmth and adaptability, making them perfect for contemporary spaces

**Lampion Carry-On:** €89.99 MRSP

Available for resellers in April and for consumers in July.

### About originalhome

Originalhome offers sustainable & ethical home decoration and eco-design and earth-friendly (waste) materials with social trade. Originalhome works closely together with small workshops located in the rural and remote areas of Bangladesh, Indonesia and Tanzania to create more job opportunities. The products are solely made by hand on a non-industrial scale using traditional craftsmanship. We give back 20% of our profits back to social causes.
