

AXL co-locates with leading Transport & Logistics event in Antwerp in 2025

Two of the most important events in the logistics and breakbulk industries will co-locate in Antwerp in October 2025 to unite professionals across the entire supply chain.

The Transport & Logistics conference and exhibition has long been established as a meeting place for the Benelux industry. It brings together 11,000 experts to network and discover how to foster seamless pan-European hinterland connections, including all cargo types as well as storage and value-added logistics.

AntwerpXL is a specialized event bringing together 3,800 project cargo, RoRo, Heavy Lift professionals to forge partnerships, streamline and solve challenges within the breakbulk supply chain.

The two complementary events will now run side by side in the Antwerp Expo on 14-16 October 2025. Both events will be supported by the Host Sponsor, the Port of Antwerp-Bruges.

Logistic & Industrial Build will also run alongside AXL and Transport & logistics in the Antwerp Expo. This event focuses on the logistics real estate market and gives visitors even more reasons to attend.

“This move is incredibly exciting for AXL,” Margaret Dunn, the event’s Portfolio Director explains. “The event will remain a focused breakbulk conference and exhibition, bringing together all the key players in one hall in the heart of the breakbulk industry in Antwerp. However, it will also provide an additional opportunity for the industry to meet and network with the wider transport and logistics communities, creating new potential growth and partnership opportunities across the supply chain.”

Both events will benefit from additional footfall from ports and terminals, freight forwarders, logistics managers, shippers and transportation managers.

“This combination will create a must attend event for the transport and logistics, breakbulk, container and maritime industries,” Nadine Francus, Group Event Director for Transport & Logistics.

“Co-locating AntwerpXL with Transport & Logistics creates new opportunities for participants to explore collaborations beyond their own industry,” Annick Dekeyser, Marketing Advisor for the Port of Antwerp-Bruges adds. “Companies will benefit due to the synergies between the two events. The main asset of AntwerpXL for the breakbulk community is networking and this is also a real driver for Transport & Logistics.”

Both events will now run in the Antwerp Expo on 14-16 October 2025.
