

S4M
MAKING MATERIALS COUNT

MATERIAL RENTAL

S4M is your on-site and off-site rental partner. You can rent all the necessary safety equipment. From PPE, gas detection, safety equipment to tools and other materials.

We provide your rental fleet and necessary parts on-site when you need them most. This allows your project to get started without worries with the right safety materials and tools.

Do you have a shutdown or turnaround planned? We rent out materials for both short and longer periods, including user training if desired.

MAKING MATERIALS COUNT

SHUTDOWN TURNAROUND

When a shutdown or turnaround occurs on your site, there is an increased need for safety and therefore also safety materials and services.

S4M can provide you with the necessary services. We offer assistance with temporary security, provide a safe work environment and materials management and maintenance in our on-site shop.

Renting additional equipment can be an efficient solution during shutdowns. Renting equipment that is only needed temporary can reduce costs and increase flexibility.

We offer a wide range of safety equipment that meets the highest safety standards.

It is essential to have a well-organized shutdown process to ensure the security, efficiency and effectiveness of operations.

This includes the management of safety equipment, tools and the maintenance of used equipment.

During shutdowns, various materials are used intensively. Maintaining these used materials is critical to ensure a smooth operation and safety.

Inspection, repair and maintenance of used assets are essential tasks during a shutdown. Our specialized workshops combined with our logistics services guarantee correct, efficiently and timely maintenance.

Issues and manages safety equipment and tools. Provides widely available supplies (safety materials), parts and technicians.

Essential tools and equipment needed to perform maintenance and repair work are provided and managed.

Using an automated system minimizes loss and provides an organized registration and management process.
