

THE NATIONAL RETROFIT CONFERENCE 2026

Part of

futurebuild

03 - 05 March 2026 | Excel, London

Curated by

In Partnership with

JOIN THE RETROFIT REVOLUTION

The **National Retrofit Conference** returns to Futurebuild 2026, and with **Connect** as our central theme we are focused on bringing the entire retrofit community together to accelerate decarbonisation through collaboration, knowledge sharing and innovation.

Retrofit is driving the future of the built environment, over 2,700 retrofit professionals assembled to learn, explore and lead the charge in decarbonising the UK's ageing housing stock. The new **Big Retrofit Challenge**, saw seven finalists from 75 entries pitch live in front of an expert panel securing meetings with contractors. The **Retrofit Academy Awards** once again recognised rising stars in the industry highlighting excellence in retrofitting across the market. The 14 sessions on the **National Retrofit Conference** were at full capacity over three days with content curated by the Retrofit Academy and The National Retrofit Hub delivered by 62+ industry leading experts including Minister Miatta Fahnbulleh, Minister for Energy Consumers and Parliamentary Under-Secretary of State at DESNZ.

Join us for 2026 as we connect manufacturers with policymakers, local and central government, housing providers, and retrofit experts to accelerate the decarbonisation of the UK built environment. Don't miss your opportunity to be at the forefront of innovation and sustainability. Secure your place at the National Retrofit Conference 2026.

“The beauty of the event is that it brings together everyone across the built environment. So in construction, property, real estate, design, local government, central government, and a whole lot more. And it's the only event that really attracts the right seniority level.”

David Pierpoint, Chief Executive & Founder, **Retrofit Academy**

The **Big Retrofit Challenge** is a groundbreaking competition co-hosted by Futurebuild, Innovate UK, and the National Home Decarbonisation Group (NHDG). This initiative is designed to unearth pioneering solutions for decarbonisation and healthy living spaces, offering innovators a platform to showcase products, processes, systems, and new approaches that support healthy homes in the UK's built environment.

Seven innovators will pitch live at Futurebuild 2026, gaining exclusive networking opportunities with industry leaders and the chance to pilot their solutions in decarbonisation projects across the UK.

THE NATIONAL RETROFIT CONFERENCE PART OF FUTUREBUILD

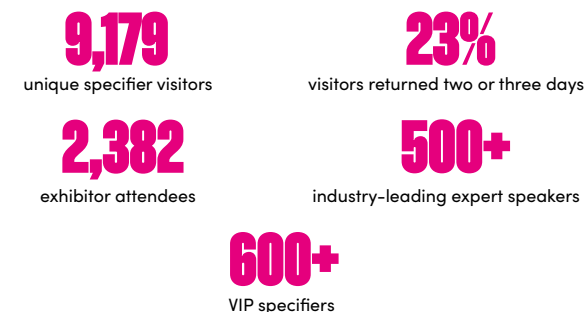

Futurebuild has led the built environment towards a more sustainable future for over 20 years. In 2026, it continues to be the only event that connects the entire built environment supply chain from architects, Tier 1 contractors, engineers, developers, local authorities and housing associations to policy leaders and procurement professionals.

Exhibitors at Futurebuild and The National Retrofit Conference have the exclusive opportunity to connect with industry decision-makers and specification influencers, all in one place, across three days.

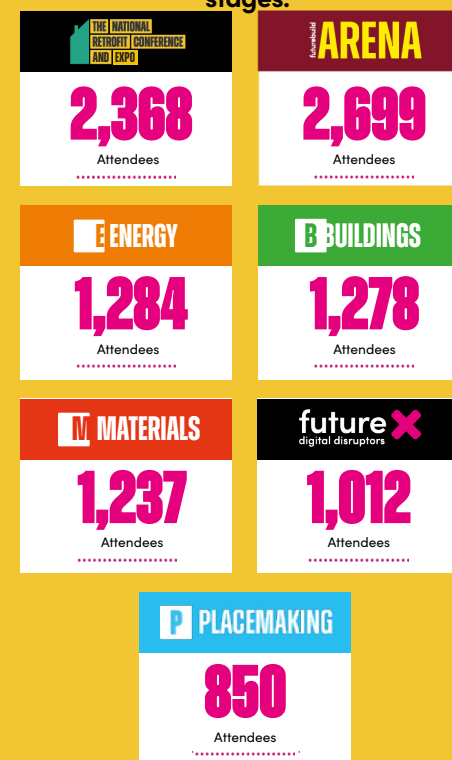

Make connections that drive positive change at Futurebuild

Futurebuild in Numbers:

Industry leading content across two conferences and five seminar stages.
