RentalMatch.eu

Green Power

Dealer and Partner of JMG Cranes:

100% ELECTRIC- HYBRID - BATTERY

ZERO-EMISSION

The demand for sustainable, preferably zero-emission machines is growing among clients.

RentalMatch carries an extensive, fully innovative assortment of machines that: are **100% electric, hybrid, or battery powered.**

Why does **RentalMatch** invest in these machines?

These machines may present a solution for the protracted nitrogen crisis.

Fully-electric machines do not produce emissions of CO2 and air pollutants in the workplace.

Electric machines are quiet and produce less noise pollution for employees and the surrounding area.

Electric machines are especially suitable for urban areas or nature reserves, and may offer increased chances of winning tenders in these situations.

The maintenance and energy costs are lower than those of fossil-fuel-powered machines. This cost benefit compensates for the higher acquisition cost.

RentalMatch Green Power Dealer of **JMG Cranes S.p.A.**

JMG Cranes is an innovative manufacturer of industrial electric Pick & Carry cranes

RentalMatch Green Power is ready for the Green Future.

LET'S MAKE ZERO EMISSION POSSIBLE!

100% ELECTRIC PICK & CARRY-KRANEN

We proudly present our **100% electric and therefore ZERO-Emission** Pick & Carry cranes. These cranes were designed to optimally manoeuvre in confined areas and tight spaces both in and outdoors in order to horizontally and vertically move heavy loads.

RentalMatch Green Power is ready for the future.

These Pick & Carry cranes are safe, compact powerhouses that have proven their worth in the Petrochemical-Utility-Maritime-off/on shore-construction and Industrial sector.

A wide range of optional features allows our customers to find custom solutions that are perfectly tailored to their needs.

- Manual Jib
- Hydraulic jib
- Hydraulic winch
- Hydraulic forks
- Front outriggers
- Non-marking tyres
- Jib extensions
- Radio Remote-control
- Customized painting
- ATEX conversions

Our fully innovative and high-quality Pick & Carry cranes feature lifting capacities ranging from 0.9t to 70t.

To offer the perfect machine for the needs of each customer, JMG has split its assortment of Pick & Carry cranes into: **Green-lifter from 0.9t to 1.3t**, **Radio Remote control from 2.5t to 58t**, **Cabin Cruiser from 6t to 70t**, **Lige Cabin Cruiser from 4t to 12t**, **Carry Deck from 10t to 150 T/M** and **Telescoop Forklift from 12t to 35T**.

Moreover, the powerful battery makes these machines an environmentally friendly, quiet and zero-emission solution, suitable for any area of application.

RentalMatch prioritises safety: each model is equipped with a Last Moment Indicator system (LMI) and acoustic and visual signalling equipment that meets CE regulations.

We offer a wide range of services: assisting you in finding the right solution, custom solutions, engineering, staff training, after-sale service, support, technical service and spare parts.

100% Elektrisch

Zero Emission

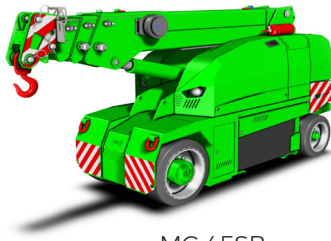

8 no-stop working hours

RADIO REMOTE CONTROLLED FUN AND SAFETY

Our **Radio Remote Controlled kranen** were designed to optimally manoeuvre in tight spaces. The crane is fully remote controlled, allowing the driver to focus on the lifting operations.
