WE WANT TO GROW – AND WE WANT TO GROW WITH THE BEST

SOFTWARE DEVELOPER (m/f/d)
part-time | full-time | unlimited

Are you a professional looking for a new challenge or are you still at the beginning of your career and can't wait to get started? In both cases, you've come to the right place! We are an innovative start-up that is working flat out on the future of the digital factory. In concrete terms, this means that we retrofit industrial plants with plug & play-capable hardware and software solutions. Our goal is to network machines, plants and entire production areas and locations in order to make manufacturing companies more powerful and efficient.

YOUR TASKS

- Software development in the frontend and backend area according to DevOps principles with the programming languages QML/JavaScript (frontend/backend) and C++ (backend) as well as the Qt framework.
- Integration of fieldbuses, open source libraries and hardware drivers under Linux (e.g. for the connection of sensors and machines)
- Qt Quick-bansed app development and database integration
- Development and maintenance of documentation as well as automated build, test and deployment mechanisms (Continuous Integration / Continuous Deployment)

OUR MINIMUM REQUIREMENTS FOR YOU ARE

- Completed (technical) university studies in (applied) computer science, equivalent qualification or equivalent practical experience
- Experienced developing with the current standards of the programming languages C++ and JavaScript experience with QML, Qt Quick and Python are helpful but not a must
- Experienced with Git and CI/CD platforms such as Gitlab/GitHub
- No fear of the command line under Linux - but an LPI certificate is not a must ;-)
- Several years of experience with software projects, whether professional or private

WHAT YOU CAN EXPECT FROM US

- Varied tasks through versatile industrial projects
- Permanent employment contract
- Family-friendly working hours with home office option
- Further training and qualification measures
- Good Pay
- coffee, drinks and sweets ;-) for free
- Joint team events with a young, innovative, high-performing team and an informal start-up culture

Please send your complete application documents consisting of a letter of application, curriculum vitae in table form and proof of qualifications by e-mail to: **doreen.neubert@inhub.de**.

We ask that applications be sent exclusively by e-mail, as we do not return applications sent by post!
