

STANDARD BEARING UNITS

QBS standard cast iron pillow blocks (MQ) are suitable for high radial loads. Standard bearing units are effective pillow blocks and a good alternative for the well-known A-brands.

Versions

- Shaft fixation by two set screws or with a locking collar
- Seals of sheet steel washers with reinforced NBR rubber seals inside
- Industrial grease

Series

UCP - UCF - UCFL - UCPA - UCPW - UCT - SAP - SAF - SAFL

Material
