

AUTOMOTIVE LOGISTICS

Providing players in the automotive sector with the correct service has been one of our important objective for many years. Big names in the sector rely on our expertise. We are specialists in all facets of automotive logistics.

KILOMETRES ON THE COUNTER

As market leader, we have been coordinating transport for already 30 years for:

- Major players in the automotive industry.
- Original equipment manufacturers (OEM).
- Suppliers.
- TIER 1 and TIER 2 suppliers.
- Spare parts and production components.

AT HOME IN ALL AREAS

We will gladly work with you as:

- Transport coordinator.
- Regional distribution centre.
- District carrier.
- Lead logistics provider (LLP).

OUR EMPLOYEES OFFER YOU

- A knowhow-based personalized service.
- Reliability, speed and peace of mind.
- 24/7 follow-up.

This is all made possible thanks to their experience with transport, handling, storage and follow-up of both production components and spare parts, through clock-proof JIT and time-window systems and a knowhow-based personalized service.
