experience

dvc

from idea to product

CAPABILITIES

SMD components

- from min. 01005 inch to max. 42 mm x 42 mm

THM components

- unlimited

PCB Size

- min. 80 x 55 mm (incl. panel border)
smaller PCB (5 x 5 mm) possible by putting
them into a panel of the minimum size.
- max. 600 x 250 mm (incl. panel border)
larger : please contact-us

PCB standard technologies

- IS-400 (Isola = temperature resistant resin system)
- FR4-standard (Flame Retarded)
- FR4-no Cu
- IMS (insulated Metal Substrate)
- Polyimide (high performance polymers)
- CEM35 (Composite Epoxy Material)
- ROGERS 4350B (rigid, heat-stable laminate)

Other PCB-technologies on request

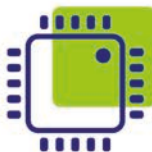

- HDI (High Density Interconnector)
- Flex-rigid (combination FR4 + polyimide)

Processes on request

- PCB Routing
- Testing & programming
- Conformal Coating
- Housing - Keyboards - Die and Wire bonding
- X-ray inspection
- BGA replacement and rework
- BOM analysis and optimisation
(we are engineers and can analyse your schematics)

**FROM PROTO
TO SERIES**

myProto
online circuit assembly

FAST ONLINE PCB ASSEMBLY SERVICES

User-friendly platform

- 24/7 instant quote with attractive pricing
- Advanced component search engine
- Engineering support
- Strong partnerships

Farnell, Digikey, Mouser, RS Components,
Arrow, Verical, TME, Rutronik, ...

Industrial grade quality

- Premium Quality Level
- Documented production report
- 100% traceability per QR code

Very short lead times

- Delivery starting from 5 days
- Delivery time guarantee

... and more to come
