

Level Sensors offer Wide Measurement Ranges

EBE's LTFA level sensors offer accurate and contactless level measurement over a wide range of distances (20 - 2000 mm). Solids and liquids with different surface characteristics are detected by EBE's ToF-electronics and proprietary software algorithms.

Technical Specifications

- Dimensions: 28 x 40 x 1,6 mm;
- Sensing area: 20 - 2000 mm; customizable up to 10 m
- Outputs include analog 0-5 V and digital protocol
- Detects even media with complex geometries (e.g. ice cubes floating on the surface)
- Insensitive to optical interference and external radiation
- Custom housing options on request
