

Development...

Hardware

Conception, consulting, PLM
Circuit diagram and layout creation
Circuit development and simulation
HIGH-speed design
Analog and digital assemblies
Prototyping, sample and series production
Test (JTAG, Boundary Scan, ...)
Commissioning
Documentation of all processes

Our expertise

Production according to IPC-A-610 DE
ESD-compliant production environment
Certified according to DIN ISO 9001
RoHS compliant use of materials

Software

Conception, consulting, PLM
Firmware (ARM, Intel, TI, ...)
Linux
Driver/system software (C, C++, C#...)
M2M communication (TCP, UDP, HTTP, ...)
Web technology (HTML, PHP, SQL, ...)
IoT, Internet of Things (MQTT)
Test, commissioning
Documentation of all processes

Service

Based on our product range and our experience, we can realize customer-specific tasks quickly and cost-effectively.
