

Ready to elevate your products from 'complicated' to 'easily configurable in just a few clicks'?

Then it's time to meet Configon, our game-changing 3D product configurator!

Error-free configuration via drag & drop

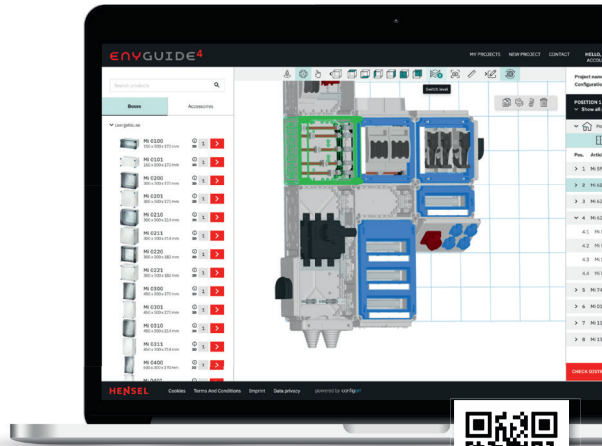

- ✓ Easy to use for experts and non-experts

Independently maintain product data and rules

- ✓ No coding, no PHD necessary
- ✓ Easy access via CADENAS Import/Export

Quick to market with plug-and-play solutions

- ✓ 0 project days for standard versions
- ✓ Upgradable to cross-process configurator

configon®

Configon is a product of Resolto Informatik GmbH – A member of the Festo Group

Which Configon type fits your project?

We've got options! Choose from our standard CPQ software to a fully customisable configurator that's as unique as your products. Start small and expand whenever you feel like levelling up!
