

Your added value with MSB®

SAP Add-On for mobile Processes

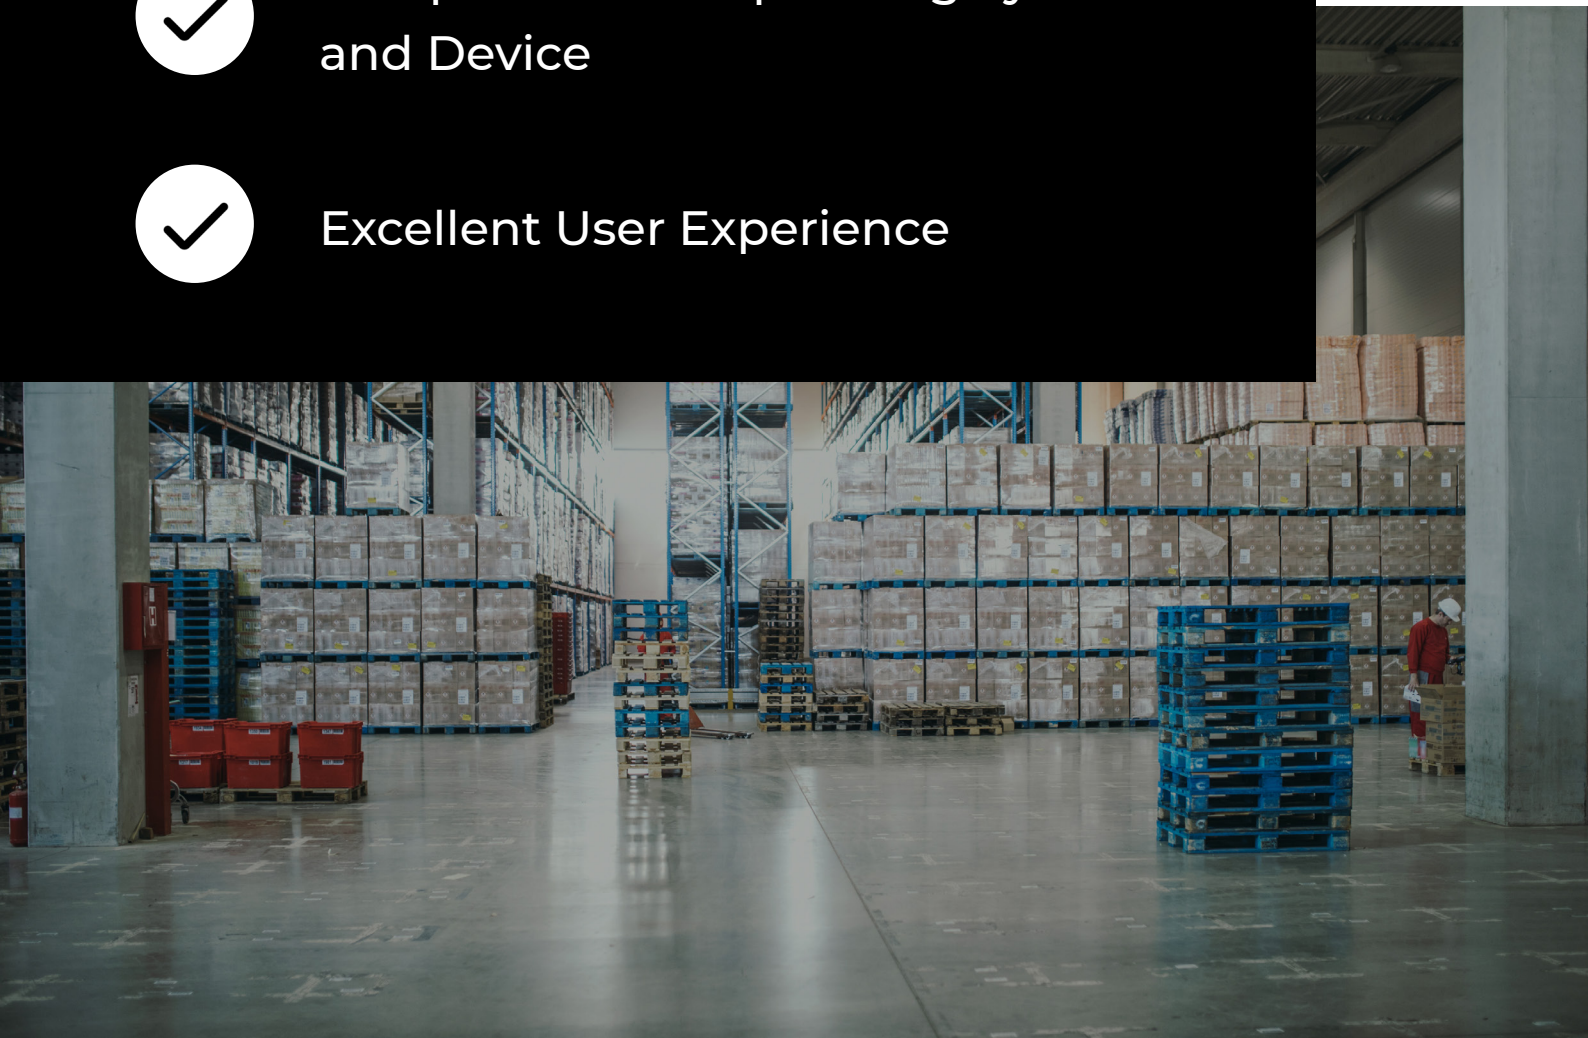

Efficient App Development

Independent of Operating System and Device

Excellent User Experience

MSB in Use:

Benefits at a glance

The products MSB and MSB FIVE from our product portfolio are the basis for a quick and easy implementation of mobile SAP business processes with a focus on mobile logistics and maintenance.

✓ Directly Integrated into SAP

- No additional servers or SAP infrastructure required
- No redundant data storage
- Reduced traffic for maximum performance

✓ Efficient App Development

- High development speed - helped by more than 80 Ready-to-use templates for logistics and maintenance
- Create surfaces yourself via drag-and-drop
- Only ABAP knowledge is required for programming

✓ Independent of Operating System and Device

- Once developed, MSB runs on any device and operating system
- MSB supports the following operating systems
 - Windows CE, Windows Mobile
 - Windows 7, Windows 10
 - Android from version 5.x
 - iOS from version 9.x
- Successive OS switchover is possible without any problems (e.g. Windows CE to Android)

Direct Launches

- A store release of your application is not required
- Deployment exclusively via your SAP system
- Direct rollouts for innovations and Changes in the app

Limitless Use

- One mobile platform for all SAP modules (MM, WM, EWM, TRM, PM, PP etc.) i.e. no isolated application
- Unlimited scalability to all business areas
- Future-proof solution
 - SAP certification
 - S/4HANA ready

User Experience

- User-friendliness through both pixel-based and responsive applications
- Smooth online / offline functionality
- MSB enables applications with blind scanning

SAP Certified
Integration with RISE with SAP S/4HANA Cloud
