

We connect the industry

MC Technologies GmbH is your personal distributor for industrial connectors from leading manufacturers and customised cable assemblies.

Special problems require individual solutions.

- Personal customer advice is important for us.
- Do you have questions about our products?
- Do you need support?

We advise you from the idea, through design-in, series production, warehousing, special solutions up to alternative solutions. In addition, we assemble customised cables and connectors individually according to your requirements.

The Quality Connection

one company > a world of innovation

Give us a call. Our technical support will be happy to help you and find the right solution for you.
