

AN ANSWER FOR EVERY CHALLENGE

ECONOMICAL & ECO-DESIGN

PACKAGING TRANSITION
THE SOLUTION

SAFETY

▶ PRODUCT SAFETY

Thanks to the increased friction of their coating technology, our anti-slip solutions prevent palletized loads from shifting ! Say goodbye to product shifting & collapsing upon arrival or when unpacking. Anti-slip tie sheets stabilize your goods and reduce customers' non-conformities.

▶ WORK FORCE SAFETY

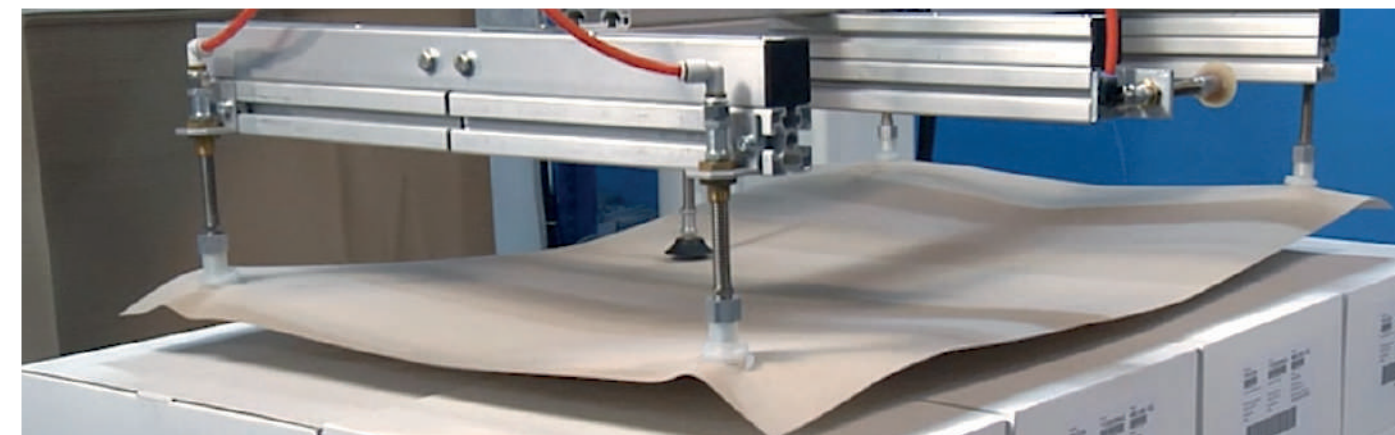

Anti-slip solutions reduce work accidents ! They secure all logistics operations : handling, storage, loading, transport and unloading.

▶ PRODUCTION lines, CONVEYORS and STOCK SAFETY

Anti-slip sheets help reduce line incidents by stabilizing products as soon as the pallet is formed and before transferring to the wrapping or strapping station. No more time wasted in cleaning palletizer cells, conveyors or stock, damaged by spilled products.

SAVINGS

▶ Lower PACKAGING COSTS

Grammage downsizing, reduction of stretch film, removal of corner boards and reduced strapping.

▶ Lower LOGISTIC COSTS

Optimization of palletization patterns, increased pallet height and vehicle fill rate.

▶ Lower WASTE TREATMENT COSTS

Less packaging equals less waste. Our products are 100% recyclable and re-usable.

▶ Lower PRODUCTION COSTS

Reduction of production line downtime caused by line incidents.

▶ Lower FINANCIAL COSTS

Improved inventory cash flow, reduced capital expenditures.

PALLET LOAD STABILIZATION ANTI-SLIP TIE-SHEET

Works with any type of packagings

STABUSTRAP PALLET ELASTIC BAND

▶ Stretch band to stabilize pallets, avoiding waste and protecting your products. Innovative alternative to stretch film. Ideal for internal transport.

▶ The product is available in strips 100mm wide on a roll of 100 pre-cut strips. Each strip is 1200 mm for a pallet circumference of 2.5 to 5 m. Other formats available on request.

CGP

+ MORE THAN 25 YEARS' EXPERIENCE :

Our solutions support our customers in many fields such as the food industry, consumer goods, chemicals, etc.

+ INNOVATIVE PRODUCT SOLUTIONS :

Each year our anti-slip solutions stabilize more than 50 million pallets shipped worldwide. Our extensive range is able to meet all types of challenges.

+ TECHNICAL PROFICIENCY :

With an integrated Technical Center and innovative tools such as our 6 DOF HEXAPOD, a transport simulator, we are technical experts in stabilization loading.

+ PERCEPTIVE INTERNATIONAL TEAM :

Thanks to our international presence we follow your projects from beginning to end. Our team follow your pallets from the place of shipment across 5 continents.
