

**YOUR PARTNER
IN POLISHING**

PHARMACEUTICAL FINISHES

We have a wealth of experience in polishing Stainless Steel sheet and plate for the pharmaceutical sector.

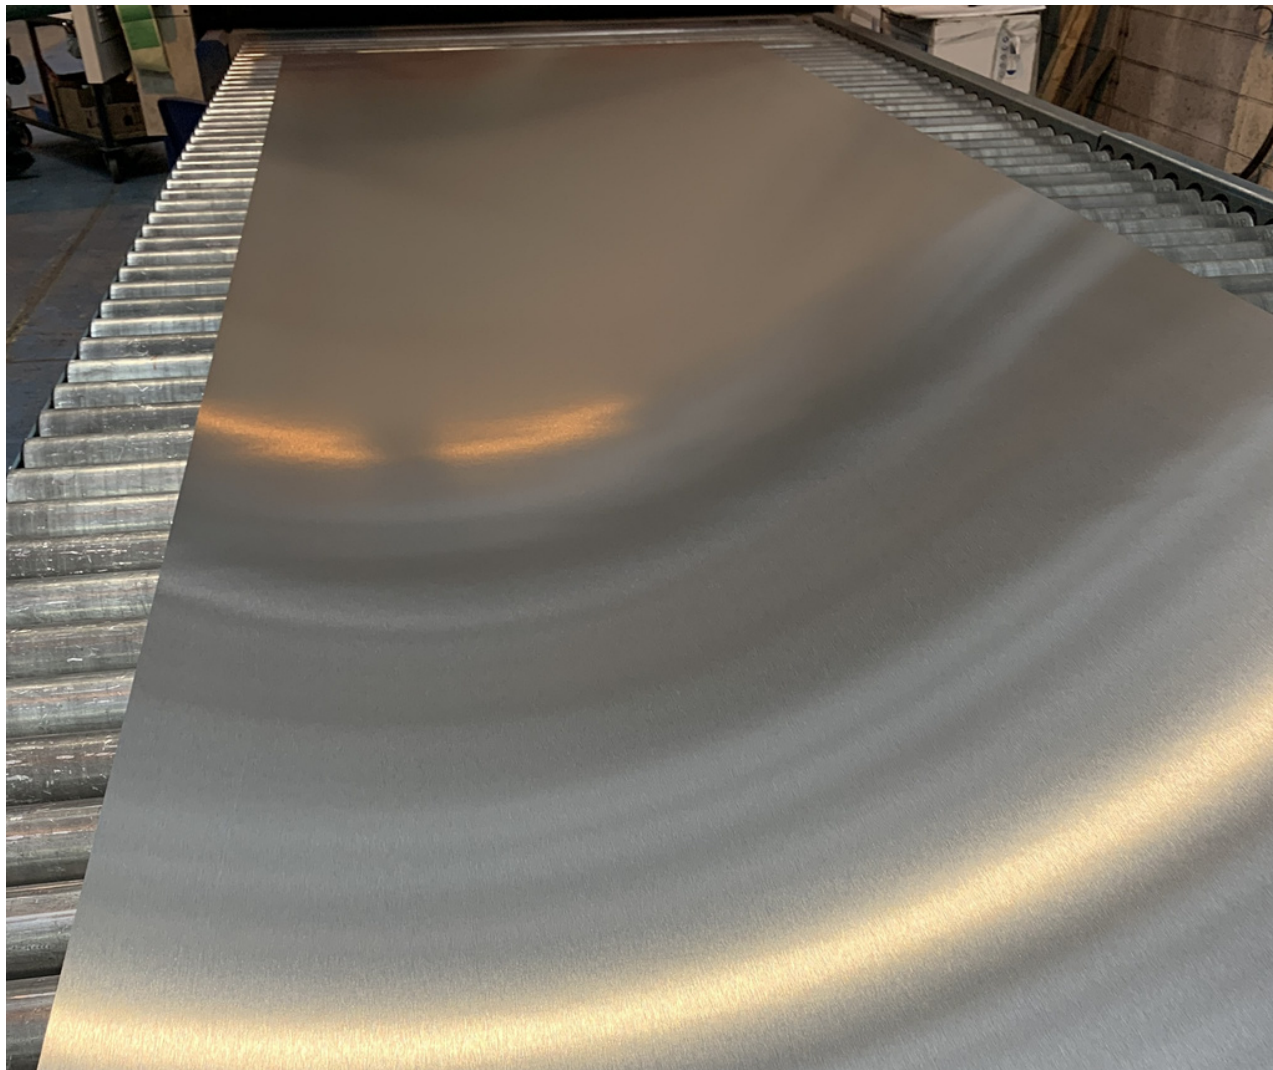

Polishing material to a 1K / 2K finish we certify the finish to the Ra reading required and can provide photographic and video certification.

As the only polishing company in the UK with a 2000mm wide through feed multi-head polishing line we are dedicated to providing the right finish every time for your pharmaceutical project.

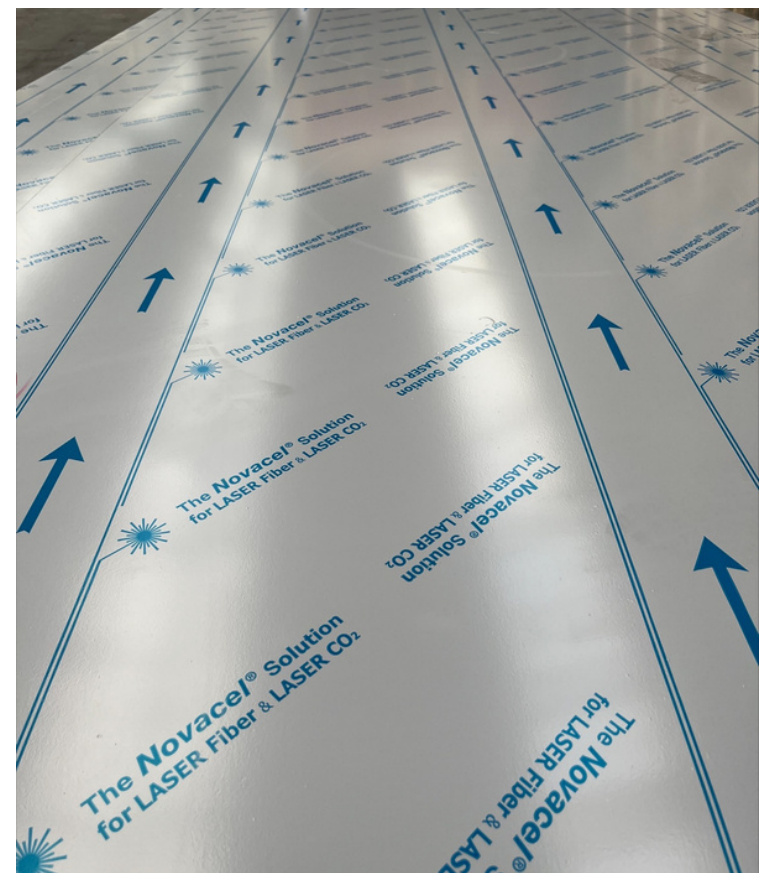

For more information talk
to our Commercial Team.
