NEW LIGHTER CANISTER RANGE

10 to 25 L UN container - AS range

PE

We provided you the latest new range of european canister from 10 to 25L, with a Y1.9 to Y1.6UN certification, which meets the requirements of the packaging of type I (maximum product density 1.9). This range covers all the needs of type I, II and III of packaging groups. This range presents the best European ration between weight and UN X1.9 certification regardless the 98/638 decree and also have a better carbon foot print impact.
