Love & Prosperity through Community

We celebrate the world we live in by putting sustainability at the core of all activities as well as only using 100% organic ingredients. We celebrate our 300+ sustainability-minded employee co-owners through empowering programs such as the Big Game. Our small-scale farmers benefit from incentives to grow organic produce, a generous premium on top of fair-trade prices, and initiatives that enhance the wellbeing of their families and communities. We celebrate tea in all its flavourful glory. Honouring tea traditions from England to Sri Lanka and beyond, we've crafted a delicious and, at times, a surprising selection of teas. So, you get to enjoy all the regular favourites and discover the exciting new blends that make up our beautiful ranges.

For tea lovers, all of this guarantees excellence in everything we do; from sourcing the finest fresh organic ingredients, to our expert employees in Colombo, Sri Lanka and the beautifully packaged tea on your kitchen shelf. Our dedicated designers deserve special mention for the exuberant packaging that shares the joy we take in every step of the tea journey – from planting to pouring. An explosion of colours celebrates the rich, diverse flavours and aromas given to us to enjoy by Mother Nature.

The English Tea Shop was set up in 2010 with a passionate belief in doing things differently by putting people and purpose before profit. Our mantra of 'Love and Prosperity through Community' has acted as a guiding star on the road to success in over 55 markets worldwide. Our growth proves our heartfelt belief that ethical, sustainable businesses can be successful and profitable. We care about enriching the lives of everyone involved, from farm to cup; from planters to pickers, processors and packers, to you preparing your favourite cup of tea in the comfort of your own home. All of these wonderful people make up your tea loving community.

In October 2021, English Tea Shop became 30% employee-owned!

We are continually improving how we do things and aim to become the world's leading employee-owned tea company with a unique sustainability model. In 2021, our employee share-ownership increased from 80 core employees owning 15% of company stock to 215+ employees owning 30% of shares.

Join the celebration of uplifting blends that do good, crafted with care by tea lovers like you.

Prajāva is our philosophy, and that stands for the inspiring way in which a business can work with its communities to create a virtuous cycle of shared value. In return, it delivers a sustainable competitive advantage to everyone in the value chain, including the environment at large. This puts the business in an incredibly strong position to drive ethical, long-term value creation for its customers, employees, and suppliers. As a result, it enables the business to form more fruitful relationships while uplifting everyone's livelihoods and bridging the inequalities in wealth and knowledge.

The celebration of colour in all its glory is a Sri Lankan tradition and has long been at the heart of our brand. This has been amplified building on strong colour recognition for core products and by introducing exciting new colours. We like to use colour boldly, looking for appropriate combinations to offset our rich ingredient combinations.

Getting to know the taste profile of our blends before you even sip..

Our taste quadrant system

It started with a sip... and another...and another....

With intense punchy flavours, packed with depth and structure to create a silky smooth tea, we decided to create a language that engages with our audience based on taste-specific flavour profiles.

So, we asked ourselves a question: If it's been done for wine since the 14th century, so why not for tea?

We wanted to change the way our consumers engage with our products by creating a range of teas that bridge the gap between tea and food, and how they complement one another through taste preference.

Establishing a category that is rich in information that connects with the consumer on a multi-sensory level enabled us to create a language that educates and informs the consumer with clear understandable keywords that can be used across our Core, Super and Wellness blends. To inspire creating this core structure allows us to create bite-sized emotive keywords that differentiate each blend, we created a guided sensory taste experience for the individual.

We're no longer just creating tea in a pack on a shelf. We're talking to our customers; we're giving them the tools to choose the right tea that best suits their moment as you would with a bottle of wine or an aged whiskey. Simply through guidance. The method is a tool for the tea drinker to help guide them through the different tastes and flavours in each individual blend across each category. Using bite-sized keywords to determine which blend is right for them.
