ARCADIAN SECRET

FROM SEED TO WELLNESS

The Arcadian Secret brand by Alexpant Ltd creates plant-based wellness solutions inspired by the Mediterranean's natural heritage. We cultivate, distill, and manufacture pure essential oils and functional aroma mists — and in 2026 we will expand with a line of essential oil-based softgel supplements.

Our manufacturing facility is certified under ISO22000 and organic standards, and moving toward GMP certification, our production is built on sustainability: zero distillation waste, 100% solar-powered facilities, and advanced water conservation.
