DECORKROME

Decorkrome adhesive coatings, excellence in every detail: with **top-of-the-range aesthetics**, to **the ease of application**, up to a **thickness** guarantee of maximum performance.

The **Decorkrome** line has been designed for the decoration and coating of any object.

The articles in this series are easy to apply, aesthetically beautiful and adhesive, they are also a perfect solution to give a touch of class to the items on which they are applied.

Decorkrome adhesive proposals can be used by exhibitors and advertising, set designers, art directors, furniture decorators, architects and interior designers.

Decorkrome adhesives proposals range are coated with standard permanent adhesive for applications on polish and plane surfaces and with ultra permanent reinforced adhesive for applications also on surfaces that are not perfectly polish and angular.

Decorkrome adhesive coatings are distinguished for:

- **Ease application** on all surfaces, MDF included
- Elimination of the **problem of air bubbles** and of the "orange peel effect"
- **Time savings** in application and decoration
- Possibility of **application on existing supports**
- Aesthetic appearance **similar to metal**
- Availability in different **glossy colors** (gold, silver, bronze, copper, steel) white and black
- Availability in sandblasted, satin, scratched and brushed **finishes**
- **Self-extinguishing**

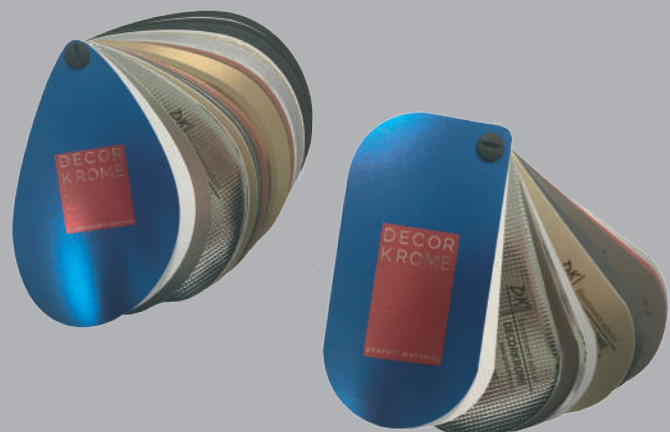

Decorkrome series consists of:

METALKROME: Sheet in metalized PVC with film in polyester. Supplied in rolls H. 140 cm. x 25 / 50 m. and in sheets size 70 x 100 cm.

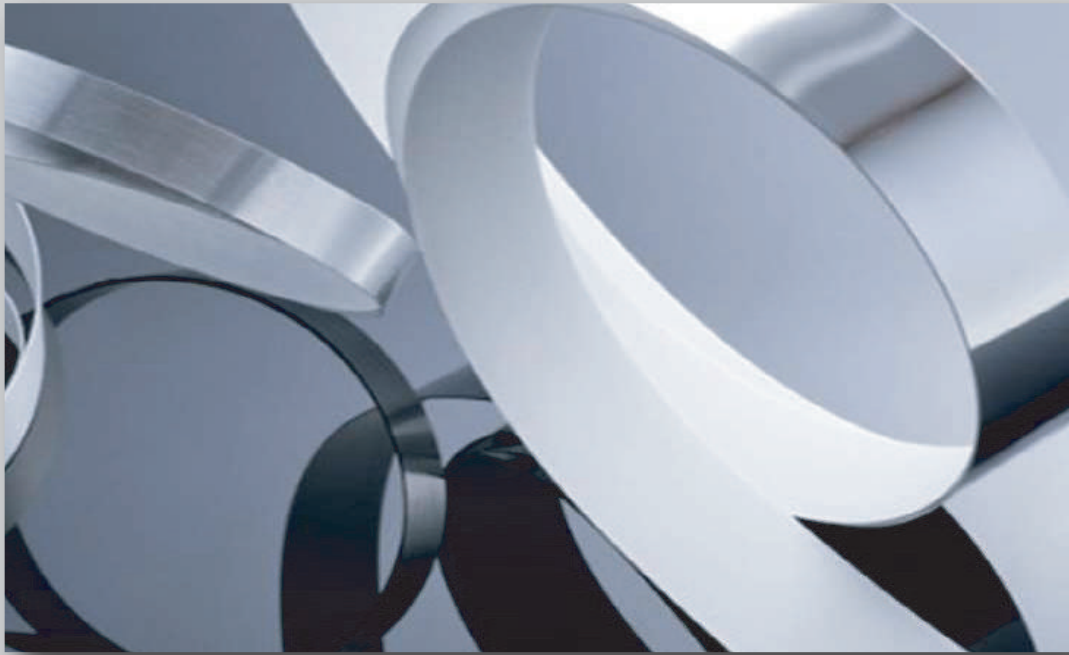

VINILKROME: Sheet in metalized PVC under surface. Supplied in rolls H. 135 cm. x 25 / 50 m. and in sheets size 67 x 100 cm.
