Papeterie de Mandeuere

With its 150 year history and know-how, Papeterie de Mandeuere, a French papermill has developed a full range of creative, ecological and innovative papers in response to the new demands of the luxury packaging and the food packaging markets.

FoodPack

Paper for direct food contact

Ecological and innovative, FoodPack is a range of papers and cards suitable for direct food contact, with or without grease barrier.

FoodPack is dedicated to cold and hot applications meeting the requirements of food packaging :

- **FoodPack** : without grease barrier for confectioneries, chocolates.
- **FoodPack CT** : colorless paper with grease barrier for the processing and manufacture of cold food packaging.
- **FoodPack HT** : with grease barrier for molds and backing trays for cooking (traditional oven, microwave)
- **FoodPack TGS** : colored paper with grease barrier for the processing and manufacture of cold food packaging.

Grammages from 80gsm up to 450gsm offer a wide range of applications.
