SMALL BATCH GLASS SERIES

***“Unique artisan glass language catalogue
for Craft Brands.”***

INGRID CORNEHL / QUEST CEO

CONTEMPORARY ARTISANS IN GLASS

Artisanal, small batch glass with a higher purpose.. Wildly Crafted is a community. We welcome the idea that imperfect in the manufacturing process is a good thing. It simply makes more economic and eco-sustainable sense to tolerate imperfection and reduce waste.

We turned away from mass-production and perfectness to embrace the idea of small batch production just like the artisan, craft-makers who use our bottles.

Sustainable Vision

INDUSTRIAL GLASS UP TO 100% RECYCLED

SUSTAINABLE FROM CONCEPTION

***“To be sustainable you must try to influence
all stages and levels of the process...”***

GERARD ALBERTI / ESTAL CEO

Embrace Imperfections.

Slight color variations and esthetic imperfections between them do not pose a problem, on the contrary, they are welcome.

Sustainability, based on own innovation.

We have rewritten the paradigms of industrial milling, created new methods and patented new procedures that allow us a degree of flexibility and efficiency unthinkable until today.

Up to 100% post-consumer-recycled glass content.

We work only with the industrial furnaces with the highest percentage of PCR (Post Consumer Recycled) glass on the market. Wildly Crafted bottles are not exquisite and accept all types of recovered glass.

The CATALOGUE

Hard and Original

PRIMAL

"The primitive". Its strong and blunt silhouette determines the hardest design of this collection. Looks like it was carved in stone, almost like one wanted to create a monolithic and imposing product.

Timeless Shape

NATURAL

An essential shape inspired by the simple curves of ancient terracotta amphoras and containers. It has an honest and direct appearance that does not hide the ravages of time displayed on its surface.

Differently Cut

BRAVE

Brave has been designed with an axe, that gave it a singular shape and a bold attitude. Its bottleneck is a more contemporary and essential interpretation of the "whiskey style". The texture reproduces bumps and grindings, as if it had been carried by a stream.

Born beside the Road

BOBBER

Inspired by a road trip on two wheels. This bottle sums up the concept of rebellion and freedom and will lead you down paths never considered before. Cylindrical and powerful, mechanical but natural.

To the "Wild" Breweries

BOBBER Jr.

This little one constitutes a great innovation for the brewers' channel. It has been designed to pay homage to the big world of craft beers.

At a time when technology is changing our consumption patterns, handcrafted products are experiencing a comeback and consumers are choosing to go back to the origins in need of authenticity and honest products. Perfection is a soulless characteristic of industrial super-automation.
