

TRANSFORM THE WAY YOU CLEAN

THE RANGE 2022

Experts In Precision Cleaning

#TeamMotorScrubber

We Believe EVERY BUILDING NEEDS A MOTORSCRUBBER®

We are the market leader in compact scrubbing machines. We focus on performance and speed so you can deliver a five-star cleaning standard in the shortest possible time.

We push the boundaries of what is mechanically possible, setting standards through invention and innovation. Using science, we reinvent the cleaning process for a modern world.

Details matter. From stairs to edges, from kitchens to bathrooms and everything in between, you can now dominate every cleaning challenge with our professional equipment.

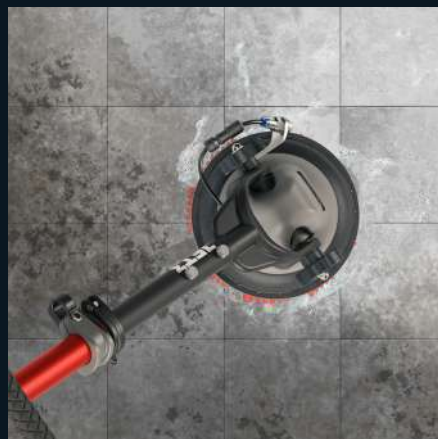

Designed, engineered and built in Sheffield, England, we stick to our industrial roots and create the highest quality equipment for professional use. Our talented in-house design team meticulously engineer every element to guarantee longevity and reliability in all our machines.

Sustainability is a major focus for us at MotorScrubber. That is why our products are considerably designed with exceptional scrubbing action and on-demand spray to eliminate harsh chemicals and excess water. Our machines are built to last using durable, high-quality components that will never let you down. Fewer machine breakdowns mean fewer technician visits polluting the atmosphere and a greener, cleaner planet for everyone.

Our vision is simple; every building needs a MotorScrubber.

DEEP CLEAN. MAINTAIN. TRANSFORM.

The ultimate two-step process to deep clean, maintain and completely transform every floor.

Step 1: DEEP CLEAN

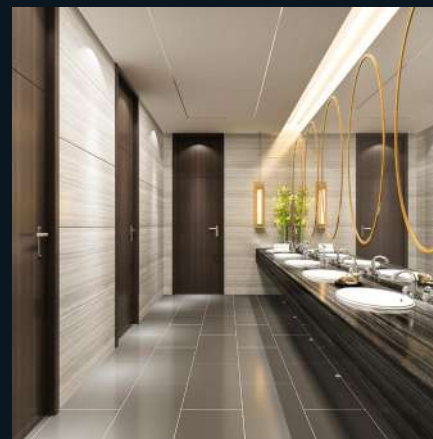

Introduce periodic deep cleaning to your facility and tackle stairs, edges, corners, and more. Our powerful scrubbing machines release ingrained dirt from any surface for extraordinary results.

Step 2: MAINTAIN

Destroy your dirty string mop and use BLADE to exert up to 80x more pressure and remove more dirt every time.

Eliminate filthy buckets and deliver fresh solution at the touch of a button. Tackle grout lines and tight edges with the precise squeegee blade and clean large central areas in no time.

TRANSFORM

Watch as your floors are transformed back to new with the ultimate DMT system.

When finished, hang the lightweight products on the convenient wall docking system.

ONE BACKPACK THREE POWERFUL MACHINES

Be armed and ready to face your cleaning challenges with a single backpack.

Load your solution of choice, connect your machine and get cleaning.

Connect. Scrub. Go.

Deep clean floors, stairs, and edges with JET3, our lightweight and robust rotary scrubbing machine.

Page 10

Tackle any cleaning challenge, even corners, with SHOCK, our industrial, oscillating cleaning machine.

Page 6

Quickly clean and disinfect tables, surfaces, and frequent touch points with STORM.

Page 12

SHOCK

SHOCK
Coming Soon

Baseboards scrubbed with a single motion

Cleans any corner

5000rpm for fast, powerful coverage

Precision edge cleaning

Stairs cleaned safely at speed

Cleans under the tightest spaces

Groundbreaking Cleaning Performance.

A new standard in oscillation scrubbing machines.

Industrial strength, compact size. SHOCK's cast stainless steel chassis and optional weight kit provide huge downforce for unbeatable results. The aluminium oscillating drive plate connects to our state-of-the-art digital motor, delivering 5000rpm of powerful scrubbing action.

With the world's lowest profile head and groundbreaking design, SHOCK is our most advanced cleaning machine yet. The slimline rectangular shape enables easy corner cleaning and allows the machine to instantly flip vertically for baseboard and stair cleaning. Optimised for smooth and fine-textured floors, if SHOCK can't clean it, nothing will.

SHOCK KEY FEATURES

- Powerful 5000rpm scrub technology
- Quick-connect weight kit
- The world's lowest profile head
- Precision cleaning for corners and edges

STEPS TO
SUSTAINABILITY

SHOCK uses minimal water and powerful agitation to eliminate the need for harsh chemicals.
It's better for our planet.

SHOCK

BACKPACK

Run Time	1 hour Quick change battery for additional runtime
Charging Time	Up to 8 hours or overnight
Battery Spec	12 Volt 7AH sealed battery
Solution Capacity	1l (0.2gl)
Backpack Weight	3.8kg (8.4lbs) secured to waist

HANDLE

Machine Weight	2.5kg (5.5lb) 4.5kg (9.9lb) with weight kit
Telescopic Handle	70 - 140cm (27.6 - 55.1in)
Operation	Easy press-and-go controls
User Comfort	Soft rubber grips

HEAD

Cleaning Width	240mm (9.4in)
Scrubbing Power	5000rpm
Linear Baseboard Performance	Spray, scrub and dry 10m (32ft) in 80 seconds

*Product still in development, spec is subject to change.

The Original MotorScrubber.

Small machine, big power.

Designed for small, hard-to-reach areas, M3 takes on stairs, edges, bathrooms and kitchens with ease. Deep clean your confined spaces and experience outstanding results every time.

Powerful rotary scrubbing cleans tricky areas often neglected by other machines. Able to withstand 7kg/15lbs of downforce, the motor's extreme torque makes the M3 unstoppable.

From floor cleaning to wall scrubbing, the possibilities are endless with the telescopic handle that adjusts the machine height to suit any user. Waterproof construction means M3 is also perfect for poolside and waterline cleaning.

Combined with our vast range of accessories and battery-powered backpack, M3 guarantees exceptional results.

M3 KEY FEATURES

-  Powerful 360rpm scrub technology
-  Backpack with built-in battery
-  Lightweight
-  Fully submersible with no shock risk

WHAT'S IN THE BOX

1. M3 Machine
2. Gen 3 Battery Backpack
3. Medium Duty Brush
4. White Buffing Pad
5. Red Polishing Pad
6. Green Scrubbing Pad
7. Microfibre Pad
8. Pad Holder (Drive Plate)

BACKPACK

Run time	2 - 3 hours Quick change battery for additional runtime
Charging Time	Up to 8 hours or overnight
Battery Spec	12 Volt 7AH sealed battery
User Comfort	Fully adjustable for any user All-day comfort guaranteed
Backpack weight	3.1kg (6.8lbs) secured to waist

HANDLE

Machine weight	1.5kg (3.3lb)
Telescopic handle	70 - 140cm (27.6 - 55.1in)
Operation	Easy press-and-go controls
User comfort	Soft rubber grips

HEAD

Cleaning width	180mm (7.1in)
Scrubbing power	10,000rpm geared to 360rpm
Drive mechanism	Metal long-life gearbox
Materials	High impact GF Nylon casing

Targeted Spray-Scrub Technology

Boasting all the features of the M3, JET3 offers additional on-demand solution application to speed up cleaning everywhere. By releasing the perfect amount of liquid alongside the unstoppable scrubbing action from the 360rpm extreme torque motor, JET3 delivers unbeatable results in small areas.

The compact head fits into tight spaces that other machines simply cannot reach, releasing ingrained dirt no matter the challenge. Our convenient quick-change solution bottle fits into the belt of our lightweight backpack to spray as much or as little as you need to release dirt from the surface.

Scrub faster, clean smarter.

JET3 uses minimal water and sprays just the right amount of solution when you need it.

It's better for our planet.

JET3 KEY FEATURES

-  Use less solution with targeted, on-demand spray
-  Powerful 360rpm scrub technology
-  Backpack with built-in battery
-  JET3 backpack, also compatible with SHOCK and STORM

WHAT'S IN THE BOX

- 
1. JET3 Machine
 2. Gen 3 Battery Backpack
 3. Medium Duty Brush
 4. White Buffing Pad
 5. Red Polishing Pad
 6. Green Scrubbing Pad
 7. Microfibre Pad
 8. Pad Holder (Drive Plate)

BACKPACK

Run Time	2 - 3 hours Quick change battery for additional runtime
Charging Time	Up to 8 hours or overnight
Battery Spec	12 Volt 7AH sealed battery
Solution Capacity	1l (0.2gl), can cover 21m ² (226ft ²)
Backpack Weight	3.8kg (8.4lbs) secured to waist

HANDLE

Machine Weight	1.7kg (3.7lb)
Telescopic Handle	70 - 140cm (27.6 - 55.1in)
Operation	Easy press-and-go controls
User Comfort	Soft rubber grips

HEAD

Cleaning Width	180mm (7.1in)
Scrubbing Power	10,000rpm geared to 360rpm
Drive Mechanism	Metal gearbox
Materials	High impact GF Nylon casing

STORM

Spray. Clean. Protect.

Professional cleaning and disinfection in a lightweight hand-held wand. Replace slow, laborious trigger sprays with a high-speed swirl nozzle that delivers a perfectly even spray coating to protect both your customers and your surfaces. Level up your productivity and dominate larger surface areas with on-demand spray power.

Clean and disinfect all frequently touched surfaces, tables, handrails faster than ever before.

STORM KEY FEATURES

- Use less solution with better coverage and on-demand spray
- Ballistic, high speed swirl nozzle
- Super lightweight, providing ultimate cleaning freedom
- Backpack with built-in battery

WHAT'S IN THE BOX

- 1. Storm Wand
- 2. Gen 3 Battery Backpack

STORM WAND

Droplet Size	68 microns
Spray	Optimum coverage at 30cm (11.8in) Max distance 120cm (47.2in)
Coverage	75m²/ litre (807ft² / 0.2gl)
Flow	77ml (2.6fl oz)/ minute
Weight	0.3kg (0.7lbs)

BACKPACK

Run Time	1.5 hours continuous spray Quick change battery for additional runtime
Charging Time	Up to 8 hours or overnight
Battery Spec	12 Volt 7AH sealed battery
Solution Capacity	1l (0.2gl)
Backpack Weight	3.8kg (8.4lbs) secured to waist

Attach our M-Wipes system to your backpack belt and easily dispense a specially designed cleaning cloth for fast, hygienic surface cleaning. Simply wipe the surface and dispose of the cloth in the waste pouch for a professional, hygienic solution.

BLADE

UP TO 80x
MORE SURFACE PRESSURE

More Surface Pressure

The precision edge exerts up to 80x more surface pressure onto the microfibre mop to remove more dirt and grime with every clean.

Quick-Change

Switch one ultra-microfibre for another with a simple slide off, slide on.

Reset. Reverse.

Reset the rubber blade onto a new section of ultra-microfibre to maintain fresh, clean contact points. Once one side is fully used, flip over and continue using the reverse side for up to 4x more coverage.

No Need For Buckets

With its refillable handle and built in spray, BLADE sprays fresh, clean solution on-demand, activated by the push of a button.

Spray

With its refillable handle and built-in spray, BLADE delivers fresh solution at the push of a button.

Pressure. Precision. Performance.

Cut through more dirt for an unbeatable clean with BLADE's immense performance. The precise rubber squeegee blade cuts deep into tight edges and grout lines to transform your cleaning results. With up to 80x more pressure than regular mopping systems, BLADE removes substantially more dirt every time. Simply reposition the squeegee multiple times on the ultra-microfibre mop for a fresh contact point.

Forget your dirty string mop and filthy bucket and deliver fresh solution at the touch of a button. BLADE's refillable handle with water level indicator and three built-in jets delivers clean liquid on demand to ensure you are always removing dirt, never spreading it around.

Slide off the ultra-microfibre mop and use the super flexible squeegee after scrubbing with JET3 to direct dirty liquid straight into a floor drain, leaving no trace on your now sparkling floors. No floor drain? No problem. Simply attach the A-Fibre to absorb up to 500ml with each mop.

Clean better, clean faster.

BLADE KEY FEATURES

Refillable handle delivers fresh solution with every spray

Up to 80x more surface pressure

Precision cleaning for edges, grout, and tight corners

Up to 4x more coverage with each reversible ultra-microfibre

WHAT'S IN THE BOX

- 1. BLADE Handle
- 2. BLADE Frame
- 3. S-Fibre

ULTRA-MICROFIBRES

Colour-coded tabs

Machine washable up to 500 wash cycles

S-Fibre (scrub)

Non-scratch scrub fibres recommended for the daily maintenance of rough or textured floors.

G-Fibre (glide)

For daily maintenance cleaning. Recommended for use on smooth floors.

A-Fibre (absorb)

For mopping up spills, or to dry the floor. Absorbs up to 500ml (16oz) of liquid.

HANDLE

Solution Capacity

700ml (23.7fl oz)

Three built-in spray jets

Refillable aluminium handle with water level indicator

Non-slip handle

FRAME

Flexible rubber squeegee blade tracks floor surface and texture

Channel to easily slide on ultra-microfibre cloths

Higher. Faster. Cleaner.

Make light work of heavily soiled surfaces using our powerful 360rpm motor.

Designed for industrial scrubbing, PROWASH can reach vertical surfaces up to four meters high. The easily transportable cart can hold up to 50 litres of fresh water and five litres of chemical concentrate inside a robust stainless steel chassis.

PROWASH sprays the solution onto the desired surface, and then MotorScrubber's signature rotary motor and powerful scrubbing motion transforms the surface back to new.

Whether it is vinyl siding, trains, buses, aircraft, factory walls, external cladding, or signage, for all-in-one professional cleaning, PROWASH is the solution.

PROWASH KEY FEATURES

- 4x faster than manual methods
- Carries both chemicals and water for optimum results
- Drastically cuts exhaustive labour
- Easy to use — just plug and go

WHAT'S IN THE BOX

HAND-HELD MOTORSCRUBBER

Charge Time	Up to 8 hours or overnight
Runtime	2 - 3 hours powered by backpack
Machine Weight	2kg (4.4lb)
Backpack Weight	3.1kg (6.8lbs) secured to waist
Scrubbing Width	18cm (7in)
Brush RPM	10,000rpm geared to 360rpm

PROWASH CART

Charge Time	5.5 hours
Run Time	8 hours
Cart Weight	35kg (77lb)
Cart Dimensions	H 104cm x W 51cm x D 71cm (H 40.9in x W 20in x D 27.9in)
Battery	12vdc sealed acid battery
Pump Pressure	11 bar
Pump Open Flow	8 litre/minute
Liquid Capacity	50 litres (13.2 gal)

FORCE

F•RCE

Clip On. Clip Off.
Clean Anywhere.

Transform your bulky scrubber into the ultimate cleaning machine by adding FORCE.

Simply attach FORCE to your scrubber's suction and clip it off to clean under benches, tables, down the side of toilets, and all other previously inaccessible areas. Force sprays cleaning solution, then scrubs with our powerful 400RPM rotary action. Two rear squeegees then dry the floor using the powerful suction of the larger machine.

FORCE KEY FEATURES

- Increased productivity
- Clean 100% of the floor
- Amazing cleaning results
- Fits to any scrubber dryer over 40 litres

Find the right accessory for your floor type

- Medium Duty Brush**

MS1038

Non-scratch fibres provide a brilliant deep clean to all smooth and textured floors and tiles.
- Aggressive Duty Brush**

MS1039P

Perfect for industrial environments, concrete, exterior surfaces, oil, grease, and food deposits.
- Tile & Grout Brush**

MS1039TC

Our most abrasive brush consists of grit filaments for deep cleaning tiles and restoring grout lines.
- Flagged Tipped Brush**

MS1044

Ideal for removing dust and cleaning plastic surfaces. Ideal for use with PROWASH for vehicle and exterior surfaces.
- Delicate Brush**

MS1038

Perfect for pre-scrubbing short pile commercial carpets and stairs before extraction. Also suitable for painted wooden surfaces.

- Red Stair Brush**

MS1049

Exceptional deep cleaning for all steps, up-rises, edges and baseboards.
- Green Stair Brush**

MS1049T

Made from grit filaments for deep cleaning stairs and base/ skirting boards with hard surfaces like concrete and resin. Perfect for outdoor steps and industrial factory floors.

Essential Range.

Our essential pad range has been designed for chemical cleaning across all types of hard flooring.

- White Buffing Pad**

MS1066

For buffing on hard floors. Use dry or with a fine water mist to give a high gloss wet look to new floors.
- Red Polishing Pad**

MS1064

For polishing hard and wooden floors. This will remove light scuff marks and dirt while giving a high gloss shine.
- Blue General Pad**

MS1068

For general floor cleaning.
- Green Scouring Pad**

MS1062

For cleaning greasy kitchens and floors. This pad aggressively removes dirt from heavily soiled surfaces.
- Black Stripping Pad**

MS1060

For stripping floor polish. Use with chemical or water-based stripping solution to remove finishes or sealers. Can also be used to clean hard surface floors, such as concrete.

3 Step Diamond Twister Polishing Range.

Designed for marble, granite, terrazzo, vinyl, and concrete floors. Just add water to create a beautiful natural shine.

- White Pad**

211763

Step 1: Refurbishing
- Yellow Pad**

211760

Step 2: Shine Creating
- Green Pad**

211759

Step 3: Shine & Maintain

Specialist Range.

From removing tough marks to polishing marble, this specialist range has you covered.

- Pad Holder**

MS1046

Interchangeable drive plate which easily attaches our pads using hook-and-loop technology.
- Crystalliser**

MS1071

Made with stainless steel wire wool to create a hard-wearing, super high gloss shine on marble surfaces.
- Maroon Stripping Pad**

MS1069

Our most abrasive pad is recommended for dry floor stripping and restoring many floor types, including wood, vinyl, Altro, concrete and stone.
- Melamine Pad**

MS1070

Recommended for removing the toughest of stains. The micro-abrasive sponge material provides incredible cleaning results.
- Microfibre Pad**

MS1053

Recommended for polishing surfaces and for carpet spot cleaning.

Grab. Clean. Dock.

Wall Dock MS1073

The perfect solution for limited storage space. Designed to be easily mounted to the wall and protect products from damage, our wall dock keeps your equipment neat and tidy.

Professional. Organised. Portable.

M-CASE PRO MS3070 / MS3070KIT

M-Case Pro holds two machines of your choice, the BLADE mopping system, and all our brushes and pads. The attached wheels make the case easily transportable, allowing you to tackle any cleaning challenge at any location.

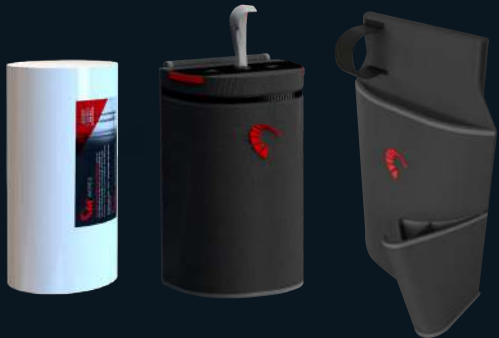

M-CASE MS3061:

M-Case holds one machine and backpack with up to four accessories for a simple, convenient and weatherproof travel case. Ideal for those smaller cleaning challenges.

Foldable Bottle Carrier MST5

Take the weight off your back with the foldable bottle carrier. Includes eight slots for carrying 1litre (0.25g)l) refill bottles or rolls of M-Wipes.

M-Wipes Kit MSS31

The patent-pending M-Wipes system allows disinfectant to be applied to every side of 3D touch points that are often missed by other spraying machines.

The disposable cloths also provide more hygienic table and surface cleaning with excellent results. The non-absorbent PP material applies disinfectant without drying the surface, maintaining contact/dwell time.

What's next?

We believe we have invented the world's fastest floor cleaning machine for small and medium-sized areas. A design so radically different, you have to see it to believe it.

All our years of knowledge, experience, and innovation have been consolidated into a state-of-the-art product that has never been seen before, with 9 worldwide patents pending.

DRYFT has been designed with limitless potential. It cleans and dries central floors, edges, corners, and hard-to-reach areas with speed and precision, all packaged in a lightweight, compact, easy-to-use device.

Since the initial idea, we have developed hundreds of prototypes at MotorScrubber HQ in Sheffield, UK. We continue testing, innovating and engineering every day to make DRYFT the best cleaning machine in the world.

Get ready for DRYFT to transform the cleaning world in 2023.
