Custom Print	Option

Performance and Load Capacity

Application	Load Distribution	Max. Load [kg]
Static 	Even ¹	1.200
	Non-even ²	800
	Concentrated ³	300
Dynamic 	Even	600
	Non-even	400
	Concentrated	200
Open Rack 	Even	n.a.
	Non-even	n.a.
	Concentrated	n.a.

When stacking loaded pallets on a solid, even surface, the bottommost pallet must not exceed

1.200

¹ Compact, sturdy, well integrated, wrapped loads (e.g., large boxes, interlocked medium boxes, foil-wrapped small boxes)

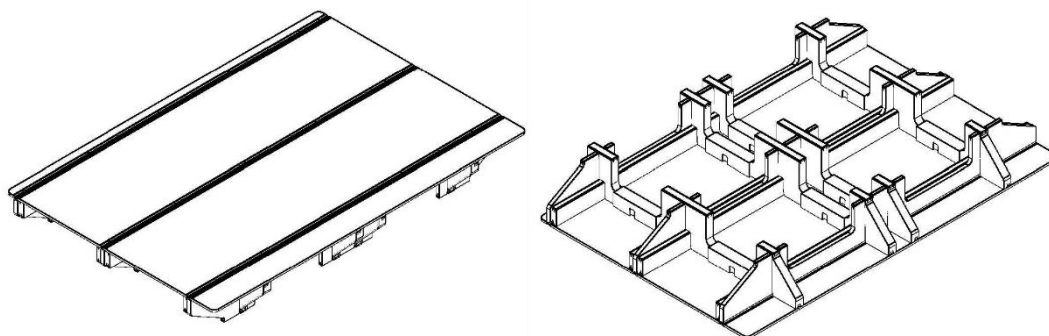

² Loose unwrapped loads applying unbalanced force to the pallet (e.g. sacks)

³ Loads not covering the full pallet loading area, positioned (e.g. large cylinders)
